Latest By Mail. Southern Hospitality-An Invitation

from the People of Augusts, Ga., to President Hayes. AUGUSTA, Sept. 3.

The City Council passed the following by a unanimous vote. The City Council is entirely Democratic: Whereas, since his inauguration as President of the United States, Rutherford B. Hayes has shown his intention of administering the great trust confided to his keeping in strict accordance with the Constitution and laws of his country; has endeavored to purify the civil service of the Govvernment; has restored local self-goernment to the South; has manifested a sincere desire to destroy sectional feeling, to heal the wounds of the war, and to give peace to a portion of the Union so greatly in need of its blessing; and whereas these things entitle him to the respect and approval of all good citizens irrespec-

tive of party. Resolved, That as a mark of the esteem in which we hold him, we, the City Council of Augusta, hereby extend an invitation to the President and such members of his Cabinet as may attend him to visit the city during his Southern tour, and pledge to him a cordial welcome on the part of all our citizens.

Good Bye, Carpet Baggers. [Special to Baltimore Sun.]

WASHINGTON, Sept. 2. The President has carried out his purpose in removing from office District Attorney Mayer and United States Marshal Turner, of Alabama, and in accepting the resignation of Marshal Lake, of the southern district of Mississippi. The latter declined to go out under pressure, went back to Mississippi, wound up his accounts and tendered his resignation. The others refused to resign. Mayer was strongly defended by Senator Morton, and Turner by Senator Cameron, of Wisconsin, whose name has led to the mistake that the Pennsylvania Camerons were sustaining Turner. The President said that it was better for all parties that the Southern States should have representative men, and that, in accordance with his previously declared purpose, the carpet-bagger must step down and out. Ex-Governor Parsons succeeds Mayer, and Samuel L. Reid will be marshal for the middle and southern Alabama districts. Mr. Hunt, the successor of Lake, is spoken of by Mississippians in Washington as a courteous gentleman, whose appointment will not fail to give satisfaction to all classes in his section of the State. The next removal will be that of United States Marshal Smyth, of

Georgia, who hails from Maine. The Army-Worm.

Мемриів, Sept. 3. The army-worm has appeared in large numbers in De Soto county, Miss., Fayette county, Tenn., and Lee county, Ark., and serious damage

to the cotton crop is feared.

Fine Practice at Creedmoor. The United Kingdom rifle team, which is to take part in the international contest, continued their practice at Creedmoor on Saturday, and did some splendid shooting, the team total of the best eight scores footing up 1,629 points out of a possible 1,-800. The individual average was 2035, a remarkable good showing, but which is just 18 of a point per man below what the American team recorded on Wednesday last. Still the British have far outstripped anything that has thus far been achieved on any ground by their riflemen shooting as a team. Messrs. Selph and Arms, of the Crescent City Rifle Club, also practiced, and each made 207 out of a possible 225.

Procession to the Grave.

SALT LAKE, Sept. 2. An immense concourse of people from all parts of the territory assembled here to-day to attend the funeral of Brigham Young. There were, probably, twelve or fifteen thousand persons in the tabernacle. The religious services commenced at 12 and continued until 2. Remarks were made by Woodruff, Hyde, Cannon and Taylor eulogistic of the deceased and the great work he had performed. The body was enclosed in a plain redwood coffin, and was borne to the grave by the employees of the late President.

The cortege was preceded by a band and followed by the family, the different orders of priesthood and adherents all on foot. The order of Brigham Young as to the disposition of his remains, written in 1873, was read, but nothing from him has been made known as yet as to the successor to the leadership of the church or disposition of his property.

Brigham Young's Estate.

[Chicago Times Special.] The estate of Brigham Young is estimated at from \$6,000,000 to \$7, 000,000, but it will be difficult to put any approximate value upon it, as it is very widely scattered. He owned large tracts of real estate in many of the settlements, and mills, buildings, live stock, and a great variety of improvements. He owned nearly all of the stock in the street railroads in this city, and large amounts of Utah Central and Utah Southern railroad bonds, was a large owner in the Deseret bank, the Deseret telegraph company, the controlling proprietor of the great Zion's Co-operative Mercantile Institution, etc.

Colored Man Drowned.

A young colored man, by the name of Thomas Dudley, steward on the steamer Colville, Capt. Henry, running between this city and Bannerman's Bridge, Pender county, was accidentally drowned off that boat on Monday night last. The accident was not observed by any one on the boat, and, in fact, the young man was not missed until the Colville had arrived at her wharf. He was last seen when the boat was about three miles from town, about half-past 9 o'clock, at which time the crew were engaged in putting in wood from a flat, two of which were in tow, while Dudley was employed in cleaning up his supper dishes. It is usual for him to lay down and take a Coharie Mission, Sept. destination, consequently his disappearance was not noted. Upon reaching the wharf, however, which could not have been more than thirty minutes after he was last seen, Capt. Henry called him to get a match for some purpose, when it was found that he had disappeared. It is supposed that he was tripped up in some manner by one of the ropes attached to the flats in tow and thrown overboard, when he was imme diately sucked under by the Colville or one of the flats. Deceased was about 22 years of age and leaves a wife and one child at Banherman's Bridge, where he lived. He has been in the employ of Capt. Henry for about four years, and is represented to have been attentive to his duties and strictly honest and trustworthy in every respect, so much so that Capt. H. would

not have parted with him for any consideration if he could have helped himself, Jepiter and Mars. While we are by no means an advocate of habitual star-gazing, not even when the extraordinary attractions of our own "morning glory" are in question, we would remind our readers that there is something very fascinating in the present appearance of two of the most beautiful planets in the solar system, Jupiter and Mars, both o which can now be seen, about 8 o'clock in the evening, the former in the South, in the region of the "milky way," where it shines forth bright and clear, and the latter in the East, a little to the South, near to the horizon, and is of a red and fiery hue. These, with their number of satellites, or moons revolving around them, now present an interesting study to those who have the least fondness for noting the appearance and movements of the heavenly bodies. Mars, the planet of war, is the most attractive as well as suggestive of the two just now. In the earlier part of the Crimean war, Mars shone in our midnight skies, though not so splendidly, as we are au thoritatively informed, as he has and will during the months of August and September of the present year. We see it stated that Mars has not blazed so fiercely in our skies since 1845, nor will he so shine The report of the pilots, of soundings again for forty-seven years, as during the last days of August and first days of September. The reputed influence of the fiery planet is very suggestive at this particular juncture in the affairs of mankind, when in the far East we hear of hotly contested fields reeking with slaughter, where the blood of nations mingles with the sands of the deserts and flows like water over the

But do not forget to take a look at the beautiful planets ere their lustre shall be dimmed, when it will be so many long years before Mars shall again glow with such celestral brilliancy.
