FROM WASHINGTON.

Mr. Tilden and the Electoral Bill-Inside Facts Coming Out. [Special dispatch to the Baltimore Sun.

WASHINGTON, June 29. The recent letter of Lieut. Gov. Dorsheimer declaring he knew Gov. Tilden was opposed to the passage of the law creating the Electoral Commission, is the subject of much comment in political circles here, especially by leading Democrats, who have intimate knowledge of all the material facts, and are in a position to know how that act came to be passed.

When the conspiracy was first developed, by which Louisiana and Florida were to be captured through returning boards, and Mr. Zach Chandler telegraphed over the country on the 8th of November, "Haves has one hundred and eighty-five votes and is elected," right in the face of the returns for Mr. Tilden, Mr. Hewitt and others of the National Democratic committee were urged to appeal to the country, and to prepare measures to defeat this daring scheme to steal the Presidency.

Had Mr. Tilden and his friends pursued this course promptly and energetically it is believed the conspirators would have halted in their design when confronted with a popufar majority of a million of white votes and a quarter of a million of white and black, independent of a clear and nonest majority in the Electoral Colleges.

The New York managers hesitated to take this responsibility, and of course they consulted with Mr. Tilden. Their excuse was that Congress was about to meet, and it would be better to wait and take counsel of the Democrats in both Houses. When Congress came together on the first Monday in December no line of action was marked out, and opinions one year. She weighs 450 pounds and is four years old. were loose and unsettled.

Naturally enough the Democrats looked to Mr. Tilden as their leader, and expected from him some suggestion of positive policy. None was made. Meantime the conspiracy was growing in strength every day by the supineness, distracted counsels and absence of unity on the Democratic side, because there was no rallying point where their strength might be concentrated. Troops were drawn to Washington, and preparations were made for a state of flagrant war, about which the public has been but indifferently informed.

Finding that New York would not move or lead the way, the Western Democrats in Ohio, Indiana and Illinois made demonstrations of a purpose not to submit tamely to the intended fraud. If that movement had been seconded warmly by meetings over the North-for the South had its hands tied and was little more than a passive spectator-the plot might still have been arrested, though it had gained headway and become formida-

With this failure disappeared the last hope of crushing out the conspiracy by a popular rising against it. Mr. Zach. Chandler and his associates were elated, and all the Democrats were depressed. During all this time Democratic members of the Senate and House of Representatives were constantly in conference with Mr. Tilden, without being able to obtain from him any plan or decision which

would solidify the party. The session was drifting on and the day fast approaching for a count of the vote. Mr. Edmunds had drafted his bill for the electoral commission, and it was referred to a committee, in this state of things, and before either party was committed absolute-

TRUE ECONOMY.—It has been found that the only true economy is that which stops the little leaks and saves in trifles. I SCHENCK'S SEA WEED TONIC .- In the atmosphere experienced here during the summer months, the lethargy produced by the heat takes away the desire for wholesome food, and frequent perspirations reduce bodily energy, particularly those suffering from the effects of debilitating diseases. In order to keep a natural healthful activity of the system we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very ffectual. A few doses will create an appetite and give fresh vigor to the enervated body. For dyspepsia it is invaluable. Many eminent physicians ave doubted whether dyspepsia can be permanently cured by the drugs which are generally employed ture is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body causes the food to be digested, and when this juice is not excreted in sufficient quantities, indigestion, with all its distressing symptoms follow. The Sca Weed Tonic performs the duty of the gastric juice when the latter is deficient. Schenck's Sea Weed Tonic sold by all Druggists.
