### OUTLINES.

The Egyptian Khedive gives Gen. Sherman's daughter \$300,000 worth of jewels. - Two New York railroads reduce salaries ten per cent. - The Congressional filibustering continues. - Frightful scenes at burning of insane asylum in Canada. - \$60,000 tobacco fire at Deerfield, Mass. - Disturbances at Pekin. -Woolen mills burned at Manayunk and 800 operatives ousted. - New York Markets: Cotton quiet 154@154; pork firm \$19 75 for new mess; spirits turpentine firmer 381; rosin steady and dull; gold active 113@1131. - Radical Senate caucus passed resolution sustaining Grant's Louisiana amusement; there were eight dissenting votes.

## The Legislature.

[Condensed from Raleigh Sentinel.]

## FORTIETH DAY.

FRIDAY, Jan. 29. Mr. Jenkins, bill to incorporate a bank in Gaston county. Referred. Mr. McElroy, resolution to adjourn sine die the 15th of February. Lies

Mr. Parish, bill to provide for the employment of convicts in the penitentiary and for other purposes. Referred.

#### THE SWAMP LANDS.

Mr. Bell's bill for the improvement and reclamation of certain swamp lands in New Hanover and other counties up as special order. Mr. Bell amended.

Mr. Linney opposed the bill in its present shape. The Board of Education proposed to give half of the five hundred thousand acres of swamp land to a canal company for its ditching and draining. Now this land at \$20 per acre will bring \$5,000,000, enough money at \$15,000 a mile to construct a railroad from the seacoast to the Tennessee line. It would be a poor trade to give this away to a canal company just for its draining and ditching, as foolish as killing the hen that laid the golden egg.

Mr. Morehead favored re-referring in order to frame another bill. Mr. Bell supported the bill in a

very handsome way. Mr. French favored the bill, but

moved its reference. Mr. Kerr explained the only law points in the bill and argued its geological facts-it was a puzzle to him what to do. There were five rivers running through these swamps, as close as five fingers on a man's hand. and it seemed a geological impossibility to cut a canal.

Mr. Parish favored reference. Mr. Shaw favored the bill. Mr. LeGrand amended. Bill was referred, (Mr. Latham in

the chair.)

Mr. Linney's Usury bill, making 6 per cent legal interest and limiting it to 8 per cent, working forfeiture of whole amount to exceed it. Pending discussion the Senate adjourned.

# HOUSE OF REPRESENTATIVES.

THURSDAY, Jan. 29.

The resolution of instruction to our Congressmen in relation to the establishment of an uniform rate of interest, was taken up. A very long discussion ensued in which Messrs. Norment, Means, Pinnix, Mebane, Oaksmith, McRae and Staples participated.

Mr. Staples offered a substitute asking Congress to restrict National Banks to 6 per cent. interest. Mr. Norment, the introducer of the original resolution accepted the substitute.

Mr. Pinnix opposed the resolution, and deprecated Federal intervention in matters of home policy and rule. The rate of interest was a matter peculiarly for each State to settle for itself. He wanted a low rate of interest, but he wanted each State to say what it should be.

Mr. Means moved to postpone un til the 3d of February. Mr. Spears argued against the res-

olution at some length. Mr. Tate advocated the resolution. Mr. Norment next took the floor in support of the resolution.

Mr. Means movey to indefinitely postpone the whole matter. Mr. Richardson moved to amend by saying that Congress prohibit Na-

tional Banks from paying interest on deposits. Mr. Hurley wanted the matter postponed until a day certain, in order that time might be allowed for

examination and discussion. The question recurred on the motion to postpone indefinitely, and it was carried by a vote of yeas 63,

- The editor of the Asheville Expositor, who was in Raleigh during th recent conference, writes to his paper as follows: It is believed that the Executive Committee will report in favor of calling the Convention, but from indications the bill cannot get the requisite two-thirds in the Legislature to insure its passage. This will put this question where it ought to have been—at rest! and the Legislature can go to work in perfecting the several vital questions now pending, in which the wel-fare of North Carolina is deeply involved. The people are tired of commotion and change, and we have too many elections already, and they want to see something done to ameliorate the distressed condition of the people. The people are tired and disgusted with political wrangles, such as the calling of a Convention would involve.

River of 80 cent are the districted with political wrangles, such as the calling of a Convention would involve.

# THE MORNING STAR.

VOL. XV .-- NO. 111.

Spirits Turpentine - The Oxford Leader has been enlarged to twenty-eight columns. It is a apital weekly paper.

- Messrs. Williamson & Charles have changed the name of their paper from Southerner-Enquirer to Tarborough South-erner—the old name.

- Louisburg Courier: Wm. Henry Dunstan, a colored man living on the plantation formerly belonging to Captain Charles Thomas, about two miles from this place, had one of his little children burned to death one night last week.

- Newbern Times: On last Tuesday morning, about 2 o'clock, the gin house and grist mill belonging to Messrs. John N. and Hardy Whitford, situated on Island Creek, seven miles from this city, was entirely destroyed by fire. The building contained twenty bales of cotton, ginned and unginned, which was also consumed, entailing a loss of \$4,400 on the proprietors, who had no insurance. The fire is known to be of incendiary origin.

- In the next number of the Ilhustrated Washington Chronicle will appear a paper written by General and ex-Senator Clingman, of North Carolina, on the subject of "gradual Development," as taught by Darwin and others of his school of modern philosophers. The Chronicle speaks highly of the composition, and adds: We understand that Senator Clingman has conditionally promised to comply with an ur-gent request to deliver in this city a lecture on the "Relations of Science to Christianity," at as early a day as his professional engagements will permit

- Winston Sentinel: The Legislature of 1870-'71 defeated the Conservative party in 1872 by their ill-advised Convention bill, and we do hope that the present Legislature will not do the same thing for us in 1876. While the white people of the State recognize the necessity of some amendments to our Constitution, the difference of opinion that exists among them as to its policy is too great to be reconciled.

At least one half of the Conservative party are opposed to the call of a Convention by the present Legislature, and if that body disregards the sentiments of that portion opposed to a Convention they must be held responsible for the result in 1876.

To the Patrons of Husbandry. We print the following circular, received from Mr. T. M. Moore, Secretary of Cape

Fear Council P. of H.: At a meeting of the Cape Fear Council of the P. of H., held in Wilmington, N. C. on the 17th of December last, the impor tance of the farmers, and especially the Patrons of Husbandry, taking an active part in the Cape Fear Agricultural Association and Fairs, was discussed and the officers of the Association expressed a willingness to make any arrangement with the order that would give satisfaction and build up said Fairs. There was a committee appointed, who waited upon the Association and were kindly received and arrangements were made to ascertain the financial condition of the Association and at the next meeting of the Stockholders, which is the second Friday in February next, lay before the Council a correct report of their financial condition and allow the Grangers to take whatever part they might desire.

There has been a disposition to hold aloof from these Fairs on account of the management of them heretofore. Now, brethren, if we are alive to the requirements of an Agricultural people these Fairs are essential to our growth and prosperity; then come forward at our next meeting here on the second Friday in February and take part in the management of the coming Fairs. We must have something of the kind if we are prosperous, and at what point can you get the accommodations necessary in this portion of the State other than Wilmington? Here we can have guaranteed us the assistance of the Railroads, the business men of 56 50 tance of the Railroads, the dusiness men of 50 00 the city and the citizens generally. Then come prepared to act and let us all unite in showing to the world the grandest exposition of agricultural products ever seen in eastern North Carolina.

It is essential at the next meeting that there should be a full attendance; it is time to make arrangements for supplies for the year, farming implements, &c., &c. This can be done through the order at a great saving and many questions of great impor

tance will be before the Council. All the Granges of the Cape Fear region, who have not yet united with the Council and aid us in giving that assistance to the Fair that our united interests and success demands.

The Weather To-Day. During Sunday, in the South Atlantic States, falling barometer, rising temperature, south or west winds, and clear or

partly cloudy weather will prevail.

Rev. C. M. Payne returned to the city ast night and will occupy his pulpit to-day. We are glad to learn of Mr. Payne's great improvement in health.

ment. Verdict not guilty. In the case of the State vs. Nancy Laspeyre, in which the jury were out when our last report was made out, the jury returned

verdict of not guilty.

A Necessary Improvement. The proposition to build a bridge over the Northeast branch of the Cape Fear River, at Croom's Ferry, is just now attracting some attention. The idea seems to be a good one, and if carried out it will materially benefit our city, as it takes a very important step towards facilitating the conveyance of large quantities of tar, turpentine and other products, in which that section is said to abound its immense resources having been but slightly drawn upon up to this time, on account of its distance from a market. This fact will be plainly understood when it is known that Croom's Ferry, the point at which the bridge is proposed to be built, is the highest point of constant tide water navigation for steamboats, the river above that place abounding in sboals. The idea is to connect the two opposite shores of the river by a bridge, and then build a road from this point across Angola Pocoson, and in the direction of Duplin aud Onslow. The distance across the Pocosin is about eight direction of Duplin aud Onslow. The distance across the Pocosin is about eight Miss E Hensly, Julia Hill, J T Hastings, miles, and such a road, traversing such a Sandy Herring. section, would bring much valuable land into demand. This, we think, would be a move in the right direction. One steamboat man has already offered to subscribe \$200 00 to build such a road. The State would do well, we think, to aid in the construction of such a road, as its beneficial

The Belgian Block Pavement. We learn that the jury of six appointed, three on the part of the Front street property-holders and three on the part of the agree fully, and have therefore been disof the assessment each property-holder along the line should pay.

The Marine Railway of Messrs. Cassiday Bros., which was so seriously damaged, is now undergoing a thorough course of repairs. The sheds are being replaced and improved upon, and the machinery has been receiving the necessary repairs. In a short time the reprire will be completed and all things in readiness for the further carrying on of the Marine Railway.
