WEBSTER, N. C., Aug. 12, 1875. EDITOR CITIZEN. DEAR SIR: The Pioneer of last week announced that a " meet and adjourn" man had been elected from Jackson county. Having been, myself elected from Jackson, I take this method of correcting that misstatement. I am not in favor of the "meet and adjourn" policy, and have never, at any time, given ntterance to any such sentiment. On the contrary, I have steadily advocated constitutional reform and am still for it.

Yours very truly, SPAKE. We had denied the charge that Mr. S. had been elected in the interest of the Radical party, and intendd so publising last week. We are glad to publish the above letter, however. It settles that matter. The Rads may try all their schemes, but they cannot do anything with our western counties .- ED. CITIZEN.

A Baby Glant.

The boy child of D. J. Shea, born last Thursday evening, says the Springfield Republican, was weighed immediately after its birth by Dr. Rice, in the presence of a dozen witnesses, with balance scales, and weighed twenty pounds and two ounces. This weight can be relied upon, as there was no spring to cause the scales to deceive; the figures were seen by several persons, and those present guessed the weight of the child to be eighteen pounds or more before it was placed in the balance. The weight is also verified by measprement of the child, taken sixty hours after its birth. The horizontal circumference of its head is sixteen inches; the perpendicular circumference sixteen and three-quarter inches: length of child twenty-three and three quarter inches; distance from shoulder to shoulder over the chest, twenty and one-half inches; in short, the child is as large as an ordinary babe a year old, and is well and flourishing.

Western Freight Rates. The Chicago Tribune of the 19th

has the following: The folly of exorbitant freight tariffs is shown in the experience of the Baltimore produce dealers who attempted to dispose of their enormous supply of peaches by shipments to Cincinnati and Chicago. The railway charges were at the rate of 36 cents per box, and as the shipments made proved to be unprofitable on this account, the dealers mutually agreed to ship no fruit westward. The policy of extortion adopted by the railroads has suppressed the trade altogether, though the West would gladty take the surplus peaches at a price which would pay both shippers and railroads, if the latters' terms were within reason. As the case stands, there is a double loss-of the pleasure and health of eating peaches,

and of the profit in carrying them. Besides the Hon. Charles Francis Adams, Jr., who is to deliver the anmual address, the managers of the Nixth Annual Northern Wisconsin Fair expect to offer as attractions ex-Gov. Seymour and Gov. Taylor. Statesmen appear to be in demand to siucidate the subject of agriculture.

The Detroit Post is alarmed at the report that the Long Branch Sartoris haby has very little hair on its head. The Post says: "This is ominous. Baid-headed, and not yet a month old. Cæsar was bald-headed."

The New York Star is glad to hear that Edwin Booth will be able to play at Daly's in October. He is to receive sevently per cent. on gross receipts. The house holds \$2,000, which would give the actor \$1,400 and the manager \$600 every night...

- The Asheville Expositor says that the statement is incorrect that W. W. Rollins, G. W. Roberts and W. S. Pearson, have been appointed by the Governor as commissioners of the Western North Caro-in Railroad, and that the appointments have not been authoritatively announced. On the other hand the Cinzen speaks of meir appointment as a fixed fact.

-At a meeting of the Directors of the North Carolina Division of the Rich-mond and Danville Railrood in Greensboro, in which case we will just extend our re-Friday, N. H. D. Wilson, Esq., of that place, was elected Trustee of the road, vice Hon. W. A. Graham, deceased...

Chicken Stealing.

Some envious night prowler invaded the premises of Chas. E. Cleapor, corner of Sixth and Chestnut streets, Sunday night, and stole from his coop five grown fowls and two pullets, all it contained, leaving only those of his stock which happened to be scattered about the lot. That particular neighborhood seems to be specially selected by thieves as a fair field for their operations, as nearly all residing thereabouts have suffered more or less from their depredations.

Bad Behavior at Funerals. Our attention has been called to the fact of the unseemly behavior of the drivers of vehicles and others at funerals. The complaint is that usually while services are in progress in a house where there is a funerar the drivers and others in the street near by are in the habit of indulging in loud con versation, boisterous laughing, &c., very much to the annoyance not only of persons present, but to the minister, while of course t cannot be otherwise than unpleasant to

ed. On the first day of September, the opening day, there will be an intellectual re-union, a festival of mind to celebrate the Henry Wallace alias Charles Gorman, prisoner from Pender county who was lodged in jail a few days since, in default of bail in the sum of \$1,000, on the charge of larceny, attempted to effect his escape Sunday, which, had he been successful, would probably have resulted in a general delivery of the prisoners now confined in our county jail. It seems that he wrenched from its fastenings a gas-pipe in the room, which he broke into several small pieces with which he commenced digging through the soft brick wall and had nearly succeeded in effecting his purpose when the jailor, Daniel Howard, came in suddenly and detected him in the act. The prisoner was thereupon locked in a cell where he will have no further opportunity, until October Court, of indulging his appetite for the fresh air and green fields of Pender.

First Baptist Church. At this church, on Sunday night, a large congregation assembled to listen to the last sermon by Rev. E. C. Dargan previous to been absent on a short trip Westward, hav his return to his studies at Greenville, S. C. The sermon, however, was less an appeal - Bishop Atkinson is on a visit to to the tenderer sympathies of the general congregation, such as are common on such occasions, than a direct and forcible presentation of the truths of the Scriptures to the attention of the young men-men of the same age as the preacher. At the conclusion of the services many persons pressed forward to take the hand of the young preacher and wish him good speed in the pursuit of his studies and in his profession. Mr. Dargan has filled the pulpit of this church continuously during his summer vacation, and, we believe, has given entire satisfaction to the great majority of the congregation. For an undergraduate, some of his sermons here have been efforts of great merit. We believe he is to spend a ling in deepening it. few days at his home before proceeding to the Seminary at Greenville, the fall session. of which will commence on September 1.

> Mayor's Court. The following cases were disposed of by

this tribunal yesterday morning: Henry Taylor, colored, of medium avoir dupois, charged with appropriating one water million," the property of Holly Grady, was ordered to give bond in the sum of \$100 for his appearance at the next term

of the Superior Court. Mary Lively, charged with disorderly con duct, said conduct consisting in cursing and abusing a citizen, was ordered to pay a fine of \$20 or work for thirty days on the streets. Phillis Moore, charged with quarrelling with and cursing Mary Lively, was found gullty and ordered to pay a fine of \$20 or

From the Raleigh News of Sunday we learn the particulars of an escape of penitentiary prisoners, which occurred on Saturday morning last. A squad of fifty conyicts, escorted by a guard of eight men, had gone to the brick-yard, about one mile from the penitentiary buildings, and were proceeding in squads to their work, when suddenly 13 of the prisoners rushed past the detail of three sentinels on that part of the yard and made for a neighboring wooded ravine. Immediately the three sentries fired upon the fugitives, killing

William Bently, the ringleader, and Wm. Stewart, and wounding another. The three sentinels then gave chase, leaving the other five to guard the remaining prisoners. Loading as they ran, sentinels Lee Wynne and Thomas Wynne, at the second shot, brought down Simon Johnson, wounded in the arm, and in two succeeding rounds, it is thought, wounded other convicts, who, however, were able to escape with the rest to cover. Mr. Lee Wynne continued the pursuit, in which he was shortly joined by a desachment of mounted police from Raleigh. When last heard from the chasers

While the guard were firing, the thirty seven convicts left on the yard became terribly alarmed for fear of being shot by the guard around them, and rushed upon the overseer, supplicating his aid and protec. tion. "Sit down, euery one of you, and be quiet: behave yourselves and no one wil hurt you." The convicts did as was ordered, and not one of the number exhibited the slightest inclination to join the fugi tives. Mr. Moore then left the vard and brought in the wounded man, Johnson, who was shot down by Mr. Lee Wynne at

The dead men were hauled to the penitentiary, and the wounded man placed in a shanty near the brick-yard, where he is receiving surgical aid. For the Star. THIEVES AND DESPERADOES IN PENDER.

intrusted to him.

It was hoped that the secession of Pender rom New Hanover would free us not alone from the invasions of its Radicalism, but also from the thievish depredations and other afflictions of its escaped convicts, who are now committing every species of lar. ceny and crime upon our citizens. Our swamps and hiding places adjacent to New Hanover are literally alive with thieves, robbers and desperadoes, who have ran away from the jail and work house of New Hanover to prey upon the corn fields and stock of the farmers of the townships nearest to the old parent county. It is as much as Pender can well do to attend to her own thieves and negro runaways. To be infest ed with those who have broke jail and the work house of New Hanover is an affliction we will not submit to. We appeal to the proper authorities of the old county to come over and help us catch their thieves and desperate characters who have been escaping so long from her jail and work house. Many of them are snugly fixed in camps in the woods, and are subsisting upon our corn fields and stock, armed for resistance when sought for. Nor do our negro officers seem competent to arrest these negro these negro officers too often allow these thieves to escape either before or after arrest. On Saturday night the negro constable of Rocky Point, supported by five able bodied men, allowed a villainous thief to escape before his eyes after said thief was in their hands. The public are indignant at this and similar cases happening too frequently where negro officers are in command. On the same night and in the same township, officers sent out to arrest a thief by, Squire Gamberg, were resisted with loaded gun in hand by the negro occupant of the house where the thief was concealed. These negro officers were bullied and driven away under murderous threats by this negro occupant, and under this resist ance to law the thief was allowed to evade arrest. Thus is thieving going on in some parts of Pender, and thus do negro con-stables discharge their duty. 'Squire Gamberg, who is honestly determined to do his duty in punishing these offenders, sent to jail a day or two since one of these desperadoes from New Hanover, who, in the shape of a negro with a white wife, was convicted of five different acts of larceny.
