Key's Southern Excursion. WASHINGTON, June 6.

Postmaster-General Key speaks with much satisfaction of his recent trip to the South, and with his intercourse with the business men and citizens in regard to the postal service. The appropriation of \$176,000 for fast trains between here and New Orleans, Judge Key regards as inadequate, but he will employ it to the best advantage, distributing it to such roads as shall bring up the speed of the mail trains to the requirements of the public service.

THE WRECK OF THE WRIGHT. Story Told by an Indian Survivor of

SAN FRANCISCO, June 4. A survivor of the wreck of the steamship George S. Wright has been discovered at last in the person of an Indian, named Coma. He was recognized on the street at Nunaime, Brit-1sh Columbia, last Friday, and was arrested and brought to Victoria, Vancouver's Island, yesterday. The Colonist of to-day says: "Since the disaster Coma has constantly evaded the police, and until quite recently it was not known that there existed a single survivor of the wreck. Coma has confessed to the Superintendent of Police, after being duly cautioned, that at night the boilers of the steamship exploded and she began to sink

They were nearly naked, and the Indians gave them blankets to keep them warm. A day or two afterwards three canoe loads of Indians came to the spot, and Captain Ains-ley offered the leader \$500 to convey the ship wrecked men to Fort Rupert. Four of the Indians were armed with muskets, with which they killed all the whites. They then tied stones to their bodies and sunk them in deep water. They robbed the bodies of all valuables, including the captain's gold watch and chain. They spared Coma, but told him that if he ever dared to narrate the circumstances they would kill his father. Coma thinks all the people on board who were in bed at the time of the explosion were drowned, as the ship went down rapidly. The prisoner was to-day confronted with four Indians, who were brought in as prisoners by the steamer Rockett, and have since been in jail here, and identified two of them as belonging to the party of murderers.

Monk's residence, heard some noise back of her house, when her little boy went to a window and raised it to see what was the matter. Just as he did so a gun was discharged, the shot from which passed just above the youth's head and buried themselves in the weather-boarding on the opposite side of the house. On the same night Mrs. Walker had three white cups and saucers, a molasses jug, two tumblers, and some knives and forks stolen from her, undoubtedly by the same parties who fired upon her son. A short time previous to that she had twenty-four head of chickens stolen from her. Yesterday Officer Carr made another search at the Nixon house, the headquarters of Nixon, Ellerby, Kelley and others, and found the three cups and saucers, which were identified by Mrs. Walker as her pro perty, the cups being of a peculiar make and easily recognized. Officer Carr, during the same visit, also found in a target on the premises some shot which corresponded in size with some of those fired at Mr. Grant, and which were subsequently extracted from the window facing.

Preliminary Examination of Ellerby In two Cases. He offered no defence, and was ordered to give a justified bond in the sum of \$200 in each case for we do know, the hotels and private board- his appearance at Court. He was also arraigned on a charge of assault and battery, on the affidavit of one Emanuel Haggett, a warrant upon which had been issued some time ago, and bound over on the same. On motion of Alderman Foster the rules of order governing the former Board were adopted for the present.

The committee appointed to examine books, finances, property, &c., of the city, reported substantially as follows:

That owing to the magnitude of the work and short time allowed, the committee were unable to examine the books, &c. as minutely as they would have desired. The bonded debt of the city amounted to of \$40,422 00. There had been no record kept of the interest coupons attached to these bonds. The committee urged upon the Board the necessity of at once providing such a record. Of this bonded debt, \$40,000 matured Jan. 1st, 1877, and is as yet unpaid; \$36,000 falls due February 1st, 1878, which the committee earnestly urged should be met at maturity.

The committee found that the license tax on dogs and drays had been much neglected.

The committee recommended that the detective force be reduced to one, an examination showing that eight men had hitherto been employed at a cost to the city of nearly \$4,000 per annum.

The City Hall was found to be in an extremely dilapidated condition, needing repairs throughout. Work should be done upon the roof immediately to save the building from further damage. The guard room and prison were in good order. The committee further recommended the erec tion of an out-building for the purpose of storing oil, &c., and the immediate removal of the oil now stored in the base

Geo. W. Price, Jr., 5; H. C. Brock, 4; Blank, 1. Aldermen Hill and Foster contended that Geo. W. Price, Jr., by the announced result, should be declared elected.

Aldermen Myers and Flanner took the

view that there had been no election. Alderman Vollers stated that the blank vote had been put in by him through mistake and asked to be allowed to correct it. After some discussion, It was agreed that the ballot be stricken out, the supporters of Price knowing that it would be useless to contend longer, as a majority of the Board were against them, and even though their candidate might be declared elected, it was very easy for the majority to remove him and elect another.

Sixth Ballot :- H. C. Brock, 5; Jno. D. Taylor, 2; Jno. Cowan, 1; Geo. W. Price, 2. No election.

Seventh Ballot:-H. C. Brock, 6; Jno Cowan, 2; and Geo. W. Price, Jr., 2. Mr Brock having received a majority of the votes was declared elected.

Mr. Brock, being called upon by the Mayor, thanked the Aldermen for his election, and promised his best endeavors towards filling the position satisfactorily to the Mayor, Board of Aldermen, and citizens generally.

The Mayor appointed Aldermen Flanner, Vollers and Hill a committee to examine the applications for positions on the police force, and to recommend as to the number and names for the night and day squads.

Aldermen Bowden, Myers and Lowery were appointed a committee to examine the applications for Clerk of the Market. Janitors, Messengers, &c., and recommend suitable parties for the different positions. On motion, the Board then adjourned. Probable Fatal Accident.

Yesterday evening, about 6 o'clock, a colored man by the name of Monroe, who has been in the employ of the Wilmington. Arriving at the proper point he jumped to the ground, retaining his hold upon the railing, and, the train having attained considerable speed at the time, was unfortunately jerked prostrate on the track, the wheels of two cars passing over both of his legs below the kness and severing them almost from the body, crushing the bones in a horrible manner. On Wednesday night, about half-past 10 clock, a colored man by the name of Foy, living in what is known as Sellars' alley, between Chestnut and Mulberry and Fifth and Sixth streets, was on his way home when he discovered something white lying upon the ground in the alley aforesaid, and but a short distance from his own gate. Thinking it was a newspaper or something of the sort, he stopped and picked the parcel up, and as he did so something slid from it to the ground. He called to his wife to bring him a light, and when she did so he discovered that the object that had fallen from the parcel was the dead body of a newly-born male mu latto infant, apparently about two days old, which had been wrapped in piece of white cloth. Foy immediately lodged information of the discovery at the station house and a policeman was sent to take charge of the body until morning, when Coroner Hewlett was notified. An inquest was commenced about 8 o'clock, but no information could be elicited beyond the simple fact that no evidence of yond the simple fact that no evidence of violence was perceptible about the body, the jury returning a verdict that the infant leve you. Opinion in an Important Insurance

Case-A New Trial Granted. The insurance case of Brink vs. The Un derwriter's Agency of Insurance, of the city of New York, has just been decided against the plaintiff, Col. E. R. Brink, of this city. It will be remembered that Col. Brink was merchandising at Lexington, Davidson county, in this State, when the property was destroyed by fire which gave rise to this suit for the recovery of the insurance. This case has been prosecuted through all the branches of the Supreme Court of New York at a heavy expense, judgment having been rendered by a jury in favor of the plaintiff three different times. About twelve years has been consumed in the case, the expressed object of the companies, as we are informed, being to force the plaintiff to a compromise. The amount involved is \$33,000, which must fall heavy upon the plaintiff, Col. Brink, when the amount of costs, fees, &c., are taken into consideration, provided the present aspect of the case should be maintained. The Court, however, granted a new trial, which, we understand, will be accepted and prosecuted with vigor, and, we hope, with ultimate
