End of a Murder Trial. [Special telegram to the Whig.]

HARRISONBURG, VA., Sept. 1. The trial of Louisa Lawson, for conspiracy in the murder of her husband, David G. Lawson, in the mountains of East Rockingham, March, 1875, was concluded this afternoon, having occupied the attention of the County Court since Monday week, the jury rendering a verdict of "guilty" as accessory before the fact to murder in the first degree in the manner and form as charged in the bill of indictment. The sentence has not yet been pronounced nor period of execution fixed.

Dedication of the Monument to John Brown.

OSSAWATTOMIE, KAN., Aug. 30. Ten thousand people responded to the call to-day to witness the ceremonies attending the dedication of the old John Brown monument. Dr. N. P. Degnaff, chairman of the committee, called the meeting to order and introduced Gov. Charles Robinson as the President of the day. Senator Ingalls, the orator of the

day, while not approving the Southern policy of pacification, placed himself in friendly relations with the administration. Many of the speakers endorsed his sentiments, which seemed to be in accordance with those of the people and the leading men of the State.

COLUMBIA, Sept. 2. It has been arranged to nolle pros. the criminal cases now pending against Woodruff and Jones in consideration of their turning State's evidence in the prosecution of the cases against their confreres, which will be tried in October. Woodruff has placed his diary, kept in short hand for several years past, in the hands of the committee. It furnishes the missing and much desired link in the chain of testimony already taken, and is of incalculable importance in the prosecution of the cases now pending and to be brought up, involving Senators, Representatives and lobbyists. Names, dates and amounts are given rea exact enough to a future trouble with the faithful to a painful extent. Nearly all of the Republican members of the present Legislature are implicated. Besides this invaluable testimony, Woodruff and Jones have made restitution to the State of property for which they paid \$250,000 in consideration of their regeneration.

South to-night, is given below. For the week ending this evening (Aug. 31), the total receipts have reached 4,335 bales, against 2,644 bales last week, 1,733 bales the previous week,

and 2,102 bales three weeks since. The exports for the week ending this evening reach a total of 4,919 bales, of which 4,676 were to Great Britain, none to France, and 243 to rest of the Continent, while the stocks as made up this evening are now 115,-

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports of this week of 5,047 bales, while the stocks to-night are 10,021 bales less than they were at this time a year ago.

Prices of cotton on the spot have fluctuated more frequently than usual. during the past week, and, with the exception of moderate takings by American spinners, the movement has been trifling. There was a decline of 1-16c. on Saturday, but an advance of te. on Monday, which was n turn lost on Tuesday, and Wednesday. Liverpool, -though rather stronger, has been disappointing to holders, and the continuance of small receipts at the ports was supplemented by hot, forcing weather, which promised to bring forward the new crop rapidly, and compensate, in part at least, for its lateness. Yesterday there was a decline of 1-16c., which was recovered to-day, with a good business to home spinners on the basis of 11c. for middling uplands-the same as last Friday. and Occurrence. We learn from a correspondent at Long Creek, Pender county, that Mr. Johnny F. Montague, son of Mr. Patrick Montague, living about two miles from that place, accidentally shot himself on Saturday last while out hunting. Our correspondent says: "It appears that the unfortunate young man stopped for a moment and placed the breech of his gun upon the ground, at the same time resting his chin upon the muzzle. In attempting to rest his right foot upon the toe he threw it around over the left, when it came in contact with the gun and discharged it. The whole load took effect under his chin, killing him instantly. Attendant circum stances go to show that this is the most probable way in which the gun was discharged. No one was immediately with him when the accident occurred but a little pephew, about seven years old, who remembers nothing save that he saw, his uncle John resting his chin upon the gun as above described. "The deceased was about 22 years of

Under Water. Several lots on the square bounded by Chesnut and Mulberry and Eighth (or Mc-Rae) and Ninth streets, were completely submerged by the heavy rain of Saturday night last, rendering it impossible for the inmates of some of the houses to leave the'r premises without wading, the water in the yards, gardens and under the houses being from a foot to a foot and a half deep. Such a flood has not been known in that section of the city since June, 1867, when some of the parties attending a wedding supper at the Erambert house, on Ninth street, on the evening after the heavy rain had fallen during the afternoon, were compelled to use batteaux for that purpose. During a leak off the bar Sunday morning. After Sunday a great many persons visited the throwing overboard a considerable quanscene of the flood and congratulated the inmates of the various houses (from a distance) on the encouraging fact that they had not been swept finally away and lost forever in the waste of waters. We were glad to see that they were in fine spirits, and though, for the time being, cut off from communication in a great measure with the outside world, they were confident of ultimate and complete restoration to their friends.

Lightning's Frenks.

During the severe storm on Saturday night last lightning struck a dwelling house on Castle, between Eighth and Ninth streets, belonging to Mr. J. B. Allen and occupied by colored people. The fluid came in contact with the kitchen chimney attached to the south end of the building, running down the same and bursting out the front part of it, scattering the brick and morter all over the floor, but fortunately doing no damage to the inmates. They were terribly frightened, however, as well as shocked, and the head of the house said it was several minutes after the explosion before he could utter a word.

The Schr. Mary E. Simmons anchored in the stream apposite Messrs. Cassidey & Ross' marine railway, louded and ready for departure to Boston, was also struck by damaging the mainmast. It is thought, we understand, that the masts can be repaired.

From the "Crop and Statistical Report for July, 1877," for the State of Tennessee, we take the following in reference to peanuts: "This crop has been much neglected in the counties hitherto growing it for market. It is now doubted whether a three-fourths crop will be raised. Last vear's crop was about 175,000 bushels, but 150,000 bushels is considered a large estimate for this year. Stimulated by the high prices then prevailing, the crop of 1872 reached 680,000 bushels. This enormous crop reduced the price to such an extent that only 110,000 bushels were raised the following year. Since that period the production has varied from 160,000 to 250,000 bushels per year."

Committed for Trial. The cases of Burwell Rogers and Jeff. Hudgins, the two colored men who were arrested at the house of Curley Porter, on Market, between Thirteenth and Fourteenth streets, on Thursday evening last, charged with having stolen articles in their possession, or being found in the house where such articles were discovered, under very suspicious circumstances, had a preliminary examination before Justice Harriss yesterday, shortly before 1 o'clock. They were ordered to give bond in the sum of \$200 each for their appearance at the next term of the Criminal Court, in default of which they were committed to jail. .-

Fifty Choice Town Lots For Sale at Burgaw.

THE COUNTY SITE OF PENDER HAVING been permanently located at BURGAW, we, the undereigned, will offer for sale, at Public Auction, to the highest bidder, at this place, on SATURDAY, SEPTEMBER STH, 1877, on reasonable terms, FIFTY (50) DESIRABLE BUILDING LOTS, conveniently located near the Railroad and Court House site. These Lots are admirably located for Dwellings and Stores.

A Railroad from Burgaw through Jacksonville, or some other point in Onslow county, is under contemplation, and the prospect for the early crection of a thriving town at Burgaw, the centre of Pender county, and a convenient point on the W. & W.R.R., as well as a healthy locality, all conspire to make the inducement for business men to invest their capital at this point.
