Coroner Hewlett on Sunday held an inquest over the body of some unknown man which was found in the water near Rat Island, a point on the Northeast branch of the Cape Fear River, about five miles from this place. The body was taken from Rat Island to Rock Hill, about half a mile distant, in order thai the jury might have a better opportunity of viewing it.

The deceased was white and seemed to be aged between 40 and 50 years. His hair was dark and slightly inclined to be gray. His height was about medium, and beyord this no other marks could be ascertained, as the body bore the appearance of having been in the water about two months, and was in consequence very much mutilated. Deceased was dressed in a blue broad-

cloth frock coat and a vest of like material, and steel-grey pants of a fine texture. He also had on a costly chinchilla overcoat and in attire betrayed the genteel and dressy man of business or wealth. A bullet hole about the size of a Colt's revolver ball had pierced his left breast in the region of the heart, and it is supposed that the deceased came to his death from a pistol shot, and must have been cast in the river at some other point and his body have drifted to Rat Island.

The Coroner's jury, after ascertaining the above facts, rendered a verdict that the deceased came to his death by a pistol shot in the hands of some person unknown to the

There were no papers on the person o the deceased by which his remains could be definitely identified, and the whole affair is shrouded in mystery. The body was interred near the spot, and thus, perhaps, ends the last sad act in some gloomy and

Oldham, et al.: This is a bill to enjoin defendants, who registering voters or holding an election cipality recently granted by the Legislature.

The reason alleged by the complainants why this remedy should be given is that the law amending the former charter of the city is unconstitutional-first, because the districts into which the city is divided are largely unequal in proportion, though they have the same representation in the City Counce, and that this is particularly true of the colored population, which, it the third district by itself is larger than the population of both the other districts; and, second, because the amended charter prescribes other qualifications for voters than are prescribed for voters in the Constitution of the State, which are particularly oppres

sive to the colored people. Whatever may be said of the propriety or impropriety of the legislation in question, we are of opinion that the remedy sought is not a proper one. There is no George Sloan, H. Vollers, James Reilly, fact of great disorder and confusion which would arise when there were two contend ing bodies claiming to be the Common Council and to be entitled to the government of the city. The remedy for this is the writ of que warrante, brought by those out of possession of the office against those who hold it, and we know of no case where a Court of Equity has interfered by injunction to prevent an election apop che

general grounds of fear, common citizens, even if the law under which about to be held was clearly unconstitu As is said by the Supreme Court of h State of Pennsylvania, in Smith vs. McCar thy, 6th Equity Pennsylvania Reports, Che power ought to be plain to authorize courts to forbid municipal elections when ordered by the Legislature, and we may add hat before they exercise it there should be some threatened irreparable danger to the person

or property of those who seek the remedy. If this election be an illegal, unconstitutional one, the remedy by quo warranto i complete. If it be a legal one, and the complainants or any of the citizens are deprived of their rights under the 14th or 15th Amendments of the Constitution of the United States, there is ample remedy in this Court by indictment and otherwise under the acts of May 30th, 1870, and February 28th, 1871, to punish the wrong done and to restore the rights of the parties.

We think the injuction must be refused.
