Mr. J. A. Toyloe has disposed of his paper, the Lexington Central, to Mr. W. H. Moffitt who takes immediate charge. The Central is a lively country paper.

THE ANGRY PLAMES.

Considerab'e Fire at Newbern Thursday-six Building Burned.

The Journal of Commerce gives a detailed account of a large conflagration which took place at 9 o'clock on Thursday morning last. We copy the concluding portion, giving results:

The flames were not extinguished until the destruction of six houses had been accomplished, and the roof of a seventh completely wrecked. These all lie along the water side of South Front street, going east from | tion. Hancock.

Major Dennison is the heaviest loser. He estimates the total damage to gin, cotton, building, machinery, etc., at about \$15,000. Two or three thousand dollars' worth of property may be saved from the debris. The insurance amounted to only \$1,000. Major and Dr. Hughes lose \$800; no insurance. Mrs. Disosway, \$200; no insurance. Mr. Bell, about \$800; no insurance. Various other property was damaged. The total loss was about \$18,000.

During the conflagration, large brands were carried to a great distance, and a number of buildings sev eral hundred vards away were fired, but put out before much damage was done. The Russell House and Mr. Trenwith's carriage factory on Middle street and an old shed in the alley leading from Middle to Craven were ignited in this way.

The firemen, assisted by the citizens generally, worked manfully to check and extinguish the fire, and the Department has proved itself more than ever a prime necessity.

Among others to whom the thanks of the citizens of Newbern are due, is the crew of the revenue cutter Stevens. They were early upon the ground and labored manfully to save property. Their services were of the most valuable nature, and deserving of special remembrance.

We have heard of but one case where injury occurred to any person. Mr. Phil. Holland, Jr., from excitement and over exertion fainted, and we regret that at the latest intelligence he was still insensible.

Another sad feature of the fire was developed in Mr. Holland's family. For several days one of his children has been lying at the point of death, and when it was thought impossible to save his residence it became necessary to remove the little sufferer to a place of safety. This was suc-cessfully accomplished. Afterwards the child was reconveyed to its father's house, where it now lies in a critical

A Historical Flag.

The noted flag that waved over Fort McHenry at Baltimore, in September, 1814, during the British bombardment, and which suggested to key the composition of "The Star Spangled Banner," is now on board the Tanapoosa, which is lying at Portsmouth. It is badly torn, and has thirteen stars, and is owned by ton, of Boston, daughter of Colonel Armistead, who commanded at the fort at the time. It is to be exhibited at the Centennial.

A Wilmington Boy Convicted of the Orims of Arson-His Probable Sen-

Some two or three months since a young lad by the name of Wm. Walter Williams, aged about 18 years, left this city for Little River, South Carolina, estensibly for the purpose of collecting some money due his mother. A short time afterwards intelligence was received here of a destructive conflagration at that place, the fire originating in the store of Mr. Thomas Gore, a relative of Mr. W. I. Gore of this place, which, with a church and probably some other buildings, was destroyed, and it was stated that young Williams, together with another lad, had been arrested on the charge of setting fire to the building. The case came up before the Court just held for the county in which the alleged crime of incendiarism took place,

when Williams' companion turned State's

evidence against him, resulting in his (Wil-

Wife. I would not be the total Young Williams has a mother residing in this place, for whom all must feel the most heartfelt sympathy in the deplorable fate that has befallen her son.

The Telegraph Line on the Coast.

In response to a communication from Col. Wm. L. DeRosset, President of the Chamber of Commerce, in reference to the telegraph line on the coast, the Chief Signal Officer at Washington replies as follows:

"The request of the Chamber of Commerce of Wilmington that the line of telegraph now under construction on the At lantic coast South of Cape Hatteras in accordance with an act of Congress approved March 3, 1875, shall be open for use in the interests of general commerce and the pub lic' has been considered.

"You are respectfully informed that the line of telegraph mentioned will be open - The New York Sun says: The for all matters of public interest, and not of purely private nature. Communications connected with the duties of the service, such as relating to the safety or distress of vessels, conditions of weather and the like are proper subjects for transmission."

> Mayor's Court. The following cases were disposed of by

this tribunal yesterday morning: Tama Morris, charged with drunkenness on the streets, was found guilty and ordered to pay a fine of \$10 and costs or work for thirty days on the streets.

Sellers Ferguson, charged with trying to drive Sallie Ferguson out of her house, threatening to whip her with a cowhide and disturbing the neighbors. Defendant found guilty and ordered to pay a fine of \$10 and costs or work for twenty days on

John Neal, charged with acting disorderly on the public streets, was found guilty; udgment suspended on the payment of

Martha Williams, charged with quarreling and creating a disturbance on the streets, was found guilty and ordered to pay a fine of \$1 and costs.

Dick Martin, charged with drunkenness cursing and swearing on the public streets, was found guilty and required to pay a fine

of \$5 and costs. Sallie Ferguson, charged with disorderly conduct, was found guilty and ordered to pay a fine of \$5 or work for ten days on the

Amie Wallace, charged with being drunk on the public streets, was found guilty and ordered to pay a fine of \$5.

Complaint is made that a number of youths are in the habit of congregating at the corner of Fifth and Castle streets of nights, and on Sunday afternoons, and that the language of some of them is frequently very offensive to passers-by, especially ladies who have in consequence been led to adopt the practice of going a square out of the way in order to avoid the crowd at this particular corner. We have no personal knowledge of the facts in the case, but it has been reported to us as a great annoyance, which ought to be abated, and we hope will be gither by the proper authorities or through due reflection and a proper sense of decent self-respect on the part of the boys themselves.

Clura Wildman. A Sileinio

The amusement loving public will be en tertained during Fair week by Miss Clara Wildman and her New York Comedy Company, whose efforts were very highly appreciated during our last Fair. The play for Monday night will be the popular one of "Married and Divorced," of their appearance in which at Cincinnati the Daily News of that city says;

"Clara Wildman is a fine actress, neither sensational nor emotional, but a plain, straight-torward but extremely handsome little lady, who speaks her lines with a one that thoroughly understands and appreciates the character they have in hand, She excites the deepest sympathy of the audience from the first to the lust. Was twice called before the curtain by a thundering encore. The remaining characters of the play were extremely well handled by the select company. Messrs. Harry Hudson and F. J. Wildman being noticably well up in their respective parts, the latter especially in the excentric character of Mortimer Theophilus Muggie being remarkably well received by the audience."

CHAMBER OF COMMERCE.

Report on the Harbor and River Improvements-The Proposed Inland: Canal, &c.

A meeting of the Chamber of Commerce was held yesterday evening, when the fol owing report of the Committee on Harbon and River Improvements on the progress of the work at the bar and channel was read and, upon motion, adopted:

WILMINGTON, N. C., Oct. 28, 1875. Mr. James Sprunt, First Vice President of th Chamber of Commerce:

SIR: On the 26th instant, we visited the public works for improving the harbor, and sk to report that since our visit on the 19th of July last (reported on the 25th) there appears very little change in the general situation worthy of note. We passed through

BALD-HEAD CHANNEL, returning on the last of the ebb when the tide was very low, making careful soundings. We found the general draught from 13 to 18 feet, except at two points on each side of the middle buoy and several hundred feet apart, two throws of the lead each indicated 12 feet, which was the shoalest water found, from which we infer that they are narrow reefs or lumps not yet worn off by the action of the currents.

THE SUCTION DREDGE WOODBURY having been thoroughly overhauled and re-paired, and having had her suction pipes lengthened to better adapt them to the increased depth of water, commenced operations on the 26th instant, working well, and it is hoped will very soon remove the lumps from the channel.

across the narrow beach, alluded to in our last report, are considered hardly worthy of mention; the lower one is entirely close and beached over. The upper one is barely open at high tide and is evidently closing itself, as the lower one has done.

THE POINT OF BEACH AND ZEKE'S ISLAND have been strengthened by accumulation of sand, and look all right, beach and shoals making out in front of them, but between

THE OLD BREAKWATER does not look to be in as safe and secure condition as when last reported, either from a protracted prevalence of southerly winds blowing the sand away from it, or the ex-istence of certain leaks inviting a current through, or the operations at New Inlet forcing the currents upon the face of it, or perhaps all combined, have had the effect of wearing away to some extent, the recently formed beach at, or in the vicinity of the former deep inlet, thus exposing the breakwater. The engineer in charge of the work, however, has his eye upon it, and will no doubt apply a remedy at the proper time.

THE OBSTRUCTIONS across the channel above the upper jetty have all been removed, and the way is not clear, so far as they are concerned. The two river dredges have been steadily

at work on the SNOW'S MARSH CHANNEL. which has been dredged out to 9 feet depth at low tide, and 100 feet wide its entire length, and one cut through on the west side 12 feet deep has been finished, and they are now at work on the second cut. The first vessel of any size which has passed through this channel was a brig drawing over 10 feet, which was towed through

on the 18th inst. In the early part of September a contract was effected by the Supervising Engineer with Messrs, Bangs & Dolby, of Syracuse,

as a foundation for any future work which may be adopted for ultimately closing the same. This apron is to be constructed of logs, brush and stone, 4 feet thick, and varying in width from 40 to 70 feet, according to the depth of water. At was stipulated that this work should be placed on the line of the contemplated deflecting breakwater at Federal Point, commencing at the outer end of the already constructed perwhatever, or even in omes odtilo nois On the 8th inst. the ale et it angient

black fiend KORTA TRAIT elv leveled was successfully plood in position, since which time several others have been placed, aggregating about 300 feet lineal, and as far as we can see and learn from others this It will thus be seen that the work is movng on steadily and in a satisfactory manner, with every prospect of ultimate succes (provided the necessary funds are supplied by Congress), and we are beginning to see and feel the benefits arising from the present unfinished condition of the work. What may we therefore reasonably expect after We are informed that the Supervising

Engineer has recommended as appropri Mion by the next Congress of \$210,000 for prosecuting the work during the next fiscal year, which we hope will be fully answered as the amount seems modest in view of the mammoth work before bim, even supposing Early in September, operations were ommenced by order of the Signal Bureau for erecting a

LINE OF TELEGRAPH

between this place and Smithville, in connection with the coast line telegraph south of Cape Hatteras, as provided for by the last Congress. The line was finished, and an office established at Smithville on the an office established at Smithville on the 2nd and communication opened on the 3rd inst., since which time the contractors (McCulloch and Swift, of Norfolk, Va.,) have been engaged in putting up the line north from this place and expect to have communication lopened with Cape Hatteras. and points north of it in January next.
In view of the early closing of New Inlet, it would be well to urge upon Congress the

referred to the committee on streets and necessity of providing an INLAND WATER COMMUNICATION " in the interest of general commerce, but more particularly, so far as we are concern-ed, for preserving our coasting trade, which WHOLE NO. 2,646.

we are likely to lose from closing the inlet.
Respectfully submitted, H. NUTT.

GEO. HARRISS, JAS. H. CHADBOURN,

After some discussion upon the suggestions of the Committee with reference to the proposed inland canal in view of the closing up of New Inlet, it was

Resolved, That the suggestions of the Committee on Harbor and River Improvements. as contained in the report presented by the chairman, Mr. Henry Nutt, with special reference to the proposed inland canal through the Sounds, meet with the hearty concurrence of this Chamber; and, that a committee, consisting of Messrs. B. G. Worty, William Calder and B. F. Hall, be appointed to present the matter to our representatives in Congress, and through them to urge an appropriation by the General Government for this purpose.

Resolved further, That the hearty thanks of this body are returned to the Committee on Harbor and River Improvements, and especially to the chairman, Mr. Nutt, for the untiring energy manifested by him in the prosecution of the work assigned him by the Chamber, as evidenced by the carefully detailed reports which have from ime to time been presented.

A communication from the Signal Office was read and placed on file. The meeting then adjourned.

Awaiting Transportation-A Warn-John Hewling, the young man convicted at the recent term of the U. S. District Court, in this city, of opening a letter in the mail at Lumberton, and who was sentenced to confinement for twelve months in the Penitentiary at Albany, has been com mitted to jail here to await his transporta tion to the scene of his intended incarcers. tion. There is a strong undercurrent of sympathy manifested in behalf of the pris oner, whose character was proven to have

been beyond reproach up to the time of the

unfortunate affair which resulted so disas-

trously to himself It is sad to contemplate the serious consequences which are bound to follow the least deviation from the paths of duty and integrity. In the instance above recited, in which the weight of the testimony was against the prisoner, though the offence would have the appearance of being somewhat of a trivial character, and though the punishment would seem to be comparatively light, yet when viewed in all its significance and force, in the indelible stain which it fixes upon his character, darkening all his future prospects for life, then, in this case can we see "how great a matter a little fire kindleth." This, and similar cases should be a warning to the young men of this day and generation, leading them to shun the least appearance of evil and planting their feet firmly and unswerv-ingly in the path of duty, honor and integ-

The Case of Jackson vs. Snow. Sheriff Manning received capiaces from Onslow Superior Court, now in session at Jacksonville, Thursday night, for the bodies of Bryant McMillan and Albert Thompson, witnesses in the case of W. T. Jackson alias Caleb P. Snow, charged with the murder of William Jackson, colored, in this city, on the night of Friday, the 11th of June last. The two men were sent on yesterday morning in charge of Michael Hooper, col., who was constituted a special deputy for the occasion, and who also acted as custodian for the prisoner, Snow, on his trip

to Onslow last week. Snow's trial, we understand, is set for a hearing to-day, commencing at 10 o'clock. Solicitor Norment appears for the prosecution and Adam Empie, Esq., of this city, for the defence.

The mysterious colored stranger who was found leaning against a post, close by the side of the victim, by those who were first to arrive at the scene of the murder, together with the fact of his unaccountable disap pearance and the failure to identify him after he had been locked up in the Guard House for a short season, not the slightes clew, after the most strenuous efforts, hav ing since been obtained as to the name whereabouts of the missing man, will prob ably have its weight with the jury and may possibly lead to the acquittal of Snow.

APPRAL FOR THE POOR LADIES

To a generous public we are again compelled to appeal for aid in administering to the necessities of our impoverished people. Aided as we have been in the past, we had hoped the means placed at our command would enable us to supply their urgen needs to the end of our fiscal year—this month. But we find it otherwise. It is known to all that the opressure of the times has thrown out of employment very many, both men and women. Many of these have families ala cases, not a few, privation, and anxiety have caused sickness, and the sufferers are constrained to apply for relief We have aided them as we could—in num-bers far greater than in any former year. Our funds from various sources have been pended. Only \$10 of our current funds remain in the bank, while unpaid bills for grain, for drugs, &cl. (3 months being fue on the latter) amount to nearly \$75. The winter is before us! Can we let those around us suffer for lack of food, of fuel, of comfortable clothing or blankets! Surely the liberal and the sympathising give us of their abundance—nay even of their limited competence, that we may feed the hungry and clothe the naked, and pro-vide for the sick, and warm the perishing whom God has placed among us, that we may learn to exercise the finer feelings of humanity and of religion, and to "Do to others as we would have others do to us."
May he teach us every one to do what is right, and the reward will follow. Nov. 5, 1875. OFFICERS I. B. S.
