From Washington.

WASHINGTON, June 26. North Carolina office-holders are still on the ragged edge. Collector Charles S. Winstead, of the Fifth Internal Revenue District, arrived in the city to-day to answer in Secretary Sherman's request for his resignation. Winstead is a wealthy bachelor, who surrounded himself with deputies, gaugers, and other subordinates, selected from among his kinsmen, and by that means swelled the family revenues, from this source alone, to upwards of \$20,-000 per annum. When a leading North Carolinian showed the published list of this family tea-party to Secretary Sherman the Secretary muttered something about having been compelled to dismiss his own relatives from office, and intimated that however good an officer Winstead might be, he must step down

Very soon Winstead received a polite note asking his resignation; but instead of surrendering his commission, which had comforted him for seven years, he got up meetings of his clan in two or three counties, all of which enthusiastically endorsed the old Colonel. A private letter from Greensboro states that one meeting was attended by twenty-two men and boys, and another by six persons, mostly of the kith and kin or beneficiaries of Col. Winstead. After the meetings, the letter says, subscriptions were taken up to pay the expense of telegraphing glowing accounts of the people's spontaneous endorsement of the Colonel.

Captain Albright, of Alamance, Mr. Henderson, of Lexington, and Dr. Wheeler, of Salem, are in the city looking for Winstead's old shoes; and two more candidates, Haynes and Creamer, of Davidson county, are on the way.

W. J. Clark, of Newbern, who was a circuit court judge under the regime of Gov. Holden, is here looking for the mission to Brazil; and James Boyd, of Alamance, who was defeated for Congress last year by Scales, Democrat, asks to be appointed Attorney for the Western District of North Carolina, in place of Lusk, who is thought to have too soft a place in his heart for the Douglas Dick combination.

Lusk has just returned from a trip to North Carolina, which he reluctantly took by order of General Devens, to bring two witnesses for the Government in the Franks case.

INTERVIEWS WITH MR. HAYES. Leading conservative Republicans of the Old North State have had occasional interviews with the President and Secretaries recently in relation to political affairs in that State. They assured the President that the interests of the party demand the dismissal of every carpet-bagger from office, and the disruption of the Greensboro' ring and similar combinations of officials throughout the to be a private one, it being set forth State. That their suggestions have in the indictment by chapter and had weight is apparent in the date, and its material provisions incharacter of the few appointments corporated in the bill; defendant already made, and in the earnest | could not have been misled as to of a quart of whiskey which he drank the efforts that are being made to get at the true inwardness of Marshal Robert Douglass' office. Whatever may be the whole truth about Douglass and his deputies, the strength and numbers of those interested in concealing the facts and shielding the guilty are too great to leave much hope that justice will be meted to the wrong-doers.

Found Dead in Hi- Vield.
Coloner Hewlett was notified yesterday that a colored man by the name of Benjamin Galloway, a resident of Cape Feat township, had been found dead in his field that morning, whereupon the Coroner proceeded to the place indicated, found the body as described and held an inquest over the remains. The widow of deceased stated that some time during the night her husband was aroused by the barking of the dog, and went out to see what was the matter, being under the impression that a neighbor's hog, which had been doing a great deal of damage to his field, had again broken into it and was playing havoc with the results of his hard labor. She heard him setting the dog on the hog a few minutes after going out, after which everything became still. Waiting awhile and hearing nothing of her husband, she went to the door, the shutter of which she found open, but could see or hear nothing going on outside. She saw a light at the house of her neighbor, however, and supposed that her husband had gone there to have a talk with the family about the depre dations of the hog. She then went to bed and to sleep. Early in the morning she got up and went out, when she found her husband lying dead in the field, about a hundred and fifty yards from the house, having fallen upon his back. The jury examined the body, but could find no indications of violence, whereupon they returned a ver. dict to the effect that deceased came to his death from disease of the heart. They are compounded of vegetable ingredients, and contain nothing which can be injurious to the human constitution. Other remedies advertised as cures for Consumption, probably contain oplum, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients it must do great injury; for its tendency is to confine the morbid matter in the system, which, of course, must make a cure impossible. Schenck's Pulmonic Syrup is warranted to contain not a particle of opium: it is composed of powerful but harmless herbs, which act on the lungs, liver, stomack and blood, and thus correct all morbid secretions, and expel all the diseased matter from the body. They are the only means by which Consumption can be cureu, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genuine cure for Pulmonary Consumption. Each bottle of this invaluable medicine is accompanied by full directions. Dr. Schenek is professionally at his principal office, corner Sixth and Arch Streets, Philadelphia, every Monday where all letters for advice must be addressed.
