LOSS OF STEAMSHIP SCHILLER.

Mrs. Christine Toen's Statement-Affecting Incidents of the Fatal Dis-

Mrs. Christine Toens, the only lady saved from the Schiller, having recovered somewhat from the shock on her nervous system, relates to a lady correspondent the following incidents of the shipwreck : "SAVE ME AND MY CHILD."

She said among the passengers was a lady who had a beautiful little boy; he was everybody's pet on board, and would be seen playing all day long with his mother or other ladies and gentlemen. After the steamer had struck the rock that lady, with her boy in her arms, rushed frantically upon deck, and fell upon her knees before a sailor: "Save me and my child, for God's sake! I am immensely rich save me, and thou shalt be wealthy and without cares forever. I will give thee enough for all thy life. Thou need not be a sailor then-only save me and my child."

A big wave swept over the deck and carried away the rich mother, her beautiful child and the poor sailor. Another lady on board had a little

girl about 3 years old, who looked like an angel. The mother being mostly seasick would not allow anybody to take the child away out of her sight. Many ladies offered to play with the child on deck, but the mother always objected on the ground that the child might be burt or even fall overboard through carelessness. Her child in the water! The bare idea would already make her mad. When the catastrophe came the mother rushed on deck with her child on her arm and jumped into the sea. The idea of seeing her child in the water had made her mad. Mrs. Toens further said: "We had a great many handsome children on board, whose gayety amused everybody, and, though childless myself, it almost breaks my heart to think that mot one o hen has been saved."

A Compromise Constitution for Spain -tien. Lehagues's Resignation.

MADRID, May 23 .- An important political meeting has been held here. It was attended by nearly 600 gentlemen who have held seats in the Cortes either as Senators or Deputies. A resolution was unanimously adopted that on the opening of the next Cortes a Constitution shall be submitted formed on a basis of compromise of all monarchal and liberal parties.

The resignation of Gen. Echagnes, commanding the Army of the Centre, has been accepted.

The Mississppi Democracy.

The Mississippi Democrats are going to introduce a new feature into their State Convention, which they have decided to hold on August 3rd They have invited Senator Thurman of Ohio, Governor Hendricks of Indiana, and Congressman B. H. Hill. of Georgia to be present and deliver addresses. They hope to swaken en-thusiasm enough to enable them to carry the State.

The balance of our correspondent's letter, embracing the proceedings of the Board of County Commissioners, we give in his own

The Board of County Commissi have been in session nearly the entire week revising the tax lists. A very animated discussion was indulged in, occupying two days, in respect to the assessment of the two railroads which run through the county.

Messrs. Devane & Martin appeared for the railroads and Messrs. London & Bellamy for the county. The Board refused to re-cognize the assessment made by the board of assessors of Northwest township for the year 1875, stating that the assessors had no authority to change the valuation from \$315,000 to \$140,000 on the W., C. & A. witness to prove the valuation too high. After a great amount of sparring between the counsel an appeal was drafted, which

was received by the Board. Mr. Martin was refused an appeal for the C. C. Railroad, on the ground that the Railroad Company had not complied with the law in their application for abatement, consequently the assessment must remain the same as last year—\$225,000.

It was ordered by the Board that whereas

doubts have arisen as to the legality of the taxes levied on the W. C. & A. Railroad Company and the C. C. Railroad Company, on the road bed, lands and superstructures, for the years 1873 and 1874, and i appearing that the said lands have not before that time been assessed for taxation. and whereas by law the Board of County Commissioners are authorised, where land has not been assessed for taxation, to ascertain the amount of tax for which said roads were liable within the ten preceeding years. Now, therefore, it is ordered that the clerk of this Board ascertain and report to this Board at its next regular meeting, the amount of taxes the lands, superstructures of the said Railroad Companies are liable

of the said Railroad Companies are liable for, but which have not been paid for the years 1869, '76, '71, '72, '73 and '74, according to the present valuation, and report the same to the Board at its next meeting.

Our correspondent adds that there is no doubt but what the railroad company will delay payment as long as possible, as the amount involved is large. The aggregate amount of valuation assessed by the county on the two roads is five hundred and forty thousand dollars. This, for six years, at thousand dollars. This, for six years, at one dollar per hundred, will amount to a large sum. I am informed that as soon as the Clerk can prepare a correct schedule of the taxes, the Sheriff will be ordered to col-lect. The appeal which was taken regard-ed the tax of 1875.

A committee appointed some time ago to contract for a location for a county poor farm, reported that they had purchased fffty acres of land in Lochwood's Folly, from Mr. Galloway, for the sum of \$100. The action of the committee was approved by the Board, and a new committee appointed consisting of J. H. Mints and Wallace Styron, of the Board, to contract for the construction of fair building for the accommotion of the poor of the county. The generality of the tax payers of Brunswick have but a very incorrect idea of the amount which the county pays out annually for the support of its paupers. I am informed that it will aggregate over

\$1,400. With proper management of the poor farm there is no doubt that the coun-

ty will cut this down one-half. The tax this year in this county will be increased about 22 cents on the hundred dollars val-The subscription books of the above Company will be opened in our city in a day or two for the purpose of allowing those who are desirous of subscribing to the

THE TOLLEY GUN .- COPY OF TESTIMONIAL .-Hubson City, N. J., Sept. 30th, 1874.-MESSRS. J. & W. Tolley-29 Maiden Lane, New York:-The 10-guage Gun No. 3078 I ordered from you gives me entire satisfaction. I was very exacting when ordering the Gun, but must say that you have more than fulfilled what I required of you. I have shot several b. ch-loaders by first-class makers, and your gun beats them all for beauty and workmanship. As for shooting qualities, your gur shoots stronger and more even than any gun I ever shot. I have shown it to several good judges (including first-class gunmakers) and all agree that the action is very strong and durable, and that the gun is one of the best they ever saw. I have made some very long shots with it, using only 316 drs. of powder, which is all your gun requires. I have shot it at a target according to the rules of the Turf, Field and Farm trials, and the average of 6 shots at 40 yards is: Left-pattern, 169; penetration, 38; Railroad; that it must remain the same as right-pattern, 175; penetration 39; using 3% last year unless the company could produce drs. powder. Now I am sure such a gun is seldom met with, and am very proud to be the owner of it. But the real test of your gun is in the field-there it excells all others, killing cleaner and handsomer than any gun I ever saw, as you assured me they would. Both paper and metal shells work splendidly. Gentlemen, I have to offer you my very best thanks, and will recommend your guns to all my friends. Yours Respectfully,

HENRY LORIOT.

HATES OF ABIEBUISTS

SHE ALDINE, THE ART JOURNAL OF AMERICA. Issued Monthly.

"A Magnificent Conception, wonderfully carried out."

The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attempts have been made to meet the want. The successive fallures which so invariably followed each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soen as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is as a unique and eriginal conception—alone and anapproached—absolutely without competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engravings is any other shape or number of volumes for ten times its cost; and, there is the chrome, besides!

The national feature of THE ALDINE must be taken in no narrow sense. True set is cosmopolitan. While THE ALDINE is a strictly American

The national feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine itself entirely to the reproduction of native art. Its mission is to cultivate a bread and appreciative art taste, one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, as a leading characteristic, the productions of the most noted American artists, attention will always be given to specimens from foreign masters, giving subscribers all the pleasure and instruction obtainable from home or foreign sources.

The artistic lilustration of American scenery, original with THE ALDINE, is an important feature, and its magnificent plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interspersion of landscape, marine, figure, and animal subjects, sustain an unabated interest, impossible where the scope of the work confines the artist too closely to a single style of subject. The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical disquisitions as do not inerfere with the popular interest of the work.
