Getting Warm. It is said that at one time yesterday afternoon the political cauldron rose to fever heat about the Court House. It was a family quarrel among a number of colored Reps., and some such delightful complaints as liar and d-d liar were used. The discussion arose on the probable withdrawal of Judge Russell as a candidate for Convention, some asserting that he would remain in the field and others contending that he would withdraw and some less popular aspirant be foisted upon the party at the last moment.

Coroner Hewlett held an inquest yesterday over the body of a colored boy by the name of Nep Jackson, who was drowned in the river near the shed at Mr. A. H. Van-Bokkelen's Distillery, while in bathing. The boy was apparently some 12 or 14 years of age. He had evidently struck his head against some snag or other obstruction in diving, which caused his death.

The jury returned a verdict that deceased came to his death by the dislocation of his neck from some cause unknown to the

None of the family of the deceased were present when the inquest was held.

Another Pythian Excursion, We learn that Stonewall Lodge No. 1, Knights of Pythias, will give an excursion to Smithville and the Blackfish Grounds on Tuesday, the 10th of August. Those who remember the great success which attended the excursion given by this Lodge in 1873. will be glad to learn that arrangements will be made to guarantee just as pleasant a one in all respects this year as that was conceded to be. The steamer Waccamaw has been engaged for the occasion.

Keep It Clean, Toil Ol Complaint is made by merchants in the vicinity that the odor proceeding from the foot of the market is not of the most pleasant character. The matter should be investigated and if there is any uncleanliness it should be remedied. Synopals of the Proceedings. A called meeting of the Board of County Commissioners was held yesterday after noon at 3 o'clock; present: Chairman Wil son and Commissioners Wagner, Morris, VanAmringe and Nixon.

The following was passed: Whereas, section 9, paragraph 6, of the act known as the machinery act requires every cashler and treasurer of any corporation or association to furnish a list of its stockholders resident in the several counties of this State, with the amount of cash on the first of April in each year to the county commissioners of the county in which such depositor or stockholder resides; and whereas, C. S. Ellis, Tressurer of the Real Estate and Loan Association, Richard J. Jones, Treasurer of the Wilmington Gas Light Company, Walter G MacRae, Treasurer of the Wilmington Building Association and C. The matter of the Work House investigation was taken up and various reports heard in relation thereto, when, after some discussion, the further consideration of the condition of the institution referred to, was postponed until the next regular meeting on the 1st Monday in August, when the report of the Committee on Work House will be heard.

Milk Robberies. Owners of cows, or at least many of them, north of the W. & W. R. Colored Excursion from Charleston. We learn that a large party of colored excursionists are expected to arrive here from Charleston on Sunday morning next, and remain until Monday evening. At last accounts, we understand, about four hundred tickets had been sold. The excursionists are not to be composed of any organized bodies,

The feature of attraction last night, was Sunset Hill. As is usual on the occasions of the concerts of the Cornet Concert Club, a large crowd of ladies and gentlemen flocked to Sunset Hill and remained attentive listeners of the sweet music which entertained all. On the grassy mounds were seated over 500 persons, and the affair is said to have been one of the most successful of its kind. An entirely new programme was presented and was duly appreciated. The ladies were out in numbers and the club should feel flattered by the attention and praise their concerts never fail to draw forth. The only drawback to the pleasure on the occasion, was the continued annovance caused by a number of small boys, who seemed to be ignorant of the fact that music hath charms to soothe even a savage. They persisted in keeping up several boyish sports, which for uproarious goise could hardly be equalled. As the Wilmington small boy seems to be a hard element to control, perhaps it would be a good plan for a Knight of the star and baton to show his terror inspiring visage occasionally during these concerts. It would have a depressing and consequently pleasing effect.

The Opera House To-Morrow Night. As has been heretofore announced the Wilmington Amateur Dramatic Association will repeat by request, to-morrow night, the play of Robert Emmet. The bill in other particulars will be entirely new, and will consist of a laughable farce and sev eral specialties, so that all who favor the association with their presence on the occasion may rely on being well entertained, the programme being arranged with suffi-
