- Newbern Nutshell: We learned yesterday that quite a big affair was on days since. It seems that two of our citi zens became antagonists over fancied wrongs, and determining to settle the matter a la mode, a challenge was offered and accepted. The two seconds arranged for a combat on one of our quiet streets, pistols, used at short range, to be the weapons. As the time drew near for the duel, the principals concluded not to kill each other, but the seconds could not see it in that light, and one of them, thirsting for blood, called on the other to fight the thing out on that line. Second No. 2 had business in a horse stable at that time where a vigorous kick ing mule was haltered, and when the two seconds came together that mule made his heels so lively that victory was soon perched on his escutcheon, and the affair was settled satisfactorily to al! parties, the mule

Democratic Victory at Binghamton. New York. [Special dispatch to N. Y. World.]

BINGHAMTON, Feb. 8. We have just closed the most ex citing election ever held in this city. John Rankin (Democrat) is elected Mayor by about fifty majority on the largest vote ever thrown. We have elected all the Aldermen and four out of five Supervisors. The Mayor elect is addressing the people tonight, while crowds of enthusiastic Democrats are parading the streets with terches, music, &c.

Lieutenant-Governor : Davis, of Mississippi, Pronounced Guilty of fligh Crimes and Misdemeanors.

Мемриів, Feb. 10. A special from Jackson, Miss., says that the committee appointed to investigate the case of Lieutenant-Governor Davis have reported that he is guilty of high crimes and mis-demeanors, and charge that he ac-cepted a bribe of \$600 for the pardon of Thomas H. Banontine, charged with the murder of Ann Thomas, in Lowndes county. The committee offered a resolution that Davis be impeached, which was made the special order for Monday.

North Carolina Mechanical Genius. Raleigh News. 1

It appears somewhat inexplicable that, with the decided genius for mechanics and the high inventive faculty of North Carolinians, so little of it has been utilized at home. The famous Colt's pistol is a North Carolina invention. The Gatlin gun, so famous in Europe as the mitrailleuse, is a North Carolina invention. The E lwards battery, patented during the war by a resident and native of Orange county, is a North Carolina invontion. We cannot and do not atte up: to recall from memory the man, useful implements applied to the arts of peace which have their origin in North Carolina brain. They will suggest themselves to our read eis. One of the latest is a sewing machine, made in Cleaveland county, famous machines of Howe, Singer

I thought of these, and a hundred other eminent deceased Carolinians whose faces ought now to greet the visitor to the Capitol at Raleigh, when to-day at the studio of a North Carolina artist, Mr. Browne, I saw the portraits of Ransom and of Waddell."

Tourney and Ball.

The riding took place in the afternoon at a little distance from the Depot. Eight knights entered and rode with swords instead of lances, having three heads to cut and two rings to take. Quite a number of additional knights had entered the lists, but withdrew on learning of this condition, which is a somewhat novel one in Bladen. The riding of some of the knights was pronounced very skillful by the large throng of spectators, and resulted in the winning of first honor by Mr. W. J. S., of Elizabethtown, who crowned Miss M. H., of Whiteville, "Queen of Love and Beauty." Mr. J. W. R., of Whitehall, crowned Miss C. M. F., of this city, "First Maid of Honor;" Mr. J. A. F., of this city, crowned Miss I. McC., of Clarkton, "Second Maid;" and Mr. H. A. S., of Clarkton,

Last Night's Ball.

A large and pleasant company attended the ball given at Temperance Hall last night. The hall had been trimmed up in pretty style and refreshments, were served up by fair hands at a stand duly provided for the occasion. The balls at Temperance Hall have not been so pretentious in style as some others, but the company has been uniformly good, and generally comprised a large number of the youth of the city. That of last night was no exception to this statement. The youths and maidens generally bore themselves with modesty without affectation and dignity without hauteur, while the intercourse seemed more social and ho Be like than one would look for in larger halls and on occasions of greater state. The dancing was kept up until a reasonable our and everybody voted the mana ment and the occasion had proved most successful, magay bas avoitbil

Between Two Fires.

A lady, residing on South Front street complains to us that in certain conditions of the weather she cannot open a door or window in the rear of her house without having a cloud of smoke from Messrs. Hart, Bailey & Co.'s chimney drift in, and if she opens a front window instead, it is a cloud of smoke from Mr. Wm. Oldham's new mill which then takes possession of the premises, to the no small discomfiture of herself and family. It is a hard case, mange of Thermond ATTER and we hardly know how to suggest a rem. The following was the range of the theredy. grime makes youngsters grow, as we are gravely informed by tradition. Probably more pleasant methods of promoting health and increasing stature could be found. Perhaps if the chimneys were a little taller or had more air-holes, that might improve matters a little, or if these new-fangled smoke-burning furnaces we read about prove to be worth anything, doubtless we shall have complete relief from the smoke before long. We are sure that if the enterprising proprietors of these establishments can discover any way of making them

more agreeable to their neighbors they will

not be slow to avail themselves of it. We

vantages as noise and smoke to some extent

J Loader, hailing, we understand from New York, was in the city yesterday making in quiries in regard to Thomassen, the "Dynamite Fiend." During the afternoon, he received a dispatch from New York stating that a woman, claiming to have been Thomassen's wife, had arrived there and stated that his real name was Alexander Keith, Jr., of Halifax, Nova Scotia. Mr. Loader sought out two gentlemen of this city, who are acquainted in Halifax, and who knew Alexander Keith. Two pictures of the "fiend," one taken while he was living, and the other after he had ended his miserable career by shooting himself in the temple, were shown to these gentlemen, but neither could positively identify the photographs as those of Alexander Keith, though there was some resemblance, while the de scription of the manners, habits and disposition of Keith coincide with that given of the man Thomassen by persons who passed much time in his company in Berlin, Prussia, and who formed a very agreeable impression of him. The Alexander Keith referred to was engaged in the brewery business in Halifax during the earlier part of the war, as one of the gentleman alluded to above informs us. His uncle, Hon.

We hope you enjoyed that felicity, reader. Alex. Keith, member of Parliament, was very wealthy, owning whole blocks of fine stores and dwellings in Halifax, and it was with him that Alexander Keith, the younger, was engaged in business. The Sheriff and His Prisoners. Sheriff Manning has returned from Ral eigh, where he safely delivered the seven

> ring the late term of the Superior Court. On the route one of the prisoners, Reuben Looney, bitterly bemoaned his fate, not that he was going to the Penitentiary particularly, but that he had been sent on for three years for stealing only one chicken. "There is Jerry Forbes," said he "who stole fifteen chickens at one time; and then he entered into a calculation: "Three years for one chicken; three times five are fifteen, put down five and carry one; three times one are three and one to carry makes four-forty-five! Jerry Forbes is good for forty-five years"! And Reuben has therein consoled, as the result of his solution of the mathematical problem, that Jerry would probably have so much longer

connection with his nephew, after which

the latter turned his whole attention to the

matter of furnishing aid to the Confede-

racy, and at the same time making a com-

fortable thing of it for himself. The

elder Keith, we believe, died about two

convicts sentenced to the Penitentiary du-

a term to serve than he would himself. Just before arriving at Raleigh the Sheriff noticed that one of the Manning House robbers, who had borrowed a paper to read, continued to keep it very carefully over the hand which was handcuffed tothat of his associate. As the train neared the depot one of the guard was ordered to examine the handoutle of the prisoners, when it was found that the man with the newspaper, who has a small hand, had nearly worked it loose from the cuff, and it is probable, that but for the precaution above mentioned the prisoner would have succeeded in making his escape when he

reached the platform. The Sheriff only saw one of the old New Hanover convicts (John Scott) during his visit to the Penitentiary, the most of them having been sent to work on the Western N. C. Railroad.

Cape Fear Agricultural Association. The regular meeting of the stockholders for the election of a Board of Directors and for other business, was held, according to call, at the courthouse last night. As it was desired to have a full attendance of THE OFFICE FORMERLY OCCUPIED those interested before proceeding to the dispatch of this important business, it was decided to adjourn the meeting to another evening and call it for a more convenient hour. The President and Secretary there fore announced the meeting adjourned, to convene at the Purceil House on Friday evening next, at 8 o'clock.

BOARD OF EDUCATION.

On motion, it was the story of the Ordered, That the apportionment of school funds for the county of New Hanover collected for the year 1875 be allotted as follows: One dollar and thirty-six cents per capita for each township in the county; and that the Secretary of the Board notify the County Treasurer and the different school committees of said apportionment. The number of children attending school

in the several townships, on which this apportionment is based are: Masonboro, 122 white, 57 colored; Fede

Apportionment to the several townships Masonboro, white \$165 92, colored \$77 52; Federal Point, white \$103 36, colored \$103 86; Cape Fear, white \$59 84, colored \$266.55; Harnett, white \$218.96, colored \$478 73; Wilmington, white \$2,381 36. colored \$3,133 44. Total apportioned on account of white

children of the county, \$2,929 44; total on account of colored children, \$4,059 60;

grand to:al, \$6,989 04. On motion, adjourned to meet at the call

of the Chairman. The Chain Gang Becoming Popular. A member of that somewhat noted institution, known as the chain-gang, was told by a friend the other day that some of the officials said his time would be out the next evening. "No sich thing," he replied, "I guess I know; it wont be out in tree weeks yit. Dey can't come any such game as dat over dis child"! From which it would be inferred that "\$20 fine, or thirty days on the streets," is not such a bug-bear after all, to some folks; in fact, that the chaingang is becoming rather popular with many, instead of a sourse of punishment for violations of law.

Mayor's Court. The following cases were disposed of vesterday morning:
