Fatal Accident with a Revolver. [Special Dispatch to Baltimore Sun.] RICHMOND, July 17.

Julian Harrison, of the firm of Perkins & Harrison, a tobacco inspector and partner of the owners of Shockoe warehouse, accidentally shot himself to-day with an old seven-shooter, which was kept in a drawer of a desk in his office. He was looking through the drawer for something at the time, and in moving the pistol out of the way it is supposed he struck the hammer, exploding the charge. The ball entered his head, just above the bridge of the nose, going clear through and striking the ceiling of the room. He fell back in a chair, and expired almost instantly.

Result of General Reneau's Mission NEW ORLEANS, July 17.

Gen. N. S. Reneau, who went to the City of Mexico bearing dispatches from Secretary Evarts, returned today by steamer from Vera Cruz. Gen. Reneau reports that the country is quiet, and says that Diaz's authority is recognized throughout the republic, and he believes that now Mexico has the best government she has had for twenty years. In an in-terview President Diaz expressed a desire to do everything possible to assist in breaking up lawlessness on hoped his government would be recognized by the United States at an early day.

Sitting Bull in Canada.

WASHINGTON, July 18. A letter received here from Canada states that over 2,000 Sioux Indians, melading Sitting Bull and his band, have taken up a position in Canada, not far beyond the United States border. The Canadian authorities are anxious to be relieved of these unwelcome visitors, but are puzzled about how to proceed. They have instructed all Indian traders not to sell these Indians any fixed ammunition or rifled-guns. They are allowed to purchase shotguns and powder and shot for the purpose of hunting.

Threatening Conflagration in a Penn-Wiyania Coal Mine.

SCRANTON, PA., July 17. A fierce fire is raging in the Roaring Brook colliery at Danmore, in the suburbs of this city, and it is feared the mine will have to be fooded in order to save it. The fire broke out some time during last face of the earth, and was discovered before six o'clock this morning by the watchman, who found all the mules, ten in number, burned to death. A gang of men have been day trying to extinguish the will be fruitless.

Jersey Lightning. Special Dispatch to Charleston Journal of Commerce. 1 NEW YORK, July 18.

The thunder storm vesterday was one of the most violent which has occurred, and the most disastrous in its effects. From all points come reports of damage done by lightning, and in many cases it was accompanied by fatal effects. In this city it was very severe, but it seems to have given full vent to its furore over in Jersey, where three people were killed. The storm was also very bad along the Hudson and Long Island.

Hilton on Jews and Gentiles.

NEW YORK, July 18. Relative to the rumored rescinding of the order for the exclusion of Hebrews from the Grand Union Hotel, n Saratoga, Judge Hilton said that he knew nothing of it until he saw it in the papers this morning, and said that his orders bearing on that question remain unchanged. He added, with much force: "I am determined they shall remain so; I have no intention of altering them."

the day.

It will be remembered that some fifteen or eighteen months ago a subscription was raised among the white people of New Hanover and Brunswick counties to pur chase a monument to be erected over the grave of one Daniel Rowell, a very worthy colored Democrat of the latter county, who had lately died. The monument, with a suitable inscription, was purchased, and it was to have been erected with becoming ceremonies on the 4th of July, 1876. It transpired, however, that the land upon which the old man was buried belonged to a rabid politician of the opposite stripe, and he forbade the carrying out of the plans proposed upon his land. The intended ceremonies were thereupon indefinitely postponed. In the meantime the lands passed into the hands of another party, a colored man, who did not entertain the same "conscientious scruples" in regard to the matter, and a week ago last Sunday the long deferred ceremonies took place, Mr. E. R. Taylor presenting the monument to the widow, which was erected over the grave, two colored preachers-J. J. Fry and Mack Miller-officiating on the occasion and a handsome donation being subscribed by the whites present for the benefit of the widow. There was quite a large attend-

ance of both white and colored people. Excursion to the Mountains. Arrangements have been perfected for running an excursion train from Wilmington to Henry's Station, over the Carolina Central Railway and connecting roads, starting from this city on the morning of Monday, the 23rd July, and arriving at Henry's at 5 P. M. on the 24th; returning, leave Henry's on the 27th, at 6 A. M. and arrive at Wilmington at 6 A. M. on the 28th. A special car will be provided for the ladies, into which none but themselves and escorts will be admitted, and good order will positively be enforced. A refreshment car will be attached, and also a baggage car for the benefit of those who wish to carry trunks, &c. Going up a night will be spent in Charlotte, where arrangements have been made for half fare at the hotels. An agent will be found at the Manning House on the 20th and 21st, from whom tickets can be obtained and arrangements

made for family tickets, &c. To those wishing to take a trip to the mountains, enjoying a brief respite from business toils and cares, and rusticating for a few days in a section abounding in interesting scenery, no better opportunity, perhaps, will ever be offered than this.

A Case of Perjury. Hardy Wright, colored, will have a pre liminary examination before Justice Harriss, this morning, on the charge of perjury. This case grew out of the trial of several colored men at the last term of the Criminal Court on the charge of disturbing a religious congregation, the defendant being one of quite a large array of witnesses who appeared in the case. We hear that several other parties who testified on the trial in question will be arraigned on the same charge upon which Hardy Wright will be examined this morning.

Colored Laborers, Union. A number of the colored people of this city met on Wednesday night and organized a society to be known as the Laborers' Union of Wilmington, N. C., with the following officers: Cato Waddell, President; Henry Green, Vice President; G. W. Hill, Treasurer; Soloman Nixon, Recording Sec-

retary; G. W. Sheridan, Financial Sec-

retary.

Magistrate's Court. Charles Stevens, colored, was arraigned before Justice Gardner, yesterday, on the charge of "using vulgar and obscene, and disgustingly profane language." Defendant was found guilty and ordered to pay a fine of \$10 and the costs, in default of which

he was committed to jail.

The Mail Robbery-Preliminary Examination before the Commissioner-The Prisoner Committed for

Conrad Houseman (not Houston, as it was first reported to us), the alleged mail robber, was arraigned before U. S. Commissioner VanAmringe, at the United States Court-room, yesterday morning, at 10 o'clock. The evidence of Mr. Gottfred May was to the effect that Houseman and himself were stopping at the same boarding house, on North Water, between Ches nut and Mulberry streets, but that only casual speaking acquaintance existed between them; that a few days since he (May) was engaged in writing a letter, and was asked by Houseman who he was writing to, when he was informed that he was writing to his father in South Carolina to send him some money, as he was out of funds. Two or three days passed, and it was about time for witness to hear from his father, when Houseman inquired if he (witness) had got his money yet. Mr. May re plied that he had not, but it was time that he had received it. The next day (which was Wednesday) Houseman asked witness if he had been to the postoffice to inquire for a letter yet, and upon receiving a reply in the negative, he volunteered to go for him, apparently being aware of the fact that if he could get authority from Mr. May to get the letter a case of mail robbery could not be made up against him. Mr. M., however, declined the proffered courtesy, saying he would attend to the matter himself. Then it was that Houseman resolved to get possession of the letter and the money before Mr. May could call for it. He then went to the postoffice, as was shown by the evidence of the officials, and, representing himself as Gottfred May, called for a registered letter to that address, obtained it, got the money for the order (ten dollars) and signed the name of Gottfred May to the receipt for the same. The fraud was discovered when Mr. May subsequently called for the same letter, and

Houseman was arrested. The evidence being apparently conclusive as to the guilt of the prisoner, he was ordered to give a justified bond in the sum of \$500 for his appearance at the next term of the U. S. District Court, which meets in this city on the first Wednesday in November, in default of which he was committed to jail.

Before being taken to the lock-up House man requested Deputy Marshal VanSoelen to hand over three dollors in his possession to Mr. May, saying it was his money, (this amount being among the effects taken from the prisoner at the time he was arrested), thus virtually confessing himself guilty of the crime with which he stands

Action of the Board of Health in Reference to Allowing Certain

Vessels to Land at this Port. A petition was laid before the Board of Aldermen, at their meeting on Wednesday afternoon, asking permission for the Spanish barques Augusta Elsie and Secunde Triumpo, now quarantined below the city, to come up to port, as there had been no sickness on board of these vessels. The matter was referred to the Sanitary Committee with power to act, who, not feeling themselves justified in assuming the responsibility in such a delicate matter, determined to leave it to the consideration of the Board of Health. The Board met at the store of Messrs. Green & Flanner, on Wednesday night, and, after due consideration, resolved to allow the vessels in question to land at our wharves under certain conditions, to wit: That the said vessels, after having discharged their ballast, shall be thoroughly cleansed and fumigated with sulphurous and other acids, the hold sprinkled with carbolic acid, &c.

In the case of the British barquentine Mary Frost, now lying at the lower quarantine, at Deep Water Point, opposite Smithville, with several cases of intermittent fever reported on board, it was the expression of the Board that she should not be allowed to come up to this port at all.

It was further resolved, as the opinion of the Board, that no vessels from West India or South American ports should be permitted to land at this port at any time between the 15th of June and the 15th of October, and that the Vice Consuls representing such ports be informed of the prohibition in order that they may give the proper notification.

The Grays in Wilmington.

Under this head the Charlotte Observer of Wednesday says: "A telegram from Capt. Hand, received here yesterday morning about 10 o'clock, announces the safe arrival of the Grays in Wilmington at 6 o'clock yesterday morning, and adds that the hospitality of the Wilmington military cannot be surpassed.' They expected handsome treatment because of the well known hospitality of the people of Wilmington, but the telegram indicates that the half had not been told them.
