From the Federal Capital. [Special to Petersberg Index-Appel.] WASHINGTON, Feb. 28. To-day Fernando Wood objected to the reading of testimony in the South Carolina case, to the surprise of all good Democrats, and thereby wrote himself down false to his party and State. It was unquestionably proper to have it read, that members might have voted intelligently upon the subject. His resolution not to read was carried by 178 to 77. Even the Democrats who voted with Mr. Wood, voted to censure those seven members of the Commission who always voted to admit testimony, and reversed their votes yesterday to admit the Pennsylvania testimony. The Republicans, while confident of their success, show upon their faces pangs of conscience at their most outrageous and infamous conduct in this matter. It is currently reported that Mr. Hewitt will resign the chairmanship of the Democratic committee, and if he does not will be requested to do so. [Special to the Norfolk Virginian.] WASHINGTON, Feb. 28. The Virginia delegation are divided. Goode takes position with the anti-filibusters. He made a powerful speech for acquiescing in the decision of the Commission, but at the same time he eloquently protested against the tyranny exercised in South Carolina, chiding Grant with being the prime cause of overaweing the voters of that State in the expression of their will. His remarks were received with loud applause, and he was warmly congratulated. OREGON. [Special to Norfolk Landmark.] WASHINGTON, Feb. 28—6 P. M. Desperate efforts are being made by the filibusters to delay proceedings, but Speaker Randall, in every case, refused to entertain dilatory motions. It is the intention of the Senate to declare Morton President of the Senate, in case this count is not completed in time. There are very fiery and very fierce speeches on both sides indulged in, and now that Hayes' inauguration is a fixed fact, the Democrats are uttering boldly their sentiments. The other side is triumphant and takes things easy. CHASSURE. [A Scene in the Joint Session.] [Special to Richmond Dispatch.] WASHINGTON, Feb. 28. All went quietly along until Vermont was reached. When the Hayes certificates had been read, Poppleton, of Ohio, inquired whether a second set of certificates had not been received from Vermont. Ferry, in an affected tone of surprise, said they had not. Poppleton said a dispatch announcing that other certificates had been sent in December had been received. At this announcement a death-like stillness spread through the hall, though the floors and galleries were still crowded, and dread and anticipation of some great excitement was apparent. The situation of Ferry was becoming embarrassing, when Hewitt, in his usual awkward way, rose and held up high a large and sealed package, which he said purported by its endorsement to contain certificates of the electoral vote of Vermont, and had been received by him last December, and with it a letter stating that a duplicate had been sent by mail to the President of the Senate. He added that the President of the Senate had to-day told him he had

received but one set of certificates from Vermont, and refused to receive his package from him. He would now offer it again, and ask that it be referred to the Commission. Ferry declined on the ground that all certificates must be received before February 1st. Springer seized upon the opportunity and sent up a resolution which he sought to have read. Ferry ruled it out of order and tried to rap down the excited springer, but he would not be suppressed. Ferry repeatedly ordered him down, and warned him that he would enforce the order, but Springer showed surprising pluck, and defiantly told Ferry he had privileges on that floor which the President of the Senate could not deprive him of. The excitement grew more intense every moment. Half a dozen members sprang to their feet, as if anticipating an attempt to put Springer down by force. Then Ferry suggested that if he would present his resolution in the form of objections, signed by a Senator and members, it would be entertained. This was accepted as a peace offering, and the objection was so presented and read. Then Poppleton fled another. Mr. Springer demanded that Ferry open and the tellers read the certificates offered by Mr. Hewitt. Of course this was ruled out of order, and Ferry, despairing of getting Springer off his feet, directed the Senate to retire, though he still tried to make himself heard. The Republicans laughed derisively, while Springer shook his fist at them over the heads of the departing senators and exclaimed angrily, "You may laugh now, but you've not got to the end yet."

The Legislature.

Mr. Dortch hoped that the motion to indefinitely postpone would prevail. The bill then passed its third reading. Senate occurred in proposition from the House to go into an election for Trustees of the University next Friday at 12 o'clock. Upon motion, the rules were suspended and the resolution in relation to the Atlantic & North Carolina Railroad was taken up and passed its several readings. By permission, Mr. Nicholson introduced a bill to dispose of the question of the State debt. Calendar. Bill to enforce the collection of taxes in New Hanover county. The bill passed its several readings. Resolution in favor of W. H. Sikes, late Sheriff of Bladen county, was taken up and passed its several readings. NIGHT SESSION. Bill to give proper publicity to legal notices required to be advertised. Failed to pass. Bill to amend section 4, chapter 100, Battle's Revision, to require the Register of Deeds to attend at his office, either in person or by deputy, was taken up, and passed its several readings. Bill to establish an inferior court in the several counties in the State, with the House amendments, was taken up. The House amendments were read, and the 1st and 11th were not concurred in. Mr. Stickney moved to reconsider the vote by which the bill to protect sheep husbandry had been indefinitely postponed. Mr. Troy moved to lay the motion to reconsider on the table, which motion did not prevail.

Resolution authorizing the Governor to offer a reward of \$500 for Tilman Cranford, dead or alive, an outlaw, was taken up. The committee on Propositions and Grievances submitted an amendment to reduce the reward to \$300, which was adopted. The resolution as amended was then adopted. Bill for the support of the institution of the Deaf and Dumb and the Blind; appropriates \$40,000 for each of the years of 1877-'78. THE THIEVES AGAIN.

Last Wednesday night, between 7 and 8 o'clock, while Mr. P. P. Agostini and family were absent from their residence on Fifth, between Chesnut and Malberry streets, some thief entered the premises, prised open the window, which had a nail over it, placed a billet of wood under each corner of the sash, and crowded through the aperture into the house. A trunk was then passed out through the open window and also a clock taken from the mantel-piece, which were the only things disturbed. The trunk was subsequently carried to the rear of the house, where it was opened and the contents taken out, which consisted of about twenty-five yards of calico, a pair of shirting, several aprons, a coat and pair of pants, &c. These, with the clock, were carried off, but the trunk was left standing in the yard, where it was found by the family on their return. There is no clue as yet to the perpetrators of the robbery. WEATHER CONDITIONS FOR FEBRUARY. From Sergeant Robert Seyboth, in charge of the Signal Station at this port, we have the following statement of the weather conditions during the month just closed: Mean thermometer, 48 deg. 1 min.; same month last year, 51 deg. 1 min. Highest temperature, 71 deg.; lowest do., 28 deg.; monthly range of temperature, 43 degs; greatest daily range of temperature, 39 deg.; mean daily range of temperature, 19 deg. 7 min.; mean of maximum temperatures, 58 deg. 6 min.; of minimum, 38 deg. 9 min. Mean monthly barometer, 30.112 inches; highest barometer, 30.518 inches; lowest barometer, 29.550 inches; monthly range of barometer, 0.968 inches. Total rainfall, 1.63 inches; number of days on which rain fell, 6; number of cloudy days, 6; number of clear days, 7. Prevailing direction of wind, northeast; total number of miles traveled, 5889; highest velocity, 30 miles per hour.

"Gone Glimmering."

The somewhat notorious Theo. F. White together with the woman known as Jennie Seymour, were to have had a hearing before the Mayor yesterday morning on the charge of keeping a disorderly house. The case, however, was continued, and the defendants were ordered to give a justified bond in the sum of \$100 for their future appearance. Subsequently the matter was compromised, the conditions being that White & Co. should leave the city on yesterday evening's train, transportation to be furnished to the couple as far as Goldsboro. The last heard of the Commercial School teacher previous to the above arrangement was a note on the business table of one of our attorneys to the following effect: "Please cum up to the City Hall, as I want you to plead a case for me." The party, we learn, go Virginia-ward.

A Venerable Family and a Pious Remark.

On last evening's train three brothers of Mr. George R. French, of this city, arrived here from Massachusetts, where they reside, on a visit to our venerable and esteemed fellow-citizen. A somewhat remarkable circumstance, in connection with these gentlemen, is the fact that all three are upwards of 70 years of age, and that the aggregate age of the four brothers, including Mr. George R. French, who is also upwards of 70, is something above three hundred years. The visiting brothers are all largely interested in the banking and manufacturing interests of Massachusetts. We indulge the hope, which we feel assured will be shared in by the community, that their stay in Wilmington may prove an exceedingly pleasant one. These gentlemen were arraigned before the Mayor yesterday morning on the charge of interfering with a policeman in the discharge of his duty, in connection with the clubbing of the soldier, McCormick, on Tuesday night last. Two of the party were discharged, while the third was required to give security in the sum of \$500 for his appearance at the next term of the Superior Court. Nothing has as yet transpired as to what action, if any, is to be taken in the case of the policeman who clubbed the prisoner. We understand, however, that he has not been suspended from duty. Much interest is very naturally felt in the matter.

BOARD OF ALDERMEN.

Proceedings in Regular Session. The Board of Aldermen met last night in regular session. The Finance committee, who had heretofore been instructed to present the General Tax Ordinance, reported the same, and, after due consideration by the Board, each section separately was adopted. We notice several very important changes in the items of taxation. For instance, for the year 1877 the rate of taxation is one and three-fourths per cent., while last year it was two per cent. For the current expenses of the city there has been a reduction of 50 per cent.; that is to say, last year it was fifty cents on the \$100 of value, while this year it is only 25 cents. Liquor dealers have to pay the same rates, but can sell in quantities less than one quart without paying an extra tax, while last year the limit was three pints. There is quite a reduction in the tax on wholesale and retail dealers. Where sales are from \$500 to \$1,000, they pay \$4 per month; from \$1,000 to \$2,000, they pay \$5 per month; from \$2,000 to \$3,000, they pay \$7 per month, and from \$3,000 to \$5,000, the rate is \$8 per month, &c. Drummers are required to pay a license tax of \$30 per month or \$5 per day. The license tax of dentists, physicians and surgeons is reduced from \$25 to \$15 per annum. Shipping merchants are required to pay \$10 per month. Sash and blind manufacturers pay \$5 per month. Telegraph companies are required to pay a tax of \$75 per month. Lawyers are required to pay a license tax of \$25 per annum, and a penalty of \$35 is affixed for each month they fail to pay said tax. The Committee claim that the reduction on business taxes will result in a saving to the merchants of \$12,000, as compared with last year, and that on real estate the result will be a reduction of \$15,000. A petition in favor of "Lady Alice," the fortune-teller, praying the Board to reduce the tax for fortune telling, was tabled. A petition from the street hands for an increase of pay, was referred to the committee on Streets and Wharves. Petitions from two discharged policemen, asking to be reinstated, were not granted. Applications from John W. Mills, Henry M. Bishop, Jr., Antoine Elfering, James M. King, and William Parks, for positions on the police force, were referred to the committee on Police. Petition of sundry citizens for the suppression of certain houses of ill-fame in the vicinity of Fourth and Castle streets, was referred to the committee on Police. Alderman Holmes again called the attention of the Board to the requirements of the citizens of "Brooklyn" for another bridge across the railroad. Alderman Colville was added to the committee to consult with the Railroad officials in reference to the matter. The following Standing committees were appointed: On Finance—The Mayor, Aldermen Myers and Atkinson. On Police—The Mayor, Aldermen Myers and Mitchell. On Streets and Wharves—The Mayor, Aldermen Colville and Katz. On Public Buildings—The Mayor, Aldermen Mitchell and Holmes. On Fire Department—The Mayor, Aldermen Gardner and Holmes. On Lights—The Mayor, Aldermen Colville and Adrian. On Markets and Fees—The Mayor, Aldermen Gardner and Atkinson. Auditing Committee.—Aldermen Myers, Adrian and Colville. On Ordinances—The Mayor, Aldermen Atkinson and Gardner. Board of Supervisors.—The Mayor, the Marshal and Alderman Banks. Sanitary Committee.—The Mayor, Aldermen Katz and Holmes. The Board then adjourned.

DEPREDACTIONS UPON STOCK, &c.

There is some talk of petitioning the Board of County Commissioners to make some provision looking to the protection of property owners in different sections of the county from the depredations of thieves and for the recovery of property stolen. These depredations are getting to be a very serious matter, and especially is this the case along the line of the North East river, on both sides, and also in the section between the two rivers. We hear of several parties who have suffered very heavily from the depredations upon stock, one of whom estimates his loss in the last three months at not less than \$400, and another at not less than \$2,500 for the past twelve months. At this rate, they argue, it will soon become a matter of impossibility to raise stock, and this branch of their business will have to be abandoned altogether. The employment of one or more experienced detectives would do much to relieve our farmers and stock raisers from this terrible incursion which is now proving such a source of discouragement to them.

An Unnatural Mother.

A colored woman by the name of Elsie Bonding was arrested yesterday on the charge of unmercifully beating her own daughter, about ten or twelve years of age. The cruel chastisement, which it was at first thought might prove fatal, was witnessed by a party who reported the fact to the authorities. The unnatural mother was arraigned before the Mayor's Court, yesterday morning, and ordered to pay a fine of \$30 and costs, or work for thirty days on the streets.

Arrested for Larceny.

A colored man by the name of Jack Johnson was arrested yesterday on the charge of entering the store of Mr. Herman Woebbe, on the night of the 11th of February, and stealing therefrom a box containing about one bushel of rice. A warrant was issued for Johnson at the time, but he managed to elude the vigilance of the officers until yesterday morning, when he was discovered and captured by J. A. Ashe, a special deputy. The prisoner was carried before Justice Cassidy, who ordered him to give bond in the sum of \$100 for his appearance at a future day, in default of which he was committed to jail.

Harbor Master's Report.

From Capt. B. G. Bates, Harbor Master, we have the following report of the arrival of vessels at this port, &c., for the month of February: Steamers, 18; barques, 9; brigs, 7; Schooners, 15. Total, 49. Aggregate tonnage, 22,918; aggregate foreign tonnage, 5,829. The report of the pilots, of soundings on Bars and Rips, at low water, is as follows: Bald Head channel, 10 feet 6 inches Western Bar, 11 " 6 " " " 11 " 6 " " " 9 " 6 " " " 9 " 0 " " " 9 " 0 " " " The Cotton Bales. We are informed that such crowds of persons have been visiting the cotton mills lately that the Board of Directors have deemed it necessary to issue an order to admit no one except on business, unless by a permit from the President or a Director, as the presence of so many persons distracts the attention of the operatives, and causes in the aggregate a serious loss of time. RIVER AND MARINE ITEMS. Two schooners, names unknown, were reported in below yesterday. The Norwegian barque Felice, Hvalda, arrived at Liverpool from this port on the 27th ult. The schooner Albert Mason, Ross, from this port for Boston, arrived at Vineyard Haven on the 26th ult. Go North, South, East or West, and you will find coughs and colds at this season of the year. A remedy which never fails to give satisfaction is Dr. Bull's Cough Syrup. Price 25 cents.
