The message of the President in regard to his stationing troops at Petersburg during the late election, is regarded as unusually insolent and mendacious. It is accompanied by a number of minor reports and by letters from District Attorney Lewis and United States Marshal Ramsdell. It is evident that these two parties worked up the affair. There are affidavits of George F. Marble, Moses Norman, William White, David R. Butts, William Green, and others, of the usual cross-mark style. Copies of Virg nia newspapers and some printed orders from the War Department are among the documents transmitted. The letters of the Federal officials to Taft stated that troops were necessary to prevent bloodshed and secure a fair election in Virginia. C. P. Ramsdell appears as the principal manipulator of this movement. His letter is a filthy slander of the Vir-

A Virginia Republican who called on the President yesterday, and af terwards on Zach. Chandler, says he found them very decided in their conviction that Haves has been elected, and that he will be inaugurated. He says the President does not anticipate any formidable opposition, and that after the 4th of March Grant will make a tour in Europe.

The coolest heads among the Democrats assert that their success only depends upon union of purpose and absolute concert of action, and that they claim to have. There is good reason, too, to believe that three, and perhaps four, of the most influential Republican Senators will astonish the country when the crisis comes by assuming a conservative position at variance with the revolutionary schemes of their party.

A Democratic member who never loses his wits assured me to day that he had good authority for believing the Senators referred to would take that course. If this be true, and if commercial and moneyed people of the North will meet in public assemblages and denounce the revolutionary schemes of Grant and Chandler, they may be induced to pause. Already strong pressure has been brought to bear upon the Republicans referred to to induce them to stand by their party; and, relying upon the effective use of promises of power and patronage from the Government, and wholesome exercise of the party lash, Republican politicians scout the idea of any serious defection in their ranks.

Attorney General Taft said last night that there is no way in which the vote of an electoral college can be disturbed in case a member thereof was under disabilities at the time he cast his vote. Once the act is accomplished, and the college has fulfilled its mission, nothing can be done to disturb the verdict. Prior to the vote legal steps can be taken in the case of a disabled elector, but not after the act is accomplished.

Belford will be admitted the Democrats say, but they seem to take time to get ready before letting him in. Persistent inquiry has developed the fact that by General Sherman's command an order for the transfer of Hancock to the West was made out and signed, but was destroyed, and even the stub torn from the order

didate for the Legislature, Confraces His Perent to the Heturning Board, and Declines the Fraudulent Certificate of Blection.

DE SOTO PARISH, LA., Dec. 12. Hon. J. Madison Wells, President of the Louisiana Returning Board: I have learned that your honorable body has returned me as elected to the Lower House of the Legislature from the parish De Soto. Permit me to return my thanks for the bonor conferred; but at the same time permit me to say that I am unwilling to accept the position. I am a Republican from the firm conviction that the principles of that party are best for the whole country. It is also true that I was the regular nominee of the party in the parish of De Soto for the Legislature, and did more than any member of the party in that parish to organize it and advance its interests; but, sir, knowing as I do that I was fairly defeated at the polls, no intimidation or fraud having been practiced by the opposite party at any precinct in the parish, so far as I have been able to ascertain after a thorough investigation, my self-respect will not permit me to accept the position.

I hope you will pardon me for taking a step that at first glance may be thought calculated to cast some discredit upon the party with which I have attached myself, but I am a planter, not a politician; all my interests are here; and, sir, I cannot believe the good of the State or of the National Republican party can be promoted by returning as elected a candidate so clearly defeated as myself. In fact, I am convinced that very much of the disturbance that has prevailed throughout the State for several years past is justly attributable to the fact that in many parishes men not elected by the people have been returned as elected and maintained in office by the power of the government: I must believe that you and your associates have been gravely deceived as to the manner in which the late canvass and election lum. in De Soto was conducted, and as to the result. Very respectfully, JOHN J. LONG.

Pardoned. Sheriff Manning has received official notification from Gov. Brogden of the pardon of C. H. Strode, convicted at the June term of the Superior Court for this county of assault and battery on the person of Mr. T. P. Sykes, the circumstances of which case are familiar to our readers, and who was sentenced by Judge McKoy to confinement in the Penitentiary for two years. It will be remembered that at the time of Strode's conviction his counsel moved for a new trial, which was refused, whereupon an appeal was taken to the Supreme Court. This tribunal not yet having considered the case, some surprise is manifested at the action of the Governor in pardoning Strode under the circumstances, and it is even hinted that some steps will be taken looking to the constitutionality of His Excellency's interference while the matter was pending in the Supreme Court.

Depredations by Hogs Emping at Large in the streets-Serious Dam-

The depredations of swine upon the pro-

perty of citizens have frequently formed the subject of complaint through the city papers. The latest case to which our attention has been called is an exceedingly aggravated one. On Monday night last a large hog, running at large in the streets, forced his way into the premises of Mr. George Chadbourn, corner of Front and Nun streets, by inserting his snout under the gate and lifting it sufficiently to remove the fastenings, and played havoc with the flower garden. Complaint was made of the serious annoyance and injury thus experienced by Mr. Chadbourn, and an officer was sent to notify the owner of the hog that be must keep the animal securely confined on his premises, when it was found that the owner had already apparently taken proper precautions to prevent the animal from doing any further damage. It appears, however, that during Thursday night the hog was again at large on the streets, and succeeded in making another raid upon Mr. C.'s garden, having been found on the premises yesterday morning, and on this occasion he completed the work of destruction, ruining the garden to such an extent as to render it of no further service, Mr C., we understand, estimating the actual damage sustained through the depredations of his swinish tormentor at not less than from \$300 to \$400. About a year ago Mr. C.'s garden was subjected to similar invasions by the same implacable usurper, but without sustaining such serious injury. It is reported that Mr. Chadbourn is seriously contemplating a suit against the city for

It is complained by the authorities that hogs are kept up during the day, and as a general thing are turned loose at night and on Sundays, when there is no chance of their being captured and impounded. School Room Robbed. The school room of Miss Kelley, located in the basement of the Front Street Methedist Church, was entered through one of the windows, a few nights since, and robbed of nearly all the books which had been left there by the children, while books that were not taken away were mutilated or destroyed to such an extent as to render them of no service. The stove-pipe was also broken down and other malicious mischief perpetrated. There is no clue to the rascally perpetrator of the outrage.

The County Work House.

Mr. B. F. Mathes, Superintendent of the County Work House, has notified 'Squire Van Amringe, one of the Board of County Commissioners, that he will retire from his position on the 1st of January at which time his contract expires. The work house will probably be abolished and the prisoners heretofore confined in that institution put to work on the public roads.
