

President Anxious to have his Southern Policy Thoroughly Discussed—The Contest Over New Orleans Naval Office—Views of the Rival Factions—Debt Statement.

WASHINGTON, May 1. It is given out that the President desires Congress fully to discuss his Southern policy during the extra session.

A most interesting contest is progressing over the New Orleans naval office. Pinchback and Antoine are the chief contestants, and may be said to represent the rivalry among the colored element.

The military artificers at Woolwich were excused, yesterday, from regular monthly drill, on account of the emergency of the repairs and preparations of the wagons and ambulances constituting a field train.

Seven twelve-ton naval guns have been shipped to Portsmouth, and four hundred tons of ammunition and arms are being shipped for Malta, Versailles.

The French chambers reassembled to-day. To-day in the House of Deputies, Duke De Cases, laying the yellow book on the table, said he had no objection to the House as soon as delivered to Russia.

In the House of Lords, this afternoon, Lord Derby, in reply to a question by Earl Granville, said the government had prepared an answer to the Russian circular, which was approved by the Queen.

It will be sent out tonight and will be laid before the House as soon as delivered to Russia.

S. H. Mountain, hop merchant, has failed. A Reuter telegram from Ragusa says: "The first engagement since the expiration of the armistice occurred yesterday. A Herzegovinian insurgent force attacked the Turkish vanguard near Mevsigne, killing, it is stated, fifteen."

CONFU, May 1. The Ironclads Alexandria, Monarch, Swiftsure, Devastation and Hotsput, of the British Mediterranean squadron, arrived here this morning.

RIGA, May 1. Seventeen steamers have reached Revel. Navigation is now open. Fifty steamers bound for Riga, have put into Windaw.

GLASGOW, May 1. A large business is doing in sugar at 3d. per cwt. advance.

WASHINGTON. Instructions to Anti-Bellum Mail Contractors—Debt Statement, &c.

WASHINGTON, May 1. A circular issued from the Postoffice Department directs that claims for anti-bellum mail contracts must be made to the Second Assistant Postmaster General by the contractor or his executor, as money cannot be paid to assignees.

The debt statement shows a decrease during the month of \$4,375,000; cash in the Treasury, including nearly \$15,000,000 held for redemption and called, being not provided, \$105,500,000; currency, including \$6,000,000 held for redemption of fractional currency, \$8,375,000.

NEW YORK. Consecration of a Bishop—Laborers Killed by a Falling Roof, &c.

NEW YORK, May 1. Rev. John Lancaster Spaulding, of St. Michael's Church, in this city, was today consecrated Bishop of the new diocese of Peoria, Ill., at St. Patrick's Cathedral, with impressive ceremonies, Cardinal McCloskey presiding.

A portion of the roof of the new postoffice building on Park Row fell over the large room used as a dormitory for railway postal clerks. Two laborers were killed. It is believed that no postal clerks were there when the roof fell.

ALBANY, May 1. Attorney General Fairchild was examined before the Woodin committee to-day. He said he had no confession of William M. Tweed, nor any paper signed by him. He had a communication from Mr. Townsend, which informed him of what Tweed would testify to in case he was granted certain immunities, but declined to produce the paper or tell what its contents were.

SOUTH CAROLINA. The Republican State Officers Withdrawn from the Contest with the Hampton Officials, &c.

COLUMBIA, May 1. The Republican State officers yesterday having signified their willingness to withdraw from the contest, to-day, by counsel, went into the Supreme Court and moved to withdraw their answers from file, and to withdraw their consent to be entered in favor of the plaintiffs. The Hampton State officers were advised of the entry of judgment in the Court, and the offices will be transferred to them to-morrow. The work of transferring the treasurer's office will probably occupy a week or ten days.

ILLINOIS. Railroad and Marine Accidents and Loss of Life.

CHICAGO, May 1. Wm. C. Payne, a telegrapher, was killed in a railroad accident on the Chicago, Danville & Vincennes Road. He was cut twice in two. Those who had both legs cut off. Three others were badly injured. The schooner Valeriedred capsized near Racine and her crew of three were drowned.

WEATHER REPORT. WAR DEPARTMENT. Office of Chief Signal Officer, Washington, May 1—7.30 P. M.

For the South Atlantic and Eastern Gulf States slowly rising barometer, southwest to southwest winds, clear or partly cloudy weather, and stationary or rising temperature.

FOREIGN INTELLIGENCE

War News and Speculations—England's Position in Relation to the Baltic—Her Preparations for Possible Emergencies—France Determined in Her Position of Neutrality—England's Answer to Russia's Circular—Engagement Between Herzegovinians and Turks, &c.

LONDON, May 1. The Vienna correspondent of the Times telegraphs as follows: "As things look at present the British government will possibly be the only one to return a regular official answer to Russia's representation, that she is acting in the interest and according to the wishes of Europe."

The British answer may possibly indicate the limits within which England would not consider her interests threatened, and would therefore remain neutral. The result of all this seems to be that, for the moment at least, there is an end to anything like concert or even common ground of European policy, each power being intent upon its own interests.

Recruiting has been progressing briskly lately. Nearly every regiment in the service is full.

The military artificers at Woolwich were excused, yesterday, from regular monthly drill, on account of the emergency of the repairs and preparations of the wagons and ambulances constituting a field train.

Seven twelve-ton naval guns have been shipped to Portsmouth, and four hundred tons of ammunition and arms are being shipped for Malta, Versailles.

Boston Foot, Shoe and Leather Market, April 28th. The market for manufactured goods is of course almost entirely nominal, as is always the case at this season of the year. The interest of the trade centers in the market for stock, and in the likelihood of the higher prices in boots and shoes opening at this time than last year. There is some talk of exporting heavy goods in case of the war being prolonged. In any event buyers for the fall trade will probably be here earlier than usual, as the mere probability of the market going up on them will make them anxious to be here early.

Most of the boot and shoe manufacturers are either in the west themselves soliciting orders or have drummers there. They rely on their statements that the present advances in leather will be permanent, and that manufactured goods must go higher. The manufacturers themselves are very unsettled as to the future of prices.
