Last Tuesday was the occasion of the meeting of the Great Council Improved Order of Red Men of the United States at Richmond, Va. There was a large delegation present, including a number of gentlemen of distinguished ability. Past Great Incohonee James P. Riley, of Winchester, Va., delivered the address of welcome. The Great Incohonee and Great Chief of Records presented their annual reports. From the latter we take the following under the head of North Carolina: Three new Tribes have been added to the list, and all of them appear to be vigorous and wellmanaged. Wyoming No. 4, Black Hawk No. 5, and Pocahontas No. 7, are all located in Wilmington; Pee Dee No. 6, at Laurinburg, and Matchepungo No. 8, at Fayetteville. They have made prompt and full

During the past year there has been a gain in Virginia of one Tribe and over a hundred members, while the Order has been extended into States where it never existed. The Great Keeper of Wampum reports the receipts during the year at \$6,-990 77 and the total expenditures at \$7,-

Correction. In the Mayor's communication to the Board of Aldermen in regard to retrenchment, as published in our last, two important errors occurred in figures. In speaking of the reduction of assessment on real estate by the Board of Assessors, \$400,000 should have appeared instead of \$40,000, and in speaking of retrenchments in the ordinary current expenses of the city the sum \$15,000 was intended instead of \$1,500, as

after which he appeared indisposed to re-

the county jail. He now pretends to be

anxious to go to his home at Laurinburg,

but as he has been sent there three different

Allow me to hank you for the fidelity with which you carried out my instructions. The general outline, heanty of proportion and excellent finish, are all that could be desired, and more than meets my expectations. I am more than ever impressed with the idea that it is as necessary for a man to have a gun built to measurement as to have a boot so built to ensure a good fit. The pattern 175 and penetration 40 are very superior. The pattern is as close as I desire, and the penetration I think is seldom attained, being far ahead of any public record which I have seen. Respectfully Yours, G. W. DORMAN.
