MORNING EDITION BY TELEGRAPH

Our Night Reports.

WASHINGTON. The Cotton Crop-Report of the De-

partment of Agriculture-The President's New England Trip, &c. WASHINGTON, August 15.

The cotton report of the Department of Agriculture makes an unusual showing of the condition for the month of August, no material decline being apparent from the August ninety-three. No State average stands higher than in 1876, except those of Louisiana and Florida. The States of the greatest production, especially those west of the Mississippi, are those reporting the highest condition. Estimates are as follows: North Carolina 88; South Carolina 88; Georgia 85; Florida 93; Alabama 94; Mississippi 90; Louisiana 106; Texas 96; Arkansas 93; Tennessee 90. On the Atlanta coast there is frequent mention of inferior fruiting. In the Carolinas there has been too much succulence of growth, in consequence of abundant moisture. In Georgia and Alabama there has been some injury from drought, but the weather has lately been more seasonable. It has been too wet in much of Mississippi. Some cot-ton in the bottom lands in Tippoh county has been abandoned from this cause. In Louisiana the promise is extraordinary. In Concordia Parish the best crop since 1870 is expected. In Union the best 'since 1860. The prospect in Texas is marred by the appearance of the caterpillar. More than half of the counties reported are infested, not seriously yet, except in a few cases. In Lavacca the bulk of the crop is destroyed. In Gonzalez seventy-five per cent.; a complete wreck where preventives were not used. Poison is successfully applied by prudent planters. The caterpillar has appeared in the parishes of St. Londry, Richland and Claiborne, in Louisiana; in Perry, Wilcox and Conecut, in Alabama; in Columbia, Florida; and in

Brooks, Ga. Secretary Schurz takes the trouble to deny the truth of the statement that the reason why he did not accompany the President to New England was that he did not feel sufficient confidence in his subordinates to entrust his department to them during five passengers were injured, one, Peter

his absence. The seizure of the steamer Denmark, at New York, on the charge of smuggling by the officers and crew, has not been reported. Assistant Secretary McCormick was called for a report as agent of the steamer here,

and is prepared to give bond. Ex. Gov. Bard is here, en route for New York, to buy a new press for his Pensacola Herald. He endorses the President's policy, and says he don't want a postoffice either. Secretaries Devens and Key will remain with the President during his New England trip of two weeks. Assistant Postmaster General Tyner will run the Postoffice Department, and the Bureau of Justice will run itself in the meantime.

FOREIGN INTELLIGENCE.

Uneasy Feeling Respecting the Unsatisfactory State of the Manchester Trade-Another Russian Defeat-Bombardment of Rutschuk-A Conflagration-Hussian Troops Crossing the Danube-The Reported Mobilization of the Whole Russian Army Untrue-35,000 Men Ordered to Constantinople from the Province of Bagdad, &c

London, Aug. 15. The Standard and Daily Telegraph re-mark that the failure of Eccles, Shorrock Brothers & Co., manufacturers, of Overdarwen, reported yesterday, has increased the uneasy feeling entertained respecting the unsatisfactory state of Manchester trade. The Standard's financial article says: 'Considerable advances have been obtained upon cotton, large stocks of which are held as security at unremunerative prices, and if realization had to be effected other firms might be seriously compromised."

A special to the Daily News reports that at Topokoi, Monday, the Russians were defeated and lost five cannon, instead of the Turks, as previously reported. If this account is true it is probably some opera-tion in the direction of Osman Bazar. BUCHAREST, August 15.

The Russian batteries at Slobazia bomharded Rutschuk-last night, causing a conflagration which lasted until midnight. The Turks have been bombarding Giurgevo since 5 o'clock this morning. The Russian batteries are not replying.

SHUMLA, Aug. 15. The Russians yesterday completed the second bridge over the Danube at Pyrgos and troops are now passing over. It is stated that a Turkish reconnoitering party found Kustenje evacuated by the Russians.. The Turks reconnoitered in several directions from Kustenje without

meeting the enemy. ST. PETERSBURG, August 15. The Minister of War officially declares the reported mobilization of the whole

Russian arm y untrue. CONSTANTINOPLE, August 15. The Turkish army in the province of Bagdad, numbering 35,000 men, has been summoned to Constantinople, and will come by the valley of the Euphrates. It will be replaced in the Bagdad district by militia.

CANADA.

The Question of a Treaty with Sitting Bull-The Canadian System of Dealing with Indians, &c.

OTTOWA, Aug. 15. The Commission appointed by the United States government to proceed to Fort Walsh will be afforded every facility for making a treaty with Sitting Bull for his peaceable return to the reservations with his tribe. While in Washington lately Hon. Mr. Mills fully explained to President Hayes the Canadian system of dealing with Indians. The President expressed his in tention of adopting a similar line of policy, and give the management of outposts to experienced army officers, and do away altogether with agents. The Canadian soldiers of the northwest are fiercely jealous of the advent of the hostile lions, and it is feared may at any time makes are marked. tention of adopting a similar line of policy, feared may at any time make war upon | bales; Norfolk, quiet at 104 cts-net receipts them if their removal is not secured. It is 103 bales; Memphis, quiet and steady at spected that the new policy towards the Indians about to be adopted by President Hayes will bring about the withdrawal of the American Indians from Canadian terri-

MARYLAND.

Reduction in Custom House Employes at Baltimore.

BALTIMORE, August 15. A reduction in the Custom House was made to-day by the dismissal of nine clerks, four messengers, two assistant weighers, two gaugers, one special inspec-tor, thirteen day inspectors, eleven night watchmen, two examiners at the appraiser's office, two samplers at the appraiser's office, and three laborers. There were also twelve removals and others appointed in their places, including one clerk, one examiner, and one storekeeper, the others being principally workmen.

NEW YORK.

Patal Kerosene Oli Accident-Run on a Savinge Bank.

FLUSHING, L. I., August 15. Thomas G. and Frank W. Levally, aged ten and seven years, respectively, were burned to death near the Riverhead house. The father, F. G. Levally, was lighting a fire with kerosene when the can exploded.

NEW YORK, August 15. There is excitement in Brooklyn on account of a run on the Long Island Savings Bank. The directors held a meeting and resolved to take advantage of the sixty days' notcie for any amount exceeding 25 per cent. of depositors' accounts.

PENNSYLVANIA.

Terrible Disaster in an Oil. Well-Loss of Life, &c.

CINCINNATI, August 15. A special dispatch says the new oil well at Smith Ferry, Pennsylvania, commenced to flow in Monday, throwing oil over the States in July. The general average for men working about the derrick. Gas ig-July was ninety-three and four tenths; in nited from a blacksmith forge, and the men were completely in flames. W. L. Raye and Charles Ausman died in a few minutes; John Rogha and Wm. McReady cannot recover; and John Clinton and son were severely burned.

MISSOURI.

Insurance Companies Debarred from Further Prosecution of Business in the State.

ST. Louis, Aug. 15. The State Insurance Commission have debarred the following companies from further prosecution of business in this State: Franklin, of Wheeling, W. Va.; the Old Dominion, of Richmond, Va.; the Resi-dence, of Cleveland, Ohio; the Homestead, of Watertown, N. Y.; the Atlas, of Hartford, Conn.; and the Missouri Valley Life. of Leavenworth, Kansas.

WEATHER REPORT

The work eriginally published ander the title of The New American Cyclopædia was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place it every branch of science, literature, and art, have in duced the editors and publishers to submit to an exact and thorough revision, and to issue a new edition entitled The American Cyclopædia.

Within the last ten years the progress of discover, in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade.

Africa,

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curjous to know the particulars.—Great battles have been fought and important sleges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their permanent and authentic history.

In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh produccent discoveries in science, of every fresh produc-tion in literature, and of the newest inventions in tion in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of political events. The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater incidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the processes of mechanics and manufacturers. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

This work is sold to Subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithograph Maps.

The Robesonian.

DUBLISHED EVERY WEDNESDAY MORNING in Lumberton, N. C., by W. Wallace McDiarmid, has the largest circulation of any country paper in the State. It circulates extensively in the counties of Robeson, Richmond, Bladen, Columbus, Cumberland, Brunswick, and in the adjoining counties of Marion, Marlboro' and Darlington, in South Carolina. As a Local Newspaper it has no superior. It is one of the few country papers whose Editor and Publisher gives his whole time and attention to its columns. and Publisher gives his whole time and attention to its columns.

In Politics the ROBESONIAN will strive to premote the principles of the Democratic-Conservative party, and is uncompromisingly in favor of White Supremacy. Its Local columns will always teem with the latext and best news, written in a brief, intelligent and business-like manner. Its editorials will be short and lucid and upon subjects which directly concern our people. As an advertising medium it is much sought after and has a patronage second to ne other country paper. Established in 1870, it has ever since been increasing in influence and popularity until it has reached and occupied the very front rank of North Carolina journalism.

RATES—Cash in Advance—One year, \$2.00; Six Months \$1.00; Three Months, 50 cents. Send a three-cent stamp for specimen copy. Advertising rates furnr. Ihed on application. Address tee Pubshers.
