A Letter from the Late Admiral

We find in the Raleigh Observer the following letter from that gal lant sailor, Admiral Semmes, whose death occurred a few days ago. Lord Houghton, as he is known in English literature, (or more familiarly still as Richard Monekton Milnes,) is a poet and author of decided eleverness. His wife, "with the aid of a bevy of high-toned dames, made a large and beautiful Confederate flag, richly embroidered, of silk and satın, intending it as a present to Admiral Semmes. Circumstances prevented its transmission until the fall of 1873, when Mr. Appleton Oaksmith, of Carteret, sent it over in the "Troubadonr" to Beaufort. Here is the let-

Dear Sir: I have received the "flag" by express in good order and condition, for which I owe you many thanks. Should you meet Lady de Houghton next summer, as you anticipate, please present my regards to her, and say that the valuable present she has made me shall descend as a cherished heir loom in my family. Tell Lady de II. that my wife and daughters, and neighbors generally admire the fine workmanship and the rich materials of the historical banner now folded away for the sleep of

The North Carolina Indians at Home Superintendent Mills, of the Orphan Asylum, gives the following account of a recent visit to the Chero-

Sitting in Mr. Enloe's house, at Quallatown, reading of Dr. Livingstone's travels in Africa, a loud "Sehougkh" is heard, and there stands Will West. He has come with Onolib (Black Fox) to interpret a letter from Washington. After reading and hearing the letter in English and Cherokee, Will West is ready to "Soco." Now Soco from 2,000 to 4,000 feet above the sea. Its water is clear as crystal, and its valley is rich as the soil of our beautiful Mattamuskeet. This is the wild mountain home of the Cherokees. They also follow the creek down to Oconetultih river. On this stream is the magnificent farm of Sawnuke (Flying Squirrel), the Chief. George Bushyhead lives here also, in his little cabin. He has passed for a preacher, and swindled white men out of money. But a white man opened a store with his capital, and very soon the white man had all the capital and left Bushyhead with a sad experience only. The Indians have no schools now. Mr. McCarthy started four; one on Soko, at the Methodist church, one at Birdtown. in the Baptist church, one in the Cove, and one in Macon, with Jim

eckerwood's division. But for some causes the schools did not prosper, and Mr. McCarthy was discharged. He now goes to Weaverville, and the Indians are left in ignorance. One man, Jim Crow, went fifteen miles to see if his boys could go to Oxford. He did not know that the school was open to orphans only. The Indians live mainly on corn, beans, and potatoes. They put calico buttons on their shirts, and flowers and feathers in their hats. In the purchase of crockery they prefer the gaudy. They sing well in church, and listen to preaching with great patience. Their leading preachers are Black Fox and David Owl. Both seem to be sober and sensible. They admire the owl for his silence and circumspection, and many take that name. A white man was preaching at Birdtown with David Owl as interpreter. He used the word "conglomerated," and Mr. Owl declared there was no

Never before has there been such active emulation in gifts from merchants, manufacturers, stock owners and others. Everything tends to the expectation of the most magnificent exhibition yet made. — We learn from several gentlemen from the Flat River country that diphtheria in an aggravated form has been prevalent in that section and on Knap of Reeds, in Granville, for some time past. On Friday, the 24th, five children between the ages of three and eleven years were baried. Consternation sat upon every household. Several peculiarly distressing instances were mentioned to us. The malignity of the disease, it is thought has abated. We also learn that this fearful disease prevails in Person county to a great extent, and creates almost a panic. One family is related to have lost in rapid succession five children out of eight. It

also exists in Alamance to some extent.

— Mr. W. F. Gates informs us that on Saturday, the 25th inst., a negro living in Person county, on the road from Hurdle's Mill to Bushy Fork, killed another instantaneously by knocking him in the head with a piece of plank. The murderer was arrested, examined before Squire Long, and committed to Roxboro jail. — Hog cholera prevails extensively and fatally through a large portion of the county, and no remedy yet applied seems to avail. It is greatly to be deplored that it is especially fatal among improved stock, and threatens to defeat the energetic efforts of so many of our farmers to improve breeds. Mt James Norwood, last week, lost his famous stock Berkshire boar. Mr. Dimock, at the mill, has lost fifteen head, among them a remarkably fine and valuable sow. Mr. Adolphus Gordon has lost several fine hogs. One farmer in the neighborhood lost 36 out of 42 head.

About this time the two found themselves in the clutches of the police and were taken to the guard house.

A Prisoner from Pender. Constable A. V. Horrell, of Union Town ship, Pender county, arrived here yesterday with a colored prisoner by the name of George West in his charge, who was committed to the county jail to await his trial at the next term of the Superior Court of Pender for larceny. It appears that complaint was made to officer Horrell by Mr. J. R. Everett, section master on the Wilmington & Weldon Railroad, that his shantie had been broken open and several articles, including clothing, rations, &c., stolen, while the hands were off at work. The Constable undertook the task of ferreting out the thief, and shortly afterwards discovered George West with some of the stolen garments on his person. He was thereupon arrested and carried before Justice J. D.
