Senator Blaine and the President. [Special dispatch to Baltimore Sun.] WASHINGTON, Aug. 10. Notwithstanding the Maine Republican Convention tabled, on motion of Mr. Blaine, resolutions explicitly condemning the President's policy, that policy was condemned by implication in one of the resolutions which was adopted. This resolution, which affirmed the election of the Republican State tickets in Louisiana and South Carolina, was drawn by Mr. Blaine. The President thoroughly understands what Mr. Blaine is driving at. To a gentleman who asked him to day what he thought of the speeches and proceedings of the Maine Convention, he smilingly remarked that he did not think they were at all dangerous. The President seems to be very well satisfied at this time that recent occurrences will very much divert and weaken the opposition to his policy. Indeed, even before the great strikes, his equanimity under the attacks made upon him and the perfect confidence in the success of his policy was something pleasant to behold.

Carl Schurz Again Investigated.

WASHINGTON, Aug. 10. The Daily Nation of to-morrow will contain the following statement: "A reporter of the Daily Nation called upon Gov. McCormick, at the Treasury Department, yesterday, to inquire in reference to the relations of Mr. Schurz to the National Republican Committee in the late Presidential campaign. It is well known that Mr. Schurz's appointments at the East were made by Mr. McCormick, and that in his capacity at that time of Secretary of the committee no one could have had a better knowledge of the terms upon which Mr. Schurz gave his services to the party. Mr. McCormick said he had no knowledge of the course of Mr. Schurz in previous campaigns, but that in the campaign of 1876 that gentleman neither asked nor received from the National Republican committee one dollar for his services. On several occasions, when at the rooms of the committee in New York, Mr. McCormick spoke to him about the matter of his personal expenses for travelling, hotel bills, &c., and said the committee would promptly pay them. Mr. Schurz answered that he preferred to bear his own expenses, and he did bear them throughout the campaign so far as Mr. McCormick is informed."

Ocean Steamer Lost.

PANAMA, Aug. 11. The Pacific Navigation Company's steamer Etna has been lost off Valparaiso. Fourteen bodies were recovered and forty-three were reported to be thrown on the rocks, and owing to the exposure and want of food the crew threw themselves into the sea to end their misery. Only three were saved. A letter dated on board the steamer Lima, at Calao, July 21st, says: "The details of the loss of the Etna are very great. Out of the crew of sixty-seven in all and passengers there are probably saved sixty-three. There could not have been less than ninety to one hundred passengers, as she was the inter-mediate boat. The loss of life is estimated at about 100 persons."

The Texas Embroglio.

Frank S. Britton, who an Austin dispatch reports as having shot a man and woman yesterday, who inquired the route to Charlotte, N. C., for the country road. He was tolerably clad, but was barefooted; his wife was barefooted also. The man said they had walked all the way from Pittsburg, Pa., and were on their way to Charlotte, near which city they had relatives, being originally from that section. The man had in his arms a prattling babe, while the poor wife carried all their other worldly possessions wrapped in a small bundle. It was indeed a sorry sight.

Weekly Review of the New York Market.

[Special dispatch to Charleston Journal of Commerce.]

NEW YORK, August 11. The events of the week in financial circles were generally unimportant, and dullness has, for the most part, prevailed. The monetary situation showed no special change, and call loans ranged from 1 1/4 to 3 per cent. The gold speculation was weak on a small volume of business; the price declined from 105 1/4 to 105 1/2—these having been the extreme quotations for the week. Government bonds exhibited firmness, and towards the close the market was quiet, but active at intervals. The foreign exchanges are heavy and lower.

Dishonor Hovering Over the Credit of America Abroad.

NEW YORK, Aug. 12. A cable dispatch to the Herald says: "Profound apprehension and anxiety exist in all commercial and financial circles respecting the reputation movement in Georgia and Virginia. This, with the effect of the railroad strikes, threatens to be destructive of American credit in Europe."

A Virginian Drowned.

FIRE ISLAND, L. I., Aug. 11. Robert L. Cook, of Staunton, Va., father of Rev. William H. Cook, pastor of St. John's Church, was drowned on Fire Island bar this evening, being washed overboard by a breaker. The party were taking a pleasure sail from Babylon, L. I. The remains were taken to Babylon.

The Wrong Man Convicted of Murder.

[Raleigh Observer.] At the fall term of 1857 of the Superior Court of Guilford county, Jas. R. S. Chipman was convicted of the murder of Martha Pinnix and sentenced to be hung. A few days before the time appointed for his execution he broke jail and made good his escape. In 1863, a man by the name of Paris Stewart, from the same county, was conscripted in the army of the Confederate States. He reported for duty at Greensboro', and was assigned by the enrolling officer at that place to the command of a guard of twelve men stationed at Deep River bridge, near Jamestown, on the North Carolina Railroad. On his return from Greensboro' to his home in company with his brother on the day of his enlistment, he made the following startling disclosure; said he: "I have now entered the army, and in a short time I will be dead. There is a secret I wish to communicate to you. I am the murderer of Martha Pinnix. I was betrothed to her, and knowing that the marriage would be an unhappy one, I killed her, and by a strangely fortuitous circumstance, the crime was fixed upon Jim Chipman. When I read you tell Chipman's sister, for whom I have a special regard, that it was me, and not her brother, who murdered Martha Pinnix."

Spirits Turpentine.

Gen. Clingman did not receive the \$25,000 fee. Raleigh handled thirty-two bales of cotton last week. We have but few State papers to-day, and hence, cannot get our usual digest of news. And still the Concord Register fails to see point about the "wink of inspiration." The Boston Advertiser, Louisville Courier-Journal, and N. Y. Herald saw it quickly. Weldon News: Cotton is growing to wood. — But little sickness in town. — Rev. Mr. Durham is conducting a revival at Concord. — The weatherboarding near the front door, is marked in legible characters, "April 1st, 1791, the day he stopped here."

Excitement in a Grocery Store—A Pistol Fired, but Nobody Hurt.

Last night, about 8 o'clock, two or three colored people were in the store of Mr. Wessel, on Second, between Market and Dock streets, when some playful remarks passed between them and young Frederick Howland, one of the clerks, during which the latter slapped some butter on the face of a young colored man by the name of John Faison, who became enraged at the act and cursed and abused young Howland in an outrageous manner, using epithets of the most exasperating character, and denouncing him as a s— of a b—. Finally young H. opened the show case and was in the act of taking a pistol from it when Faison threw a four pound weight at his head, which missed the mark intended, however, but smashed a hole in the show case. Young Howland drew the pistol from the case, but before he could use it the weapon was accidentally discharged, the ball passing over the head of Faison and fortunately doing no damage. It is asserted that the young man had no intention of using the pistol at the moment, but was getting it in readiness for an emergency in case it should arise, and there was every indication at the time that he would need it.

Improvement in Prospect.

We learn that it is in contemplation to build a row of offices on the vacant lot belonging to the county, just east of the Court House, to be rented out. No doubt a very respectable income could be derived from this source for the benefit of the county, while at the same time the buildings would add greatly to the beauty of the street in that locality.

Local News.

Mr. Donald W. Bain, of Raleigh, has been on a visit to this city during the past week.

The regular monthly meeting of St. George and St. Andrew's Society was held last night.

Falling barometer, southerly winds, warmer, partly cloudy weather and numerous rains, are the indications for this section to-day.

L. L. Polk, Esq., Commissioner of Agriculture of this State, has sent us his circular for July, which gives very encouraging crop reports for North Carolina.

There is one of the famous eucalyptus trees in Oakdale Cemetery which has attained to the height of about fifteen feet, being the tallest specimen we have yet seen.

During the term of the Criminal Court just closed, the jury cost the county only \$410. During the last term the expense from this source amounted to about \$1,000.

The Supreme Court has decided that a member of a Building Association, who pays it ungracious interest is in pari delicto, and the Court will not interfere to cause the money to be refunded.

A colored man by the name of George Brown had a hearing before Justice Scott, yesterday afternoon, on the charge of assault and battery on a colored woman, and was fined one penny and the costs.

The earnestness and vigor with which business was despatched by the Criminal Court last week, by which it was wound up in six days instead of two weeks, will result in a considerable saving to the county.

About twenty minutes past 11 o'clock last night a wind cloud from the northwest passed over this city, accompanied by a strong and delightfully cool breeze, making people with thin coats on almost shiver.

John Lewis, colored, on trial in the Criminal Court at the close of our report on Saturday night, on the charge of larceny, was found guilty and sentenced to two years' confinement in the State Penitentiary. This was the last jury trial for the term.

A gentleman canvassing in Robeson county for the Carolina Farmer obtained 60 subscribers in a few days. He says he will get 200 subscribers in Robeson county alone. Merchants will find the Farmer a good medium of communication with the farmers and planters of this section.

Prisoners Sentenced.

During the late term of the Criminal Court five prisoners were sentenced to the Penitentiary, of which two were white and three colored, and three colored were sentenced to the county Work House. The latter were turned over to the contractor, Dunca Holmes, yesterday afternoon, and are as follows: Lucinda Slye, keeping a disorderly house, six months. Jesse Brown, larceny, six months. John Bush, larceny, six months. Those sentenced to the Penitentiary are as follows: Thomas Weeks, larceny, five years. Larry Neal, larceny, five years. Jos. Kelley, breaking into a store house, two years. Haywood Howard, larceny, two years. John Lewis, larceny, two years.

A Colored Man Arrested for Trospass.

He Proves a Regular Desperado, and has to be Clapped and Tied. About 5 o'clock yesterday afternoon, Officer Biddle, of the night police force, discovered that one Isaac Baker, colored, had been cleaning a lot of salt fish on the platform of his well, in his yard, on Castle, between Sixth and Seventh streets, the water which he pumped on them of course running back into the well and making an adulteration which would not be very pleasant to the taste. When Mr. Biddle came and ascertained the facts the man Baker was on the street. He asked him to go back and pump the water off, as he had ruined his well, which Baker, in very insolent terms, refused to do. Officer Biddle (being off duty) then called upon officer D. S. Bender, who was on duty on that beat, to arrest him, which he did. This was at the corner of Sixth and Castle streets. Officer Bender had proceeded as far as Nun, between Fourth and Fifth streets, with his prisoner, when the latter, seizing the opportunity when but few persons were within sight or hearing, suddenly halted and refused to go any further. Officer Bender, collared him, and Baker resisting him with all his might, his shirt, which was of flimsy material, and apparently rotten, was torn completely from his person in the struggle. Mr. John Haar, who keeps a store in the vicinity, ran to the assistance of Officer Bender, and about the same time officers K. J. Barclay and W. T. Williams, of the night police, also arrived on the ground and proffered their assistance in making the arrest. An attempt was then made to overpower the prisoner, who was showing fight and indulging in very profane and indecent language, when Baker struck officer Bender in the mouth, breaking off one of his front teeth, and also succeeded in inflicting a blow upon officer Barclay. At this stage of the proceedings, when it was found utterly impossible to subdue him, Baker being a powerful man, officer Bender struck him over the head with his club, and he was then overpowered, tied and placed in a cart, in which he was conveyed to the guard house, struggling, kicking and making frantic efforts to release himself all the way, but without effect. While being taken from the cart he again showed fight and made desperate efforts to release himself and get at the officers who had him in charge, but he was finally landed safely in one of the cells in the guard room.

Fifty Dollars Reward.

We will give a reward of \$50 00 for evidence that will convict the villain who entered our press-room and tampered with our engine some time between Sunday and Monday mornings. The work of the scoundrel indicates that he understood his business, and it was of such a character that it might have resulted in a serious disaster if our engineer had not been a sober, careful man.

Tribe of Respect.

ENGINE HALL, HOWARD RELIEF FIRE ENG. CO. No. 1, WILMINGTON, N. C., August 13, 1877. Whereas, it has pleased Almighty God in the dispensation of His unfathomable wisdom, to remove our dear and dearly loved brother, our brother-in-law, CHARLES S. GREEN, Jr., a duty, due both to the memory of the deceased and to make manifest our sincere grief at his sad and untimely death; therefore, be it Resolved, That this Company, by the death of said brother, has lost one of its best members; one whose name stands engraved upon the annals of this Company as one of its staunchest members; one whose genial presence ever cheered and sustained us with a good feeling towards one another. Resolved, That to his aged mother we tender the assurance of our deep and heartfelt sympathy in her bereavement. Resolved, That a memorial page of our Record be dedicated to the memory of our deceased brother, that the Hall Room be draped in mourning, and that our members wear the usual badge of mourning for the period of one month. Resolved, That our high appreciation of his good services and noble social virtues, be published in the city papers, and a copy thereof sent to the family of the deceased.

Thermometer Record.

The following will show the state of the thermometer, at the stations mentioned, at 4.35 yesterday evening, Washington mean time, as ascertained from the daily bulletin issued from the Signal Office in this city: Augusta, 92 Montgomery, 92 Charleston, 89 New Orleans, 91 Corsicana, 88 Norfolk, 88 Galveston, 91 Panna Rassa, 86 Indianola, 89 Savannah, 91 Jacksonville, 87 St. Marks, 89 Key West, 88 Wilmington, 85 Mobile, 82

Police Matters.

There were no cases for trial before the Mayor's Court yesterday morning. A colored woman by the name of Annie Hunter, somewhat known in police circles, was arrested Saturday night for being drunk on the street, but was subsequently released for reasons satisfactory to the officials.

CITY ITEMS.

TO USE IS TO RECOMMEND. Gouard's Olympic Cream, unique in appearance and in action upon the skin, harmless, and of singular delicacy, conveys no idea of artificial appliance. For sale by J. C. Munda.

"My dear," said Mr. S. to his blooming belle, "I must congratulate you on your recent improvement in cake, bun, roll, every kind of pastry in short." "Oh!" said the wife, "I've solved the secret by using the greatest thing in the market for baking—Baker's Patent Flour. Hicewith my kitchen knows no other."

"FAIRBANKS" is a convenient synonym for a weighing machine or scales, as nearly perfect of its kind as it is possible to procure, whether it occupies a place on the drug-gist's counter, or is at a freight depot, and large enough to weigh a loaded train. The firm of Fairbanks & Co. has a long and wide reputation, and we are glad to learn that, since the Centennial, their reputation has increased in almost gratifying manner. Every well-appointed farm should have the means of weighing everything it is sold from it or bought for it, and this can be supplied by Fairbanks & Co. American Agriculturist.

MANY WHO ARE SUFFERING from the effects of the warm weather and are debilitated, are advised by physicians to take moderate amounts of whiskey, beer or champagne during the day. In a little while those who adopt this advice frequently increase the number of "drinks," and in time become confirmed inebriates. A beverage which will not create thirst for intoxicating liquors, and which is intended especially for the benefit of debilitated persons, whether at home or abroad, is Dr. Schenk's Sea-Weed Tonic. Containing the juices of many medicinal herbs, this preparation does not create an appetite for the intoxicating cup. The nourishing and life supporting properties of many valuable natural productions contained in it, and well known to medical men have a most strengthening influence upon the system, and the tonic effect of its valuable qualities. For debility arising from sickness, over exertion, or from any cause whatever, a wineglassful of Sea-Weed Tonic taken after meals will strengthen the stomach and create an appetite for wholesome food. To all who are suffering from indigestion, or those who are afflicted with the effects of Dr. Schenk's reasonable remedies, Sea-Weed Tonic, and Mandrake Pills, are particularly recommended.
