The grasshoppers have made their appearance in Nebraska. ---- European news continues war-like. ---- Advance in cable rates from May 1. --- Enormous speculative operations reported at the London Stock Exchange, --- Nothing definite from the Louisiana Commission; Packard remains defiant, which is amusing. ----The immense speculative operations in corn continue in Baltimore, 900,000 bushele being sold in one day. --- There are indications that Russia will make the principal attack on Turkey through Asia. Panic on the Paris Bourse, followed by a quieter feeling. --- A close friend of the President says the policy in Louisiana will not be different from that enforced in South Carolina. --- Old Ben Wade says of Hayes policy, "Hell is paved with good intentions." ---- New York markets: Cotton firmer, 11#@11+ cents; gold 106#@106#; spirits turpentine heavy, 341@35 cents; strained rosin quiet, \$2 00@2 05.

SAM HANDALL.

He is Confident of the Speakership of the next House.

A Philadelphia special to the Baltimore Sun says:

Ex-Speaker Randall has returned from Washington confident of a nomination for the Speakership of the next House on the first ballot in the Democratic caucus. His attention being called to a statement in the Washington correspondence of the Chicago Times, that his strength lies in the promise of important chairmanships to certain prominent members, Mr. Randall says he is surprised that any intelligent journalist should make such an assertion. He declares that he has not only not promised a single chairmanship, but that no overtures have been made to him on the subject by anybody. Mr.

Randall attaches little weight to the talk about a liberal Republican candidate on an administration platform,

THE STORM AT SMITHVILLE. Terrific Gale-Marine Disasters-Protable Loss of Two Pliot Boats with their Crews, &c. The gale at Smithville on Thursday night and Friday was one of the most ter-

rific and fearful ever known. A gentleman who was present states that the mean velocity of the wind was at the rate of about fifty-five miles per hour; that when he would go out into the streets it would seem as if it would blow the hair off his head, and i was with the greatest difficulty that he could manage to keep upon his feet.

The storm resulted in considerable damage to the shipping in the harbor. The yacht Ida, from Florida, went out at New Inlet on Thursday and probably met the full force of the gale. A large coasting vessel was driven ashore at Price's Creek. about 8 miles from Smithville. The Schr. Charles, Capt. Ireland, from this port for Beaufort, having just discharged a cargo of corn, parted her chains at Deep Water Point, where she was lying at anchor, was driven ashore about one mile inside ef nant, sonorous, ringing voice, and exceeding the bar. No damage has resulted to the vessel thus far, and being light, it is hoped that she will be towed off safely. The steamer Kinma Dunn was blown ashore near Big Island. The pilot boats J. H. Neff and Swift also went ashore. The steamer J. S. Underhill, the Wilmington and Smithville packet, had her rudder dis-

abled and was towed up to this city yesterday morning by the steamer Waccamaw. The pilot boats Uriah Immons, Mary K. Sprunt, Henry Westermann and J. H. Neff went to sea on Thursday, the weather being fine at the time of their departure from Smithville. The two latter returned the same evening, but up to yesterday morning nothing had been heard from the Uriah Timmons and the Mary K. Sprunt and serious apprehensions are felt at Smithville

that they foundered at sea during the fearful gale and that all hands were lost. The limmons was commanded by Capt. C. C. Morse and his crew consisted of

Sentinel: If the Coalfield rail road was completed from Danville to Win ston it would save to the merchants of our town alone in the matter of freight at least \$20,000 a year, besides adding immensely to the business of the place. The distance is only about sixty-five miles.

- Raleigh Observer : Forepaugh's circus reached Henderson yesterday morning in a drenching rain and stretched their tents. Four thousand tickets were sold. but the rain was so violent at the hour for the exhibition that the treasurer had to call them in and there was no show. This was the fourth stand the circus had made since leaving Philadelphia and in consequence of had weather have had only two exhibitions.

- The Charlotte Observer gives an account of the killing of a white man named William Johnston, by a negro named Minor McGill, in Gaston county. They had a fight, the negro ran and the white man followed him, having an axe. Afterwards the white man was found dead with his skull broken, and the axe lying close by. They had been drinking heavily. The negro is described as decidedly black about 40 years old, nearly six feet high, weighing 160, and as being in the habit of talking loudly and rapidly.

- Mr. Thomas Thaxton, of Caswell, has disappeared mysteriously. He went to Yanceyville to prosecute a law suit. The Milton Chronicle says: "He put up at Mr. Poteat's hotel, where he remained until Friday night; a little after dark he was seen to come out of the house bareheaded and in his shirt-sleeves; he was noticed to get over a fence backwards, since which nothing has been seen or heard of him, although the most diligent search and enquiry have been made. His hat and coat were found in his room Saturday morning, and a small tickler of John Barleycorn stood over the mantle-piece.

At Piney Point, the dwelling houses remain, but the ball room, that structure of so much architectural beauty, erected during the past season, is a mass of ruins, and the fences in the vicinity like all others on the coast are flat. The wind and tide were unprecedentedly high and the Sound during the entire day rivalled old ocean in its angriest mood. The Banks House seems to have weathered the gale, but Harper's Castle is no more, a few posts alone mark its former location. A large steamer is lying

in Masonboro Sound, but her condition can not be made out by the glass. She was afloat yesterday morning at high water. Later we learn that she is all right.

A Mr. Martindale, a resident of one of the Sounds, lost about twenty-five head of cattle by drowning, while Mrs. Everett and others in the same neighborhood lost heav ily in the same way. The Circus.

The circus will be here to-morrow and will no doubt draw immense crowds, as it seems to have done elsewhere. The smell of sawdust always has its attraction, especially when it is in a circus ring. The exhibition of animals is said to be very fine and the riding fully up to the average shows, ful architects, including the parties who if not superior.

Attempted Robbery. An attempt was made on Friday night to break into and rob the store on the corner of Seventh and Church streets, occupied by Mr. Nick Mohr. Several auger holes were bored through the shutter, but the thief failed to raise the bar, which was too securely fastened for him.
