GARFIELD'S DISAPPOINTMENT. During the recent visit of General Garfield here he kept very quiet, and frequented no public places whatever. His friends say that he is bitterly disappointed at the condition in which he finds himself. He gave up his chance to be Senator to pursue a phantom in the Speakership, and he finds that after all his sacrifices his influence at the White House is exceedingly limited, as he gets nothing he asks for. His refusal to give out the text of the President's letter to him is prompted, it is alleged, by the de-termination to keep the letter for future use, and to produce it, when the consequences may be much more serions than they would be at present. His friends say, however, that he will not publish it without the consent of the President. The President feels some embarrassment on the subject. When he wrote the letter he was a little more free in his expressions than he would be, now that he has discovered how difficult it is to keep anything secret that goes on in Washington.

THE MEXICAN INVASION. The government has received advices from Lieut, Gen. Sheridan that an engagement on Mexican soil of partisans of Lerdo and Diaz was transferred across the Rio Grande to our side of the border. The United States forces interfered and captured some forty Mexicans and disarmed them. Gen. Sheridan applied here for instructions. The subject was considered at the Cabinet meeting on Friday, and General Sheridan was directed to hold the prisoners for further orders. The invasion of American soil has thus been initiated by the Mexicans, and the result may be of much importance in view of the delicate relations now existing between the two governments as a consequence of the late Cabinet instructions to General Ord.

Tweed-ledom.

NEW YORK, June 18. There have been no new developments in Tweed's case. It is reported that the confession, about which so much has been said, will be held over until to-morrow night, when it will be given to the press. Mr. Townsend, Tweed's counsel, was busily engaged to-day in preparing a statement which will be published at red we were unable to learn. the same time that Tweed's confession is given to the public. It is confidently asserted by those who ought to know that the amount of the Sweeney compromise has been misstated, and that it is not over \$300,-000. This Mr. Peck denies, and states that the arrangement is as follows: Cash paid, \$150,000; cash to be paid, \$50,000; notes secured, \$200,000; total \$400,000.

Startling Outbreak of Indians.

SAN FRANCISCO, June 17. A dispatch received to-day from Lieut. Wilkinson, now at Wallula, conveys the startling news of an uprising of Indians, and states that they were murdering whites at Mt. Idaho, which is situated 60 miles from Lewiston. He asks to have a boat dispatched at once from Walla-Walla to convey soldiers to Lewiston. The order has been complied with, and all available troops at Walla-Walla will be dispatched at once to the scene of the difficulty. Another dispatch says several settlers living on Cottonwood Creek have been massacred by Indians, and the messenger who brought the intelligence to La Pivai was entrapped and wounded by the savages. Gen. Howard, who is beyond Walla-Walla, has just telegraphed to Adjutant General Wood, in this city, to forward all the available troops without delay to the scene of trouble. Great excitement prevails. It is, however, thought the reports have been exaggerated.

Annexation Project.

NEW YORK, June 18. A special to the Herald, from New Orleans, reports a movement in Mexsee for annexing the Northern tier of the Mexican States to the United

States. The stock raisers in the border counties of Texas are making sworn statements at the instigation of the Washington authorities of their losses during the past ten years by Mexican raids. These are sent to Washington, and the State Department is taking them in hand.

Roumania Discontented.

LONDON, June 18. A dispatch from Bucharest says the Roumanians are becoming discontented because of the slowness of Russian military operations. The exexistence of this feeling has been communicated to the Czar, and it is believed will hasten the advance of the Russian army across the Danube.

The oldest inhabitant does not remember so genial a rain in June. The oat crop, which was pronounced a failure ten days ago, has wonderfully improved and in some places will be an average. Great fears were entertained for the May wheat, but it cleared off beautifully on Sunday. The crop is now fine in Mecklenburg, Gaston, Cabarrus, Lincoln, Catawba, &c. Last year the crop was lost in the field and it was a splendid yield. ——An adjourned meeting of Mecklenburg Presbytery is to be held in the 1st Presbyterian church on the 21st.

Chicken Thief. Yesterday morning, between 3 and 4 o'clock, an unsuccessful attempt was made to rob the fowl house of Mr. A. C. H. Fienken, corner of Eleventh and Market streets. The premises are not occupied at present, as some building operations are in progress, but a colored man, by the name night to keep off intruders. The thief, having with him a bag in which to place the chickens when captured, seized a favorable opportunity and attempted to carry out his attentions, when two flerce dogs that are kept on the premises made an attack upon him. He retreated, with the dogs pressing him closely in the rear, one of them having him by the seat of his pants, while Murphy, the watchman, was vainly trying to draw a bead upon him with a trusty shot-gun, but afraid to fire lest he should shoot the dog instead of the thief. Finally they reached the middle of the street, when the dogs relinquished their game and Murphy fired upon the fellow as he ran off, but without any perceptible re-

BOARD OF ALBERMEN.

Proceedings to Adjourned Session. The Board met vesterday afternoon, at 5 o'clock, pursuant to adjournment. The minutes of the last meeting were read and

The Special Committee, consisting of Al dermen Foster, Flanner and Vollers, appointed at the last meeting, to take into consideration what measures, if any, are necessary to carry out the requirements of section 10 of the act to establish a Board of Audit and Finance for the city of Wilmington, reported to the effect that the Board of Aldermen was ready to receive scaled proposals for lighting and keeping in order the city lamps, furnishing material, &c., for improving streets, alleys, &c. for the necessary printing for the city; advertising; furnishing bricks, lumber, &c., bids for the same to be handed in to the Mayor on or before June 30th, 1877.

Two communications, bearing the signatures of a number of prominent and influential citizens and business men, deeply interested in the commercial interests of the city, urging the appointment of Mr. James Sprunt as a member of the Board of Commissioners of Navigation and Pilotage,

The Board then went into an election of ive Commissioners of Navigation and Pilotage, with the following result:

Jas. H. Chadbourn, James Sprunt, D. McRae, H. B. Eilers, D. G. Worth. The Board then proceeded with the election of Chief of the Fire Department.

Col. Roger Moore was chosen on the first sallot, the vote standing as follows: Roger Moore 9, W. F. Lessman 1.-

On motion of Alderman Hill, the election of City Attorney was fixed for the meeting on the first Monday in July. On motion of Alderman Foster, the election of City Physician or Superintendent

of Health was fixed for the same date. The Board then adjourned.

The Excursion Vesterday.

The excursion yesterday, on the steamer North East, to Col. McIlhenny's plantation, below this city, under the auspices of the Sunday school teachers of St. Paul's Lutheran church, is pronounced on all sides to have been an extremely pleasant one, being not only a success as far as pleasure and enjoyment was concerned, but also fully meeting the expectations of the com-

mittee in a financial point of view. During the trip the following proceedings were had:

Probating Deeds, &c.

We are informed by one of the Magistrates (Col. Hall) that the fact is not generally understood that an act was passed by the last General Assembly, in relation to the probate of deeds and conveyances, and the privy examination of married women, which provides "That all deeds, mortgages, conveyances, releases, powers of attorney, contracts, or other writings required by law to be registered, and the privy examination of any married woman as to her due execution of any such instrument, may be acknowledged or proved, or taken by any one of the following courts or officers, namely: a Superior Court Clerk or Justice of the Peace, or any Court of record having a seal, or any Judge, Justice, or Clerk of any such Court, (except the Register of Deeds and ex-officio Clerk of the Board of County Commissioners.)

The second section of this act provides that when such acknowledgement, proof, or privy examination shall be taken before a Court, or the Clerk thereof, the same shall be attested by the seal of such Court, and when taken before a Justice of the Peace, the same shall, before registration, be adjudged to be correct and sufficient by the Clerk of some Court of record, (other than the Register of Deeds) in the county where such justice may reside; and when to be registered in any county, other than that in which taken, such Clerk shall, in addition, certify that such Justice was a Justice of the Peace in his county at the time when the proof, acknowledgement or privy examination was taken.

The following from the President of the Ladies' Benevolent Association speaks for

Most reluctantly the President of the La-dies' Benevolent Society feels constrained to present, for the serious consideration of the community, a subject which seems to be of vital interest to all who desire to promote the comfort and well-being of society around us: the care of the sick-those who are reduced in circumstances by want of employment. Many of these are daily referred to us by kind hearted pl medicines and suitable diet, and have received all the aid within our reach, with the limited means we have. But, our funds being nearly exhausted, we found it neces-sary to retrench and had to confine our-selves to giving food, leaving the providing of medicines to the county, which was made known through the press. We were afterwards informed this would be done, but requesting the endorsement of the President to each prescription (we know not why), but this was not refused. To-day we learn that the county only contracts for medicines to the amount of \$15 per earn that the county only contracts for month, and the Society is supposed to be responsible for the rest. Already the contract for the current month is filled. And the question comes, will the Society continue the supply? It were cruel to stop this without warning while so many are in a critical condition and penniless. We take the responsibility for the present week. hoping to gain the attention of attending physicians, and of those in the community who can aid us in devising some plan for relieving the distressed at this point. If sufficient means are placed in our hands we will cheerfully do our part in aiding those who suffer privations such as must accrue from sickness and poverty combined. Should this aid be withheld, we sorrowfully confess that the amount of funds now in hand will not justify us in promising any further supplies than such as have been given for some months pastchiefly corn meal and occasionally a piece of fresh meat for destitute families, with a little coffee or tea, sugar, rice, crackers or loaf bread, and sometimes eggs for the sick -and, when ordered by the doctor, a stimulant in small quantities for severe

There are yet full six months to the close of our year, and for all this our limited funds will barely suffice. Friends of humanity, think of us, and lend us a helping hand. June 18, 1877.

Yesterday afternoon the Criminal Court, which has been in session since Monday, the 14th inst., adjourned for the term. During the session an immense amount of business was disposed of, there having been one hundred and five convictions, comprising the crimes of bigamy, forgery, perjury, larceny, fraud and deceit, assault with attempt to commit rape, together with a number of misdemeanors, &c. His Honor, Judge Meares, sentenced eighteen convicts to the penitentiary for various terms, and five to the county work house, thus ridding the community of a large number of vicious characters, who have been preying upon the property; of good citizens, and otherwise setting the laws at

THE DUTY OF WOMAN.—To be attractive is a duty which every lady owes to herself, to her domestic circle, and to society. Not only should she endeavor to please in address and in apparel, but, whenever possible, in complexion and in feature as well. Facial embellishment is to a lady as proper, and oftentimes as necessary, as are the adornments of her raiment, the artificial graces of her conversation, of her demeanor, or other meretricious attractions upon which depend so much of her dominion and influence over man. The woman who permits herself to become unlovely, who resigns herself hopelessly to the ravages of time, and the spoliation of her charms, visits upon her friends and admirers a sorrowful regret, that it becomes her to avert to the latest day. Of this secial daty it may truthfully be said that she can best acquit herself by the use of Gourand's Olympian Cream. No other preparation approaches this in excellence, in harmlessness and purity, or compares with it in the number of spontaneous testimonials that its virtues have elicited. Its advertisement has hitherto been its merit, its recommendation by all that have used it, and not by sounding and pretentious advertising in the journals of the day. Trial bottles 25 cents.
