The Fire Sunday Morning.

We learn the following additional particulars in regard to the fire which occurred on Sunday morning:

The building, which was the property of Mr. John E. Neimyer, as before stated, was insured for \$1,450 in the Hartford Fire Insurance Company, of which Messrs. Atkinson & Manning are the Agents in this city. The furniture and store fixtures, also the property of Mr. Neimyer, were insured in the same company, the former for \$300, and the latter for \$50. The stock in the store, the property of Mr. S. A. Craig, was insured at the same Agency in the North

America Fire Insurance Company for \$600. The origin of the fire is still not definitely known. It is supposed to have ignited

Attempted Robbery.

On Sunday morning, Master Benjamin Price, who resides with his mother, Mrs. A. L. Price, on Fourth, between Princess and Chesnut streets, returned from the firereaching home about 4 o'clock, and found the back door of the house (which he had left unlocked) ajar. He at once fastened the door, putting down a night latch, and when he reached the head of the stairs he opened a door and a small dog that belonged in the house sprang out, and ran barking down stairs. Master Price followed, pistol in hand, and espied a colored would be thief making frantic efforts to unlatch the front door. He cried to him to halt, and at once fired upon him, the ball from the pistol going through the penel of the door at a spot that must have made the thief tremble for his life. The "cullud pusson" at last made an extra effort and escaped, leaving a coat, in the pockets of which there was a pair of kid gloves, in the yard.

1874.-Messre J. & W. Tolley, 29 Maiden Lane, NEW YORK-DEAR SIRS:-I have just returned from a shoot with the President of our read, Henry Strong. On one occasion five curiews came over us. I said to him, "Let us try them." He replied, "There's no use, they are too high." I raised my gun and killed two of them dead. I cannot say how high they were, but am sure they must have been at least 70 or 75 yards. One was shot through and through, the shot entering under the breast and going out at the back. I used No. 5 shot, 1 oz., and 4 drs. of powder. Of course his was a large charge of ton's cart house. In the Second Precinct of the said powder and large sized shot for birds of their size, but this is an advantage I claim for yar guns, which enables one to use one or two sizes larger shet and shoot them as close as ordinary guns with the fine size. This is a great advantage when birds are wild and difficult to kill. I never had two harder or closer shooting guns than the two you turned out for me, and I can confidently recommend your weapons to sportsmen, feeling sure they will not only be pleased with the splendid quality of material used in their construction, the perfect workmanship displayed in the fitting of all the parts, and style of finish throughout, but with the fine shooting qualities of your weapons, which. I think, are unrivaled. I give this recommendation after two years the use of your guns, having used them in all kinds of sheoting, and never at any time have I had reason to wish for better or more reliable weapons. They suit in every respect.
