The Supreme Court Asked for an Order to Compel the Board to Throw out the Irregular Votes-The Board Censured by the Court-The Chances for Issuing a Mandamus To-day. [Special telegram to the Dispatch.]

COLUMBUS, S. C., Nov. 20. Upon the meeting of the Supreme Court this morning counsel for the Democratic candidates asked for an order requiring the Board of Canvassers, in reporting their action under the order of the 17th, to include at the same time all errors, irregular ities, and discrepancies in the statements of County Canvassers which exist between the returns of the managers of precinct elections and those of the County Canvassers, as tabulated and discovered by the State Board. This order was asked for on the ground that a comparison of the returns of the managers and the County Canvassers made for the counties of Aiken, Abbeville, Andersen, Barnwell, and Charleston by the State Board of Canvassers had made manifest great irregularities and discrepancies; that votes given to one caudidate, and so appearing on the managers' returns, were by the County Canvassers transferred to another candidate; that the County Canvassers included in their statement returns purporting to come from precincts not designated in any statute; and that the Board of State Canvassers received returns not forwarded according to law, signed by the managers of the one party only, and never submitted to the Board of County Canvassers, but forwarded by one party after the County Canvassers had made and closed their official

The Court declined granting this order on the grounds that the Board had not as yet refused to produce the papers asked for, and that it would, therefore, be irregular to do so. The court, however, intimated that it would require the production of the returns by the Board to morrow, and threatened to issue a peremptory mandamus to compel them to do so.

The Court commented quite severely upon the failure of the Board to perform the merely clerical work required of them, and their action and temper to day is regarded as another significant hint to the Board that no tampering or "Ku Kluxing" of the returns will be allowed.

The Board are now canvassing the returns for members of Congress and solicitors, and will probably conclude their labous to day.

The Dispatch of Tuesday says: The situation in South Carolina 1 encouraging. The action of the Supreme Court yesterday is significant. the indications are that to day an order will be entered requiring the Returning Board to produce the county canvassers' returns, in order that the discrepancies may be cor-rected. How anxiously will the Democrats await the result of the pro-

ceedings of the court. Our special telegram from Norfolk in regard to the movement of the

ay before our readers any news of an encouraging or definite character concerning the three contested States. We copy from an exchange some interesting extracts. The following will show the reader something of Grant's purposes as to the future. He intends that Hayes shall be inauisg in Montpelier, Vt., by the County gurated if force can accomplish it, and he means to play the part of Cromwell and over-awe the House of Representatives by the presence of his armed soldiery and his vessels of war if he can:

WASHINGTON, Nov. 17. In military and naval circles it believed that orders will soon be issued directing preparations to be made for the concentration of a sufficient force at Washington to quiet all apprehensions that are felt in the country of revolutionary demonstrations occurring to interfere with the counting of the electoral vote, or with the inauguration of the legallychosen President. Army officers state that a force of 12,000 infantry and artillery could, in two or three weeks' time, be assembled in the forts near Washington, and well-informed officers in the Navy Department say that about thirty of the most formidable ships of war in service are now in harbors on the coast between Maine and Mississippi, comprising all the iron-clads fitted out when hostilities with Spain were considered imminent. All these vessels could be readily brought to Washington if an emergency should arise requiring their presence. It may be stated positively that the Administration does not regard the blustering of politicians or the threats of partisan newspapers as indicating a purpose on the part of any considerable body of citizens to resist the consummation of the election in case the legally-as certained result does not correspond with their wishes.

Speaking of the Western Insane Asylum, located at Morganton, the Ruleigh News says the work is progressing very sat-isfactorily. Two and a half millions of orick have been laid in the walls, at a cost of less than \$9 per-thousand for the brick, lime and the laying. The work is finely executed, and it will be an ornament to the State. The commissioners will soon present their report. The cost of the brick as laid is lower than ever paid on any public work in the State.

A distressing homicide occurred at Goldsboro last Saturday. Policeman Geo. Johnson was killed by Robert Ham, a well. from a pistol, while Ham stabbed him in several places and inflicted a long, deep gash across the back of the head. Goldsboro Messenger says: 'It seems that Robert Ham had a trifling quarrel with a man named Dejohn, in which, kowever, no one was hurt and no damage was done. Fo icemen George Johnson and Frank Smite heard of the quartel and betook themselves in search of Mr. Ham, and met up with him as he was quietly coming out of Sasser's store preparatory to going home, when a dispute ensued between him and Johnson. The testimony of the witnesses is decidedly conflicting, and nearly all day yesterday was consumed in taking testimony before the inquest. The general opinion is that both parties are equally to blame, and that it is one of those unfortunate affairs so often the result of intemperance. Mr. Johnson leaves a wife and four children.

Proposed Mass Meeting of Colored

We learn that a mass meeting of the col ored people of this city and county is proposed to be held at City Hall on Monday night next, in which a number of the more intelligent and better informed of that class of our population will be invited to take an active part, with the view of taking into consideration the altered condition of affairs likely to be brought about through the result of the late election, especially with reference to the ratification by the people of the proposed Constitutional amendments. It is proposed, we understand, to exchange views and give advice and council in certain matters in which their white Republican friends are either unable or disinclined to advise them, with regard to their future, both in a political and business point of view.
