|  |  <br> We. <br> denboru' that quite an excilement occurred at that place on Saturday night last. It ap. pears that one Mứdock McRae, colored, one of the band of thieves who figured there last spring and also one of the party that shot at Mr. Duncan, walked into Mr. B. L. Clark's store and enquired for some hats, which Mr. C. proceeded to show him, and while he was engaged in examining them Messre. Woodberry Lennon and Thos. Freeman, speciul deputies, came in. Mc Rae got a glimpse of the offlcers and attempted to flee, but the back door of the store, by which he tried to make his exit, was found to be closed and before he could get it open Mr. Lennon collared the fellow and drew a revolver, when McRae gave himself up without further effort. Mr. himseif up without furtier effort. Mr. Lenoon then tied tim and gave him in charge of Dr. Jos. Robinson, who conveyed bim to the county "Lotell" at Elizabethown, where he will be apt to ioterview Judg |  <br> With a fair day and clear skies, summer bas gone out and auturnn has dawned with all the attendant omens of good promise. It is true that the crops in the immediate vicinily have been to some extent injured by early drought and later rains, but taking the whole Cape Fear section through, we believe that crops will not average very far below those usually made, and we know that our farmers liave lived very economically during the season, and made their crops very generally at a minimum outlay for labor, and we have therefore some reason to hope that the end of the harvests will find them as a class rather better pro- vided for winter and a new season than in former years. <br> In this eity, business during the summer months has shared to some extent in the general dullness of the whole country, but almost without exception our merchants bave weathered the dull times in first rate order; have worked off their old stocks order; hadually and are beginning to lay in new; and the supply of our great staples in port | Rev, Dra, Deome and Moran. <br> Rev. Dr. Deems, of the Church of Strang: ers, in New York city, who, by special invitation, went to Baltimore to preside at the installation of Rev. Dr. Moran as pastor of Bethany Independent Methodist Church, which took place Monday evening, preached in that church Sunday to very large congregations morning and night. His text was Romans vini, 28: "And we know that all things work together for good for those that love God, to them who are the called according to His purpose." <br> In his discussion of the subject, as we learn from the Gazette, of Monday, Dr. philosophic thought are all in the direction of the establishment of this universal law, that all things work. The law of inertia presents no exception. In God Himself we Father worketh hitherto,' says Christ, 'and I work,' Even inorganic matter, though apparently dead, is, in reality, ever active and at work. Every atom of material sub- stance in the universe is, by reason of jts |  |
