THE PRESIDENTIAL QUESTIGN.

Notes and Comments on the Florida Case, &c , &c.

[Special to Richmond Dispatch.]

WASHINGTON, Feb. 9. No other subject is talked of tonight. Morton thinks this decision settles the Presidential question. He regards Louisiana safe for the Republicans, and the Commission will consistently have the power to inquire whether Governor Grover issued certificates to electors declared elected by the canvassing officers of

Oregon. The Democratic members of the Commission, and indeed all well-informed Democrats, consider

THIDEN'S CAUSE VERY FAR FROM LOST by the result of the Florida contest. The Louisiana case presents several strong points not heretofore laid before the Commission.

Matt. Carpenter and Trumbull are thoroughly prepared, and though the former is expected to make the greatest argument of the controversy, a principal point of it will be that under the statutes of Louisiana creating the Returning Board the power to canvass the votes for Presidential Electors is not given them, and it should therefore have been done by the Governor and other officers named

as canvassers under a proper law. The leading Democrats held a conference to-night to discuss the situation and arrange their tactics for the future. It is believed they have changed their views. Perhaps they may conclude if Louisiana is given to Hayes by a party vote in the Electoral Commission to object to the vote of every State that comes up afterwards, so as to prevent a decision of the controversy before the 4th of March, and thereby force

A NEW ELECTION IN DECEMBER. The time is so limited this is entirely practicable, as the houses must separate and discuss for two hours every such case. Under this state of things the President of the Senate would hold over, and would be acting President until his successor is elected on the 4th of March, and that successor would probably be Morton or Sher-

Bayard's cheerfulness is very apparent, and Abbott and Thurman are hopeful.

A new case of ineligibility in Louisiana has been quietly worked up, and it may stagger Judge Bradley in spite of his bitterly Republican wife and Morton's and Garfield's bulldozing. It is positively asserted that Joseph, Republican elector in Louisiana, served a term of three years in the penitentiary for burglary.

### [Richmond Whig Special.]

WASHINGTON, Feb. 9. Louisiana presents some issues that could not and did not arise in the Florida case, but the drift of the utterances of the Republicans was to take a ground on which they in every case can count the disputed votes

for Hayes. The House of Representatives and Senate will meet to-day to consider the report and decision. There will be a lively, and possibly a bitter debate in each House, but the Senate will sustain the commission by nearly a party vote, and the dissent of the House of Representatives will not

At present the chances are that fraud will make the next President. L. Q. W.

[Raleigh Observer Special.]

WASHINGTON, Feb. 9. The Commission will report Florida to-morrow for Hayes. Strict party vote. We are sanguine on points vet J. J. DAVIS.

[Petersburg Index-Appeal.]

WASHINGTON, Feb. 9. Messrs. Trumbull and Carpenter, the counsel for Louisiana, express themselves as confident of being able to present four law points against the legality of both the organization and authority of the Returning Board to canvass the electoral vote under the laws of Louisiana. The constitution of that State makes the Secretary of State the only returning officer, and the law creating the Board is silent as to its right to canvass the electoral

Dramatic and Dialect Personations. Prof. J. W. Hartiey will give one of his popular entertainments at Masonic Hall, under the auspices of the Wilmington Library Association, on to morrow (Monday) evening, commencing at 8 o'clock. Prof. Hartley comes to our city with the highest recommendations and the most flattering testimonials of popular favor from a discriminating public in our own and other States. In Raleigh, where he gave several entertainments, he was greeted with crowded houses, and as a mark of appreciation he was cordially endorsed by the Governor and other distinguished citizens. The various schools also manifested much interest in the performances. In Newbern, also, the Professor met with very flattering success, and as one mark of appreciation he was voted an honorary member of the "Newbern Grays," a military organization. The press in both of these cities, as well as elsewhere, refer to his entertainments in terms of very decided approval and com-

We hope to see a good house at Masonic Hall to-morrow evening.

We examined, yesterday, a petrified muscle, with the shell complete and perfectly natural, except as to color, including | vicinity of that building; and again, on Saridges, which was dug up at the depth of twenty feet below the surface of the ground | fire was shouted for at least ten or fifteen at the "Magnolia Tree," on the Cape Fear river, where parties are engaged in getting rock for the government works below thecity. The shell, which, with the exception of its shape, has the appearance and weight of a solid rock, was presented to Capt. Walter Furlong by the fireman of the steamer Royal Arch, who has three more

just like it, dug up from the same spot. Stealing a Canary Bird and Cage. Yesterday afternoon a cage, containing canary bird, was stolen from the residence of Mr. W. M. Hayes, on Seventh, respecting city affairs, were adopted subbetween Mulberry and Walnut streets. Mrse stantially as reported, with a few trifling H., during her husband's absence, left the amendments. The bills, we learn, will be house for a few moments, and upon return- promptly forwarded to Raleigh and subing found that the bird and cage had been | mitted to the consideration of the General taken off the piazza.

The Fire Yesterday Morning. The alarm of fire yesterday morning, between 2 and 3 o'clock, was caused by the burning of three frame houses on Front, between Queen and Wooster streets. The fire originated on the premises of Officer S. F. Walcott, of the police force, and was first discovered by J. K. Davis, colored, who lives close by. Davis says he was aroused by a strange rumbling, crackling sound, and went to the door to see what caused it, when he discovered that Mr. Walcott's house was in a light blaze. He gave the alarm, and, with others who gathered quickly at the spot, aroused Mr. Walcott and his family, who had barely time to escape from the burning building, saving nothing but what they had on their persons, except an overcoat and vest which Mr. W. snatched up as he fled before the rapidly spreading flames, the latter containing his watch. The fire, which raged with unusual Bereeness, soon spread to the adjoining buildings, the one on the south side owned and occupied by a colored woman by the name of Jane Cowan, and the one on the north side owned by Mayor Canaday and occupied by Mr. W. A. Snell, both of which were quickly consumed. Mr. Wal-

Miss Mary Anderson, cott lost everything, including furniture, clothing, &c., with the exception stated. He had an insurance, in the London and Liverpool and Globe, represented by Messrs. J. W. Gordon & Bro., of \$600 on his house and \$300 on his furniture. The house owned and occupied by Jane Cowan was insured for \$500 in the Virgina Home, represented by Messrs. Atkinson & Manning, and the house owned by Mayor Canaday was insured for \$400 in the Howard of New York, represented by Messrs. Taylor & Giles. The parties occupying the two lat-

ter houses succeeded in saving rearly all of

The fire was undoubtedly the work of an incendiary, the evidence of which was discovered on the north side of the building of Mr. Walcott while it was burning, so we are informed.

Stolen Goods.

Yesterday morning Mr. Marsden Ballamy who has been absent from the city, called at the Marshal's office and identified a coat and pair of pants, taken, among other things, from the hut of Geo. Brown alias George Poisson, one of the thieves recently captured at Thornbury, near this city, and which were stolen from Mr. Bellamy's residence a t the time it was broken into some weeks ago. There is a large bundle of clothing taken from the same place now in the custody of Marshal Price, awaiting persons to come forward and identify them, among which may be mentioned a piece of white cloth, bearing the mark of M. Katz, a pair of fine pillow cass, several pairs of pants, a number of vests, a fine broadcloth coat, without mark, &c. Capt. Fitzgerald will take pleasure in showing them to persons who may desire to examine them.

An Eccentric Countryman. A white man, hailing from the country, stopped his cart in front of Mr. H. P. West's store, yesterday morning, dismounted and went in, purchased a gallon of kerosene oil, and, without paying for it jumped into his cart again and drove off. The colored porter, who let him have the oil, started after him and got a cursing for his pains. A couple of officers then tried their luck with the eccentric individual and were also cursed and abused, but they brought him back, nevertheless, and conveyed him to the guard house. Finally however, he cooled down, begged pardon of the officers, paid for the oil, which had considerable effect on the "troubled waters," and was told to "go and sin no more," after forking over the costs.

Accident and Narrow Escape. Mr. Oliver Styron met with quite an accident yesterday morning, which may also be termed a very narrow escape. He jumped from the train while in motion as it was passing the spot where the Union depot was formerly located, when he fell, striking the track and bruising his head and legs considerably and rendering him for a time insensible. He finally managed. with the assistance of a colored man, in making his way home, when a physician was sent for, the wound on his head sewed up and the proper remedies applied to his other bruises. He says he will run no more such risks for the sake of a "short cut."

We have been informed that on Saturday morning, on the burning of Mr. Walcott's residence, the alarm of fire was given some time before the Market House bell was rung, naturally causing the inquiry as to the whereabouts of the four or five policemen who are usually kept on duty on the three or four blocks in the immediate turday morning, about 8 o'clock, the cry of minutes, at a less distance than a block from the market, and that bell was not rung, notwithstanding the cries of fire, the running of the firemen, the ringing of other bells, and one steam fire engine passing that building, which evidently shows that system or something else is needed in this particular.

The Committee of Twenty.

At the meeting of the Committee of Twenty, held at the Court House last night, the two bills to be sent to the Legislature,

"Old Dominion," represented by Major J. the destructive element. It seems that a of Third and Nun streets, occupied by Mr. Johnson Hopkins, fell upon a bed distant some three or four feet, upon which there was a large amount of bed clothing, which became ignited, and the inflammable material was soon in a light blaze, which reached to the ceiling. The family, upon discovering the fire, which threatened to alarm; but in the meantme Mr. Hopkins directed efforts the flames were soon subwere almost entirely consumed. The engines, &c., were promptly on the spot, but fortunately in this case they were not needed.

This talented young lady, who is universally conceded to be a most graceful and accomplished young tragedienne, will make her first appearance at the Opera House in this city on Friday evening next, the 16th inst., under the management of Mr. John T. Ford, in the popular Shakespearian love ragedy of Romeo and Juliet, supported by talented array of artists, and in which Miss Anderson is said by the Louisville Courier-Journal to excel every living actress. Alluding to this brilliant young dramatic artist the Montgomery Advertiser and Mail

can actress on the stage, will pay Montgo-mery a visit on next Friday and remain two nights. She is a young Kentucky girl, still in her teens, who made her debut in Louisville a year ago, and who has since risen to the dignity of a dramatic star of the first magnitude. Her career has been one conwon new laurels for her fair brow. Select ing such characters as Juliet, Macbeth Lady of Lyons, Evadne and others for her repertoire, she excels in them all others who have recently appeared on the American stage. Without lineage, she has achieved the finest nobility, and with no other prestige than her genius she has hewn her way to a fame which places her in the catalogue with Siddens and Ristori. She is a genuine Southern girl, and withal, very pretty.

within twelve months—triplets at one time, and eleven months thereafter, twins. - Salisbury Watchman: The kind-hearted, considerate Aldermen have provided a bed in the "boose" for the accommodation of poor, indigent, lazy, worthless tramps. We may expect a goodly number in our midst in future, especial-

ly as there is a prospect for free lodging. - Raleigh News: A diagram of the route of the proposed New River Canal was hung upon the wall of the Senate chamber yesterday. The mouth of Upper Goose Creek is nowhere visible, but Augola Bay, Hollow Shelter Swamp and Big Wild Cat Pososin stand out in bold relief.

- Wilson Advance: We learn that several persons in this section are itching with the Texas fever. We ask them to just make up their minds to stay where they are and read some of the fruits that must needs blossom out as soon as the sun of reform shall shine out from its heaven of right and justice. - Charlotte Observer: When our informant left Concord last night Ritch had

just eaten his twenty-seventh partridge. It is not known whether he retained it or not. He says that now he would not bet a nickel that he can get through with the others. He has accomplished many notable gastro-nomic feats, but thinks he will have to give up on this. - The Salisbury Examiner says: Tramps are a great nuisance. One called

at Mr. D. A. Miller's last Sunday morning and begged for clothes. He then went to Mr. P. A. Gowan's house. Mr. G. thought he was able to work, and asked him if he was not. Thereupon the tramp became furious and cursed and abused Mr. Gowan scandalously. - North Carolinian: We are

pleased to learn that there is an increasing disposition and determination among our farmers to diversify their crops. This is right. Those who do so will succeed-that is if they cultivate well. Let there be no skimming of surface-no half work. Let what is done be well done. This is one of the secrets of good crops. - Charlotte Observer: The work

in the Rudisill mine is now reaching an interesting point. Much money has been expended in purchasing the machinery, which includes three engines and an improved stamp mill, and those who have invested in it are anxiously awaiting to test the value of the mine. Mr. Richardson, who is superintending the work, is confident that it will prove a splendid success.

City Matters. And now that an understanding has been reached in regard to the new city bill, we have been requested to remind our various ward clubs that something else is needed to carry out the programme besides selecting gentlemen for recommendation to compose the Board of Audit, as there will be some necessary expenses to be met in the shape of drawing the bill and having it passed by the Legislature, which will require not only the original subscribers to the fund to pay up their subscriptions, but that others shall tender their voluntary contributions to the
