ANOTHER OUTRAGE.

By reference to our night telegrams, it will be seen that the oppressed and intimidated negroes of South Carolina (such is the style of Northern papers just now), have again made a murderous attack upon unsuspecting and peaceable whites, killing one and wounding two. Even the presence of United States officers was not enough to protect them. One was wounded after the officer had got upon the ground. And yet papers north of the savage kind will only see in such assassinations fresh evidence on the part of the South to coerce, intimidate and slaughter the poor, harmless, peaceloving colored people who are shouting for Chamberlain. And Grant will find fresh inspiration to warm up his oratory, and new incentives to a. war of extermination, if need be, to carry out his satanic purposes.

THE STATE PAIR.

The Raleigh Sentinel says: There was hardly an average crowd for the first day yesterday. The entries were even better. A great deal was being done yesterday that should have been done the day before, and to-day the grounds will present a more filled-up appearance. The stables and track look rather nobby with the trotting sulkies and boys in jockey caps, and much horse talk is swapped over the speed and bottom of different nags. The show of cows was very fair; hogs ditto, while Norwood's sheep are the finest ever brought here. The display of poultry is very good and a great many varieties are represented. There are dead loads of sewing machines. Somebody has shaken an apple tree in the fruit department; the stands

are alive with them. Mrs. Blacknall, of the Yarborough House, was arranging for display some of the most beautiful cakes we ever saw. Harp, the Raleigh coach builder, exhibits carriages that would do credit to Brewster, or Minor and Stevens, of New York. Denson has a display of flowers to please the poet's eye. Professor Kerr exhibits from the museum Indian relics-a pestle of live oak that was found petrified four feet under ground in Onslow county; an Indian leather dresser, found in Moore county; a shark's tooth marbled, and a fossil, both found in Lenoir; a mastodon's tooth, found in Lenoir; an Indian dirk from Caldwell, fossil wood from Moore. &c, &c. W. H. Crow has on exhibition for a Newark firm a giant jack, for lifting carriages, wagons, &c., and facilitating the operation of greasing the wheels. It can take off four wheels in three minutes, and with it a boy four years old can raise 1,500 pounds. Mr. Crow will enter his span of black Morgans in the horse show Thursday. In the evening races Lassiter, the black filly, won the trotting race.

53. Staton's Senipher won the mile dash in 1.54. The road was lined all day with wagons loaded with fresh entries, and four cars stood packed on the Raleigh & Gaston road.

Hope won the one-half mile dash in

Rufe Stanley's band enlivened the grounds with good music. Two more ands are expected to-day, and a large swell of visitors will no doubt be added to the crowd.

The fair was opened with a short and appropriate address by Gov.

Thermometer Record.

The following will show the state of the thermometer, at the stations mentioned, at 4.31 yesterday evening, Washington mean time, as ascertained from the daily bulletin issued from the Signal Office in this city:

Norfolk,75 Corsicana,85 Galveston,.....80 Savannah,.......69 Jacksonville, 75 St. Marks, 79 Key West,......75 | Wilmington,.....67

According to the "Meteorological Record," issued from the Signal Office, in this city, yesterday, lively times were being experienced on the Florida coast, especially in the vicinity of Key West, where the ve licity of the wind was estimated at seventy-four miles per hour, exceeding the force of the hurricane of September 17th, which was so destructive on our coast, by at least fifteen miles per hour.

RALEIGH, Oct. 19, 1876.

To the Morning Star: The Fair is quite a success, the exhibi-

tion and attendance both being good. The Independent Light Infantry, of Fayetteville, won the prize flag, and J. W. Maltsby, of the same company, won the plume. Wilmington came in second, Raleigh third, and Newbern fourth. The contest was quite close.

The weather was very dusty, but otherwise pleasant and auspicious.

The Marine Hospital.

In company with Dr. W. W. Lane, the Surgeon in charge, we paid a visit to this institution yesterday. We found the hospital in excellent order, the rooms all nice and clean, and the establishment provided with every necessary convenience.

In visiting the various wards we found several very interesting cases now under treatment. Among these was a young Frenchman who had been suffering with a dangerous abscess in the pit of the stomach, a peculiar location for such a disease, and requiring very skillful and delicate manipulations to reach and treat it effectually. He is now in a fair way to recover. In another ward we found a colored patient, who claims Brazil as his place of nativity, and who can speak only a few words of English. His malady is not of a serious nature. In another part of the hospital was. a colored man, Jere Bishop, who had one of his hands badly crushed between the bumpers of two cars at the depot, on Saturday night last, and who will be fortunate if his hand is saved. There were several others suffering with various diseases, but not sufficiently serious to warrant special mention

The culinary department of the hospital is in charge of an experienced steward. It is designed by Dr. Lane, the Surgeon in charge, to make the institution also a city hospital, where the victims of accidents by railroads or otherwise, requiring surgical attendance, ond who are not able to bear the expense necessary, can secure the requisite treatment without having to be sent to the county hospital at the Poor House.

For the Yellow Fever Sufferers. We received yesterday a contribution of \$13 00 from the Brown Marsh, Bladen county (Presbyterian) Sabbath school, for the benefit of the yellow fever sufferers at Savannah, Ga., which, with a small amount already on hand, has been forwarded to its

We would here take occasion to state that the Superintendent of Health, and President of the Savannah Benevolent Association, Mr. J. H. Estill, of the Morning News, have announced that no further assistance is now needed. The fever at last accounts was rapidly abating and the funds on hand are thought to be ample to carry them through.

The Pestival.

We are glad to learn that the festival at Temperance Hall-last night, under the auspices of the young ladies of Front Street M. E. Church, was quite as successful as could have been expected, considering the threatening aspect of the weather. The attendance was very good, the oysters, ice cream, &c., were better, and, what was more to the purpose, there was a very commendable disposition manifested on the part of the crowd to "invest their small change" for the tempting delicacies offered

Crookedness in the Mail Service. Special Agent Alfred Morton, of the Postoffice Department, arrested Alexander Sinclair on the night of the 18th instant for robbing the mails. Sinclair was a substitute route agent, running between this city and Charlotte, and had been employed at different times for the last year as a substitute for regular agents in their absence. The proof against him is said to be complete, and the public may be congratulated at the effort to protect the mails from de-

EDITOR STAR—Dear Sir: A report has been put in circulation prejudicial to my interest, to the effect that I am one of the thirty six of the Fereign put in circulation prejudicial to my interest, to the effect that I am one of the thirty six of the Foreign born-citizers of this city, who, at the coming election, are to vote the Radical Ticket.

To brand the report as a LIE would fail to express my sentiments, but I know no phrase more applicable. I have from my boyhood been, and am now, a DEMOCRAT, affiliating but little with the so-called Conservative element which very naturally crept into my party, as one of the results of the war between the States.

I have no concealments to make of any opinion of mine, be it Religious, Political, or what else. I be eng to that race who hesitate not to declare their sentiments in private and in public alike, regardless of the consequences, always relying on having truth on their side. I allude to the Celtic Race.

Providence permitting me to live to see the 7th day of next November, I shall vote the following ticket, viz:

For President and Vice President, Samuel J. Tilden and Thomas A. Hendricks:

For Governor and Licut, Governor, Z. B. Vance and Thomas J. Jarvis:

—also the entire Democratic State Ticket, with the Constitutional meaning the state of the consequences.

and Thomas J. Jarvis:

—also the entire Democratic State Ticket, with the Constitutional Amendments, the success of which I regard as of more vital interest and importance to my adopted State than all the rest combined. Very respectfully,
