Continuation of Famine and Pestilence.

SHANGHAI, May 17. The famine continues in Shantung and Chili. The suffering increases, and there is no possible means of averting the death of hundreds of thousands from starvation. All new ports conceded by the Chefoo convention are now opened.

Famine also prevails in Corea. with pestilence, which is supposed to have been caused by the exposure of a multitude of dead bodies throughout the country. Japan has again been appealed to for material and medical aid.

- The Danbury Reporter, new series, has entered its second volume. Referring to its management, it says: Some of our friends may have imagined that we did not puff them into sufficient notoriety, and are offended because we sought serve the public instead of individual interests. But it is our opinion, and we make it a rule in business, that true manhood need never be advertised, and that it is only the impostor who would complain of truthful criticism, or hope for constant and exaggerated compliment.

- Raleigh News: Dr. Blacknall the proprietor of the Yarbrough House. gave a complimentary dinner yesterday to the graduating class of the University, and to a few friends of himself and these young gentlemen. - We are reliably informed that the carpet-bag ring are making an ef-fort to displace R. C. Badger, Esq., United States District Attorney for this District, to get one of themselves or one of their creatures appointed. The pretext which they use against Mr. Badger is that he was antiprohibition in our late city election.

- Goldsboro Messenger: The town of Selma was visited by a severe storm, accompanied by thunder and light-ning, last Friday evening. We learn that the residence of Dr. J. W. Vick was struck by lightning, damaging the build-ing severely, but fortunately doing no other damage. Mr. Lawrence W. A larger crop than ever before known has been planted. — The best daily paper in the State, in our humble judgment, is the Wilmington STAR-judged from a newsy standpoint. In politics it has the ring of the right metal. -Work is being energetically pushed on the Milton & Sutherlin Narrow Gauge Railroad. With a force of eighty convicts about half a mile has been graded. We learn that Maj. Temple, the chief engineer, says without any interruption they can grade one mile a week, which will complete the gra-

WILMINGTON, N. C., TUESDAY, JUNE 12, 1877.

Mr. Snowden thinks the re-establishment of the mint would stimulate mining operations, and the annual production of gold would be over a million dollars.

- Morganton Blade: Mr. Claywell, who has just returned from Mitchell, reports everything in a flourishing condition. The growing crop is good. Plenty of old corn af fifty cents per bushel and abundance of hay with no market for it. . - There has been great suffering for the want of rain, and an old darkey was overheard, in the fence-corner, praying for rain. He said, "Oh, Lord, we don't want none of your slop-dabs nor slip-ups, but a regular gully-washer and trash-mover." — Lawson Corpening, a son of W. C. Corpening, who, upon Lee's surrender, went out to seek his fortune in the West, married and located in Indiana, has returned with his family to his old home in this neighborhood, where he expects to live and die. - Wheat, late sown especially, is cut short, and the corn is small and sickly. Gardens are as dry as dust, with vegetables about gone up. The ground is so hard that little or no plowing can be done, and the fear now is, that as the wheat ripens the wet season will set in and much of it will be lost before cutting

It will be for treatment of the Judicial bill which is now so crazy that the Judges can't understand it, and are riding their circuits in zigzag directions all over the country. F. E. Company, and the order of Patrons of Mercy, accompanied by

Body Recovered-Inquest.

ceny. On trial.

Yesterday afternoon, about 2 o'clock, the body of Albert Johnson, the colored man who was drowned off Mr. Orrell's flat, on Saturday evening last, was discovered floating in the river, near the place where the accident happened, having been seen to rise by a colored youth who was on the wharf at the time. The body was brought to the wharf and attached to the end of a flat, information of the recovery of the same being dispatched to Coroner Hewlett, who soon after arrived with his jury and proceeded to hold an inquest over the remains. In the meantime a large crowd of colored people and some whites had gathered in the vicinity to get a glimpse of the corpse, which was subsequently removed into the dock, foot of Chesnut

The body of the unfortunate man was very much swollen, and bore the appearance about the face of having sustained some injury, probably by the collision of the flats, which were only about two feet apart when he fell between them. The jury returned a verdict that deceased came to his death from accidental drowning.

Sciplo Hill was taken from the cell, where he had been in close confinement on bread and water since Friday last, and brought into Court yesterday morning, when Mayor Dawson gave him a lecture and concluded by stating that he would give him (Scip.) one more trial, but if he abused his privilege and was brought before him again he would punish him to the utmost extent of the law. Scip., of course, will hereafter lead a sober life, provided he don't get in

the notion to try a little more "tangle-leg." Two or three cases of drunkenness and disorderly conduct were disposed of and

one was continued over. Mayor Dawson took occasion during the session of the Court to remark that it was the least of his desire to take the hardearned money of the poor in fines and penalties in his Court; that he preferred to run the city on different principles; but at the same time he cautioned those who showed a disposition to persist in violating the law by getting drunk and acting in a disorderly manner, that he should be compelled to inflict such punishment as the law had provided for eases of this character.

The Moonlight Club Society Again. Robert Ellerby was once more arraigned before Justice Gardner, yesterday morning, to undergo a preliminary examination on the charge of stealing certain articles from St. James' Home, and was put under

an additional bond of \$500 for his appear-

ance at the present term of the Criminal

Prince Kelley, charged with stealing and also with receiving stolen goods, knowing them to have been stolen, was ordered to give a justified bond in the sum of \$500 for his appearance at the present term of the Criminal Court, in default of which he was committed to jail.

Rebecca Bradley alias Rebecca Kelley, charged with receiving stolen goods, knowing them to have been stolen, was placed under a \$500 bond for her appearance at professionally at his principal office, corner Sixth Court.

The Glorious Rain. The long-wished-for rain commenced falling Sunday night, about half-past 10 o'clock, and continued with slight intervals during the night. It had been threatening all day, and a very light shower fell during the forenoon, but not enough to lay the dust. The rains Sunday night and yesterday will have the tendency to wonderfully revive the The following will show the state of the drooping vegetation, which was suffering materially from the drouth, and replenish the well-nigh dried up springs, wells, &c., in this immediate vicinity.

Attempted Outrage.

A colored man by the name of Jacob Love, aged about fifty-six years, is under arrest on the charge of attempting an outrage upon a colored girl only ten years old, near this city a few days ago.

[For the Star. Address of Hon. George Davis on Next Wadnesday Night.

MESSES. EDITORS-We were pleased to see the announcement in your valuable see the announcement in your valuable paper a few idays ago, that the Hon. George Davis had kindly consented to deliver before the Philomathean Literary Society, on Wednesday night next, at the Opera House, his address on the "Early Times and Men of the Cape Fear." The mere announcement that Mr. George Davis, the most eloquent speaker of the Cape Fear region, will deliver the address, is a perfect guarantee of success. Few of our perfect guarantee of success. Few of our citizens are familiar with the characters that make up the early history of our sechistoric learning and sectional patriotism are valued, will be present on Wednesday evening next, not only to enjoy the treat in store for them, but also to encourage the young men who constitute the Society. This Society has now been in existence for over five years, and through the indefatigable exertions of its numerous members it has achieved a success well merited and far superior to any institution of the kind ever established in our midst. To the Society, consisting entirely of young men, no better subject for discussion could possibly have been selected.

The names of Cornelius Harnett, Francis Clayton, Robert Howe and Arch. McLain, and the numerous other heroes whose achievements have won such glorious renown for themselves and their nation, are of the "immortal names that were not born to die."

"These are deeds which should not pass away, And names that must not wither."

It is said of Diadorus Siculus, that the Romans were in the habit of placing in the vestibules of their houses busts of their illustrious dead, so that in passing in and out their virtues and achievements might become familiar to their youth, and at an early age accustom them to the contemplation of greatness and insensibly implant a desire to achieve it. So let it be with the good people of the Cape Fear section; but if it cannot be carried out to that extent, let them at least give such encouragement to the young as they can, on this occasion, by attending the lecture delivered under the auspices of their Society, and being edified by the learned and eloquent lectu-Respectfully,

THE AMERICAN PROPLE.-No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour-Stomach, Heartburn, Water-brash, Sick Headache, Costiveness, Liver Complaint, yet since the introduction of GREEN'S AUGUST FLEWER we believe there is no case of Dyspepsia that cannot be immediately relieved. Two doses will relieve you. Regular size 75 cents.

DR. SCHENCK'S PULMONIC SYRUP, SEA WEED TONIC, and MANDRAKE PILLS.-These medicines have undoubtedly performed more cures of Consumption than any other remedy known to the American public. They are compounded of vegetable ingredients, and contain nothing which can be injurious to the human constitution. Other remedies'advertised as cures for Consumption, probably contain opium, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients it must do great injury; for its tendency is to confine the morbid matter in the system. which, of course, must make a cure impossible Schenck's Pulmonic Syrup is warranted to contain not a particle of opium: it is composed of powerful but harmless herbs, which act on the lungs, liver, stomach and blood, and thus correct all morbid secretions, and expel all the diseased matter from the body. They are the only means by which Consumption can be cured, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genuine cure for Pulmonary Consumption. Each bottle of this invaluable medicine is accompanied by full directions. Dr. Schenck is and Arch Streets, Philadelphia, every Monday where all letters for advice must be addressed.
