MORNING EDITION.

OUTLINES.

Further details of the great Russian defeat are furnished; the loss is stated at from 6,000 to 8,000 killed and wounded; the retreat was a wild confusion, and the straggling wounded suffered terribly; the thirty-second brigade lost very heavily, and besides, it sacrificed the imperial banner of one of its regiments. Prince Schackowsky's command is in a state of disorganization. Russians in Dobruzcha have come to a perfect standstill. The Russian batteries at Tchauchiva were entirely silenced on the 30th by a Turkish frigate. Hobart Pasha has command of the Black Sea forces. Six thousand more Egyptian troops are going to Constantinople. Adeline Patti's divorce suit has been pronounced against her in a French court, and she was condemned to pay costs. Washington Republican severely criticizes Judge Humphries' decision in the case of detectives Cunningham and Bell; the facts show the entire party to be utterly depraved. The Committee of Safety of Pittsburgh want a garrison maintained at Allegheny arsenal. Marshal Douglas, of North Carolina, is not to be relieved until expiration of his commission. Sam Bard has written a letter commending President Hayes' Southern policy. The English channel squadron has been ordered south to Vigo, where it will await orders. The Bucharest correspondent of the London Times thinks the Plevna defeat will certainly be retrieved. Hon. John Goode of Virginia, pronounces as utterly untrue the statement that he is writing letters to members of Congress, asking them to vote for him for Speaker. The railroad excitement is quieting down, and the Pennsylvania roads are generally running regular trains. Dr. James McClelland, of the U. S. Navy, is dead. New York markets: Money easy at 14 @ 2 per cent; gold quiet at 105 1/2; cotton weak and irregular at 11 1/2-16 1/2-16; flour dull and heavy, without change; wheat dull and in buyers favor; spirits turpentine firm at 33c; rosin quiet at \$1 75 @ \$1 85 for strained.

The Blind Leading the Blind Again. [Special-Dispatch to the Gazette.] WASHINGTON, Aug. 2.

Nothing has been talked of to-day in political circles but the action of the Republican convention at Cleveland in nominating Judge W. H. West, of Bellefontaine, for Governor. He is differently estimated, according to whether the critic is friendly to or opposes the administration. Secretary Sherman, while incensed at the plank demanding remonetization, is of opinion that the nomination is strong and will win. This, he believes, because the nature of the fight shows that it was not an easy matter to place any one in nomination who favored the present policy of the administration, and the nomination of West over Taft, by even a small majority of the whole number of votes cast, indicates that the pacification and civil service policy carried the day. There is particular rejoicing at the White House over the defeat of Judge Taft. It is an open secret in Ohio politics that Mr. Hayes and Judge Taft have been personally at variance for years past.

Charges against the Architect of the Capitol.

WASHINGTON, Aug. 2. Several charges have been presented against Edward Clark, architect of the Capitol, which have been referred for investigation. One charge is that of receiving two salaries, one as architect and the other as superintendent of the Soldiers' Home. Another is that of keeping a horse, driver and landau at public expense for the use of himself and family. Other specifications charge extravagance in various expenditures at the Capitol grounds, and of general incompetence for the duties of the position.

The Howgate Arctic Expedition—Sailing to the Florence.

NEW LONDON, August 2. The schooner Florence sailed from this port at 10 o'clock this morning for the Arctic ocean. She goes to establish Captain Howgate's polar colony at a point on the coast of the north side of Cumberland, and there to store the supplies upon which the main exploring expedition, which sails in July, 1878, under Capt. Howgate, United States army, is to subsist. The Florence is of fifty-six tons burthen, is provisioned for one year, and amply supplied with instruments necessary for the purpose of the expedition.

Appearance of the Army Worm on the Western Branch Farms.

[Special Telegram to the Dispatch.] NORFOLK, Va., Aug. 3. The army-worm has made its appearance in great numbers on the farms on both sides of the Western Branch, in Norfolk county, and considerable apprehension is felt about the corn crop. The worm seems as yet to attack the grass before other vegetables, and a field, after it has been travelled over by the worm, looks as severed and scorched as if a dense fire had passed over it. The constant rains for a month past have injured fruit, corn, and other vegetables of this section. The grapes have completely rotted.

Southern Political Outlook.

[Special to Baltimore Sun.]

General Forney, member of Congress, of Alabama, here in the interest of his constituents, who are tired of raids on illicit distilleries, and want relief from so much pressure of Federal authority. Mr. Forney says that it has not occurred to the Southern members sensibly to think of running a candidate. Speaker from among their number. The fact that Randall, Saylor, Cox and Morrison have been at work for months securing pledges from members elect to support their candidacy makes it impossible for the Southern members to unite on anybody. Were this not so there is no doubt in his mind but that John Goode, of Virginia, would be the favorite. In fact he was urged to become a candidate at the organization of the Forty-fourth Congress, but having had some difficulty with his opponent, J. H. Platt, he did not care to take a prominent part in the House proceedings until the Election committee reported on the right or his seat. It is also a serious question with the Southern members whether it would be good policy to attempt to organize the House on a sectional issue, especially if the extra session convenes in October before the majority of the fall elections. The Alabama delegation are now a unit in favor of the election of ex-member Caldwell, of that State, to the office of clerk.

Building and Tears for To-day.

[Baltimore Gazette.]

A dispatch was received from Washington at the office of the Gazette last evening, stating that Collector Thomas had received his definite instructions from the Secretary of the Treasury with regard to the reductions to be made in the force in his office. These instructions were to the effect that on the 15th instant the force was still further to be reduced at the customhouse by the discharge of fifty employes. Ten of them are to be from the clerks, two from the messengers, four from the messengers' department, two from the assistant weighers, two gaugers, fourteen inspectors, twelve night watchmen and four laborers.

He was a member of the Legislature of 1874-75, and served his people there faithfully; he married the estimable daughter of Mr. N. R. A Sad Case.

The white man alluded to in our last having sought temporary quarters at the station house, was furnished transportation by the county, yesterday, as far as Weldon, the authorities there being requested to forward him on towards his home, which is in Charlottesville, Va. He is a young man, intelligent, possessing a fair amount of education, and says he has been studying for a profession, but he has been compelled to seek his home on account of declining health. He says he walked all the way from Florida to this city, and would have continued his journey in the same way but for the fact that he was completely broken down upon his arrival here and could get no further. During his travels he says he slept of nights mostly in the woods, building a fire to keep off snakes, &c., but was occasionally treated to a bed in some house on his line of travel. Upon being asked why he did not try to get the railroads to help him along, he said that he was always afraid of a refusal, which would have made him feel worse than the walk. He is now on his way to his home, which we hope he may reach in safety. He made a very favorable impression upon all who conversed with him.

Mayor's Court.

The only cases before Mayor Dawson, yesterday morning, were those of David Lucas, colored, and his wife, Bridget, who, armed and equipped, were about to massacre each other on Friday last, when their little matrimonial "strike" was brought to an untimely end by the appearance of a police officer on the ground. Being an aged couple, somewhere in the seventies, they were let off on the payment of a fine of \$50 each. The old man paid his own fine, but when asked if he could not settle that against his wife, also, he remarked that he had to work too hard for his money to be wasting it in that manner. She was thereupon ordered to a cell, when the heart of the aged "head of the house" relented and he agreed to foot the entire bill. And such is the end of most matrimonial squabbles.
