- Raleigh News of Friday: Judge Watts yesterday heard the case of the State vs. Sirree Haywood, indicted for playing at the wheel of fortune, the defendant having made a motion to quash the indictment upon the ground that the grand jury of the last term of the court was improperly drawn because of some townships being left out. Judge Watts overruled the motion to quash the indictment, holding that the grand jury was a valid one. The defendant will appeal from this decision. To-day a case somewhat similar but involving a different point will be considered. It will be upon a motion to quash the poll tax indictments, some 2,600 in number, upon the ground that the witnesses before the grand jury were not sworn according to law, two witnesses giving evidence in more than 2,000 cases when they had only been sworn once in open court, and also upon the ground that the recent act of the General Assembly divests the Superior Court of its jurisdiction in the cases.

Important to all Persons Subject to

the Tax Laws. In these trying times, when all are on the make, it may not be amiss to remind our citizens of the great importance of listing their real, personal and poll taxes in time. The law says that it shall be done and puts a penalty on those who do not comply with its requirement. The time for listing will expire on the 23d inst., and all persons who have not listed their taxable property by or before that time will, we are informed, certainly be put on the delinquent list, and then what a rich harvest there will be for 5, of which 1 was an adult, and 4 were chil- the magistrates. Heretofore there have been no indictments of delinquents, but as the disposition in other parts of the State is to indict in all such cases, the fever has become epidemic, and our magistrates are no doubt awaiting the time for an attack with

a keen appetite. We advise all that have not listed to go up, before the expiration of the time, to they will save themselves annoyance, trouble in such condition as will increase their repend extra expense.

Active preparations are being made to constitute the affair the grandest ever given within the borders of our State. To further this end the following gentlemen have been chosen as a committee

Good for Southern Truck Farmers. Under this head the American Grocer, published in New York, says: "The severity of our winter, now just breaking up, will have the effect of retarding the planting and growing of early vegetables everywhere in the North. Farmers in this section say they will not be able to get into the ground much before May. There are at least two feet of frost, and until this is all out the ground will be muddy and unfit for ploughing. There must an allowance also be made for rainy days, which will retard the proper condition of the soil. Last year at this time farmers in this vicinity had some kinds of early vegetables in the ground. Southern farmers may therefore expect a longer and more profitable season than usual, and we trust they will the City Court room and do so, as thereby see to it that they send us such goods and
