Local Notes. See new advertisements on 4th page, 3rd and 5th columns. Lower temperature, with generally cloudy and rainy weather predicted. Rev. Mr. Patterson will preach in St. Mark's church this evening at 8 o'clock. A son of Rev. Colin Shaw, of Black River, Bladen county, killed two bears one day last week. The Register of Deeds issued 4 marriage licenses during the past week, of which 3 were for white and 1 for colored couples. A fight between two young colored men occurred last night about 8 o'clock, on Princess street, between Fourth and Fifth. It is feared the police did not get them. The finest, not the first, shrimps of the season, was the way our item on the subject yesterday was written. We are now getting about the last instalments for this season. The commission of the crime of perjury is getting to be fearfully frequent here of late, indicative of a state of demoralization hereabouts which it is not very agreeable to contemplate. The chicken coops of Mrs. Howard and Mr. W. Sellers, in the neighborhood of Sixth and Chesnut streets, were broken into Thursday night and robbed of their contents, the latter losing five very valuable fowls, imported. Messrs. W. T. Johnson and C. J. Elwell have opened a cabinet maker's and upholsterer's shop on Princess, between Front and Second streets. They are both young men of experience in the business and will doubtless do well. The last lingering blossoms of the crape myrtle are almost ready to leave us for a year. It makes us feel melancholy to look at their loneliness. But the scarlet flame of the cypress vine in a measure takes their place and banishes from the mind the chilling effects of autumn's decay. The bluish-purple of the flowering pea seems to us a color fitted to produce feelings almost as sad as the loss of early and warmer floral friends. Colored Temperance Society. The following have been elected officers of True Vine Lodge, No. 1, I. O. of G. S., for the ensuing quarter: E. Merrick, P. W. C.; E. Patrick, W. C.; O. H. McKee, W. V.; G. Betts, R. S.; P. Magistrate's Court. A colored woman named Martha Hill, having been arraigned before Justice T. M. Gardner on the charge of perjury, was required to give security in the sum of \$100 for her appearance at the next term of the Superior Court, in default of which she was lodged in jail. It appears that the defendant was the prosecuting witness in a case before W. H. Moore, J. P., in which one George Butler was defendant. Afterwards she had Butler arrested on a peace warrant, swearing that he had used some very threatening words towards her on account of the trouble she had caused him, indicating that he intended doing her some bodily harm. The officer who was in charge of Butler, however, at the time the threats were made, according to the evidence of the woman, swears that Butler did not use the words attributed to him. Sarina Marshall, another colored woman, who swore to the same statement made by Martha Hill, also had a hearing on the charge of perjury and was required to give the same bond for her appearance, failing in which she was committed to jail. Yesterday afternoon Sandy Williams, Wm. Fisher and Squire Fisher were arraigned before Justice Gardner, on the affidavit of Mr. J. T. Edens, charged with the same offence as above, their cases having been continued over from Thursday last. It will be remembered that the charge of perjury against these parties was founded on their testimony in a case before one of our magistrates in which Mr. Edens was charged with tying and whipping one Stephen Williams. After a hearing of the case, Sandy Williams and Wm. Fisher were required to give security in the sum of \$100 each for their appearance at the next term of the Superior Court, in default of which they were committed to jail. Squire Fisher, the evidence leaving some doubt in the mind of the Justice as to his identity, was discharged.

Colored Military Cadet Company. A colored military company was organized Thursday night, composed of youths from 16 to 20 years of age, the most of them being members of St. Stephen's Intellectual and Sabbath School, from which the company was made up. The company numbers some 60 members, and the object of the organization is the promotion of the physical strength and elasticity of the body, &c. Joseph C. Hill, Superintendent of the school, was elected Captain, David Jacobs 1st Lieutenant, and Anthony A. Dudley, Assistant Superintendent of the school, 2nd Lieutenant. The uniform will be deep blue cadet jackets and pants, handsomely trimmed. They expect to have their first parade in about sixty days.

A Bank Robbery. A circular has been received at the office of our City Marshal from Harper & Gooby, Bankers, No. 50 Wall Street, N. Y., through Davis' Detective Agency, setting forth that Thos. W. Nichols, a bank teller, absconded from Montreal, Canada, Sept. 11th, taking with him a number of legal tender notes of the denomination of \$500 and \$1,000. Nichols is about 21 years of age, of an effeminate appearance, and was accompanied in his flight by his father, a stock broker of Montreal. The portrait of the younger Nichols is printed with the circular, which has been posted in the City Marshal's office. Look out for him and get the large reward offered.

Mortality. During the week closing yesterday afternoon there were permits granted for 9 interments in Oakdale Cemetery, of which number 1 was an adult and 8 were children. The diseases were, diphtheria 3, congestive chill 1, congestive fever 1, meningitis 1, small pox 1, disease not mentioned 2. The age of the adult was 49 years, and the ages of the children ranged from 9 years to 6 days. In Pine Forest (colored) Cemetery the number of interments were 8, of which 1 was an adult and 7 were children.

Probable Robbery. A colored man calling himself William Raymer, was arrested on the Herleesville road, about ten miles from Lumberton, on Friday, for selling goods without a license. At the time of his arrest the accused had in his possession two large packages of linen clothing. He stated that he was from Florence, S. C., and told conflicting stories as to how he came into possession of the goods. It is very naturally inferred from the circumstances that some store has been robbed.

A Suggestion. We think the managers of the Cape Fear Agricultural Association may add both to their cash receipts and to the interest of the approaching Fair by allowing the shotgun and the rifle to occupy a prominent place in the programme. We think a pigeon match and two rifle matches (one for the common hunting rifle, at short range, and one for long range guns) would prove attractive features.

Market Report. The following is the report of the Clerk of the Market for the week ending Sept. 25, 1875: No. of Carts in Market.....263 " Bees Slaughtered.....64 " Sheep.....36 " Calves.....9 " Hogs.....12

Smithville Telegraph. We learn that all the holes for the telegraph poles between this city and Smithville are dug—that work having been completed yesterday—and it is now thought the line will be completed and working through before the close of the present week.

Prizes for the Cape Fear Agricultural Association's Fair. It has been decided to offer the following prizes for competition by the different brass bands and military companies which will be present at our approaching Fair: To the best brass band a silver cornet, to cost about \$150.00. To the second best brass band, a Drum Major's baton, silver mounted. To the best drilled military company, a handsome silk flag. We are informed that responses have been received from several military companies and brass bands, stating their intention to be present at the Fair.

FROM RALEIGH. A Tribute to the Enterprise of the City of Raleigh.—The Convention of the State Fair, &c. [From a Star Correspondent.] RALEIGH, Sept. 24, 1875. Ten years and more have elapsed since your correspondent last visited Raleigh, and in that time many and great changes have occurred within the borders of our beautiful Capital. A spirit of enterprise took hold on its people a few years ago, which has developed the old dilapidated town of Raleigh into a beautiful little modern city. There are already many elegant structures occupied and others in course of erection, all of which are of handsome design and would reflect credit on any place in the South. A want sadly felt for years is now being supplied in the erection of a large and convenient Post-office, which is built entirely of North Carolina granite, and will cost, when completed, about \$500,000, over \$300,000 having already been appropriated.

A few hours' visit this morning gave me an idea of the workings of the Convention, and in the large number of politicians we may expect some personalities, I am pledged to notice so much good feeling between parties. The resolution to remove the disabilities of Gov. Holden was defeated on its second reading, and the impression here is that another attempt will not be made. I regret to say that our distinguished friend and representative from Anson, Col. Bennett, is still suffering from rheumatism; but (as in the days of war), he is to be found at his post, being comfortably "laid out" on a lounge in full view and hearing of everything that transpires. Notwithstanding the stringency in the money market and the low price of cotton, business seems to be brisk and improvement the order of the day, and ere long Raleigh will begin to think herself on a footing with Wilmington, Baltimore and other large places. The income from cotton is very large and the staple is very fine. I am told by business men that 30,000 bales will be handled here this Fall, which of itself, you know, is no small business. The Yarrowburgh House maintains its old time reputation, and one cannot fully appreciate a well managed Hotel until he has seen how well everything goes on even when the house is crowded to its fullest capacity. Dr. Blacknall, the proprietor, is polite, quiet, watchful, sober and ever mindful of the smallest wants of his guests. The State Fair comes off on the 12th of October and from present indications it will be a success. Much machinery has already arrived, and the town talk is of fast horses and the like. Wilmington is expected to contribute largely in both her usual supply of pretty ladies and of articles for exhibition. TRAVELLER.

How the new stock is coming in and piling up on the floors and shelves and counters of our leading dry goods and furnishing houses! Most of the merchants are already receiving their fall supplies, while those whose orders have not been promptly filled or have been delayed en route are irritated and chafed by the lack of promptness, and impatiently counting the hours that must elapse before they will be able to compete with their more fortunate neighbors. We have been taking a look at the arrivals in one of our dry goods establishments. There were shelves full of new styles buttons and trimmings, cases full of ribbons and braids and laces and ruffs, rows and piles and stacks of dress goods and cloths in new patterns, a perfect labyrinth of miscellaneous goods and traps and trinkets whose names and uses we propose never to tell; and when we had finished our survey and sufficiently wondered at the almost endless variety of articles which enter into the complete stock of a first-rate establishment, we were informed that a portion only of the goods ordered had thus far arrived, but the remainder were on the way. We were unable to see any vacant space wherein to bestow more, but these dry goods people—who have all this variety of goods at their tongue's end and the exact location of every article always in their mind's eye—are great in resources and skillful in the adaptation of ways to means, and we concluded to leave the whole subject to them without further worrying our head about it. We discovered that new goods were arriving by a mere accident, but there were those in the community who needed neither accident nor advertisement to advise them of the fact. They seemed to find it out by a sort of intuition, and long before we heard any whisper of the matter we are of the impression that divers ladies knew all about it, and could tell the name and peculiar merits of each and every new ribbon, button, collar, braid, trinket and dress pattern in the whole new stock and in all the new stocks about town arrived to date. And verily, we think, great are the mysteries known to the dry goods man, and past finding out the methods feminine whereby so great knowledge of the resources of the city in this line is obtained and all the mysteries of the trade made plain.

Communication. [TO THE PUBLIC.] C. F. AGRICULTURAL ASSOCIATION, } WILMINGTON, N. C., Sept. 25, 1875. The Seventh Annual Fair (old series), or Second of the new series will be held at Wilmington by this Association on the 9th, 10th, 11th and 12th days of November. The Board of Managers most cordially invite the people of the State generally to attend it with specimens of the productions of their farms, their workshops or their storehouses. Those who have nothing else to bring but themselves and families, bring them, and come and see what a fine collection of manufactured articles and agricultural productions our Cape Fear and contiguous regions can produce. To add to the attractions the veterans of Fort Fisher and their companions in arms will be there to enjoy the sight of each surviving brother again. There will be an address by a distinguished American statesman, besides numerous essays upon subjects of much interest to the sons of science and agriculture. We especially call upon the farmers, the Grangers and all others engaged in agricultural pursuits to present the best specimens of crops, stock and general produce, that they can obtain from their lands. To them we appeal to come and help us, as they have done heretofore. We want the fine specimens of their handy work as in times past. Make Floral Hall what it was in the days of our former Fair. Will the press of the eastern portion of the State and along the Carolina Central, and finally, the State large, give this an insertion? S. L. FREMONT, Pres't.

They are enduring and changeless, and will copy sharp and clear for an indefinite period of time. Having just received a fresh supply of these books, we are prepared to execute orders promptly and at moderate prices. COPY OF TESTIMONIAL.—HANNIBAL, Mo., May 30, 1874.—Messrs. J. & W. Tolley, 30 Maiden Lane, New York.—Gent.: The 12 Gun which you built for me, No. 8938, has arrived safely to hand. Allow me to thank you for the fidelity with which you carried out my instructions. The general outline, beauty of proportion and excellent finish, are all that could be desired, and more than meets my expectations. I am more than ever impressed with the idea that it is as necessary for a man to have a gun built to measurement as to have a boot so built to ensure a good fit. The pattern 175 and penetration 40 are very superior. The pattern is as close as I desire, and the penetration I think is solid. I am very far ahead of any public record which I have seen. Respectfully Yours, G. W. DORMAN.
