FROM WASHINGTON.

[Special to Baltimore Sun.] WASHINGTON, August 13.

The Secretary of War is considerably exercised over the report from the recent fight of Col. Gibbon with the Indians. It worries him to hear that in such a campaign the small force of Gen. Howard should have been sub-divided so that our troops could be fought in detail. He is of opinion, however, that Gov. Potts, of Montana, had been imposed upon in the early telegrams sent of the battle. The result is bad enough, he thinks, without exaggerating it, and for the sake of the army he sincerely wishes the trouble over.

THE MISSISSIPPI CAMPAIGN.

A statement has reached here from Mississippi that ex-Governor and ex-Senator A. G. Brown, of that State, contemplates running as an independent candidate for Governor of Mississippi, and that he will be supported by the Republicans. Mr. Brown was a member of the United States Senate at the time of the secession of Mississippi, and left his seat in company with Jefferson Davis. He was afterwards a member of the Confederate Senate. His friends here are inclined to doubt the statement.

MR, RANDALL ON SUBSIDIES.

Some considerable interest has been scited here by the receipt of a copy the Galveston News, containing an acount of an interview of its correspudent with Mr. Randall, in which te latter is represented as favoring gvernment aid to the Mississippi lwees and the Texas Pacific Railroad. 'he general opinion is that Mr. Randll has been misunderstood, for whatever his views may be on the two subjects, he has invariably shown the umost cantion in abstaining from expression of them.

The Revolt of the Miners.

Prospects of an Imposing Gathering

of Bankers in Gotham. NEW YORK, Aug. 14.

A large number of responses from banks in various parts of the United States have been received, in answer to a call for a convention of the bankers of the United States, to be held in this city, on September 16th. Prominent bankers of this city stated to-day that they regard the National they pulled him out of the well in time to Convention of bankers as of paramount importance just now, as the subjects to be brought under discussion are of vital interest to the public prosperity.

"Workingmen Organizing' in New

York. The President of the "Working-men's Assembly of the State of New York" has issued a circular appointing an Executive committee, whose duty it shall be to secure, through organization, the election of men to the Legislature who can be depended upon to secure the passage of laws for the better protection of labor. The President says independent action is best in sections where the workingmen's forces are strongest.

found to proceed from the store of Mr. Cornelius Jackson, corner of Third and Wooster streets. It appears that Mr. Jackson and his son, who were sleeping in a room adjoining the store, were aroused by the cracking of the flames, by which time the fire had attained such headway that they had to hasten their departure from the burning building in order to escape with their lives, only succeeding in saving a few articles of clothing and furniture which they were able to seize and carry out in their arms as they rushed out into the street in their night clothing.

Mr. Jackson has no doubt that the fire was the work of an incendiary, as unmistakable evidences of this fact were discovered by those who were first to arrive on the ground, the fire having been started under the portion of the building immediately beneath where the kerosene barrel stood. The floor at that point was thoroughly saturated with the inflammable material, which caused the flames to take hold more readily and spread with greater rapidity than they would have otherwise

The building was insured for \$250, and the stock for \$300, in the Home Insurance Company of New York, represented in this city by Mr. Norwood Giles. The loss over and above the insurance was about \$350 to \$400, which falls quite heavily upon Mr. J., who is a very worthy and, industrious gentleman, and was but just recovering from losses sustained by an incendiary fire at the same place some five or six months

The Fayetteville Mail.

The Post Office Department declines to grant the petitions for continuing the mail service from Lumberton to Favetteville six times per week. So, the new arrangement, which goes into effect to-day, reduces the service via Lumberton to twice a week and increases the service via Warsaw to six times per week.

The petition sent from this city praying continuance of the daily service from Lumberton to Fayetteville was expected to have some influence at Washington; but we are not surprised that it had none at all, when the Second Assistant Postmaster General writes that "the reduction of service on said [Lumberton] route, and the increase to six times a week between Fayetteville and Warsaw, was made on recommendation of citizens of Fayetteville."

We had been informed that a petition signed by the Postmaster and many leading chizens of Fayetteville, asking that there be no reduction of service on the Lumberton route, was forwarded to Wash ington last week. Hence, the announcement quoted above takes us entirely by The Wilmington petition did not oppose

the Warsaw route, but only asked that no change be made on the Lumberton line. We presume a change will be made in the Warsaw schedule. A colored man by the name of Moses Divine, who is charged with having broken into the house of one Isham Scott, colored on the night of the 4th of July last, and stole a box containing about \$5 or \$6 in greenbacks and a set of regalia of the order of Good Samaritans, was arrested yesterday afternoon and committed to jail. A warrant was issued for him at the time, but he disappeared very suddenly and has since cluded the vigilance of the officers. Yesterday afternoon, however, information was received that Divine had been seen in the city, upon which Officers Carr and Nash soon got upon his track, tracing him to Macumber's alley, between Chesnut and Mulberry and Eighth and Ninth streets. Officer Nash entered the alley at its western end, and the fugitive, in fleeing from him, ran "slap" into the arms of Officer Carr. who had taken his station on Ninth street near the eastern end of the alley.

The accused will have a hearing before Justice McQuigg to-day, at his office opposite the Court House.

A Probable Fatal Stabbing Case at Warsaw.

We learn that two colored men, named Kinion Best and Ebb Jones, of Warsaw, Duplin county, were on their way from the colored Baptist Church, about 11 o'clock on Tuesday nght, when a dispute arose be tween them, which finally culminated in a fight, in which the knives of the respective parties were used as weapons of offense and defence. The result was that Kinion Best was mortally wounded, receiving a the knife was driven into his head and the blade broken off after penetrating the brain to the depth of about one and a half inches. Jones also received a severe cut in the left arm. Drs. Hill and Hussey were called in to see the wounded men and pronounced Best to be in a dying condition. Jones, who was not dangerously hurt, was subsequently arrested and lodged in jail.

A Race for Championship. We learn that a race for the championship of small yachts will come off over the regular course at Wrightsville, on Saturday The Excursionists.

The train yesterday morning, on the C. C. Railway, brought down about one hundred and sixteen excursionists from Charlotte and other points along the road, the most of whom went down the river on the steamer J. S. Underhill, yesterday, to visit the various places of interest below, and we understand that they had a very pleasant time. A portion of the party returned home on the regular train yesterday evening, but quite a number remained in the city over night.

THE AMERICAN PEOPLE.—No people in the world suffer as much with Dyspepsia as Americans Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour-Stomach, Heart-burn, Water-brash, Sick Headache, Costiveness, Liver Complaint, yet since the introduction of GREEN'S AUGUST FLOWER We believe there is no case of Dyspepsia that cannot be immediately re-lieved. Two doses will relieve you. Regular size MANY WHO ARE SUFFERING from the effects

of the warm weather and are debilitated, are advised by physicians to take moderate amounts of whiskey two or three times during the day. In a little while those who adopt this advice frequently increase the number of "drinks," and in time become confirmed inebriates. A beverage which will not create thirst for intoxicating liquors, and which is intended especially for the benefit of debilitated persons, whether at home or abroad, is Dr. Schenck's Sea Weed Tonic. Centaining the juices of many medicinal herbs, this preparation does not create an appetite for the intoxicating cup. The nourishing and the life supporting properties of many valuable natural productions contained in it and well known to medical men have a most strengthening influence A single bottle of the Tonic will demonstrate its valuable qualities. For debility arising from sickness, over exertion, or from any cause whatever, a wineglassful of Sea Weed Tonic taken after meals will strengthen the stomach and create an appetite for wholesome food.
