Mr. Ellington brought with him to the city about a gallon of quartz, and gentleman experienced in mining matters examined it and pronounced half of it pure gold. We hope, for the benefit of the people of the "flooded district," that the authorities may be prevailed upon to take the matter into consideration. THE STORM IN THE COUNTRY. We learn from a gentleman who started to Masonboro Sound yesterday afternoon, but who turned back in confequence of the difficulty he encountered in making his way, that the turnnike was overflowed in many places. The bridge at the first Masonboro turnout was found floating in the road, while the pond just this side of the second Masonboro bridge was barely passable, the water being above the hubs of the wheels. The bridge over the Toomer Mill branch, on the Masonboro turppike, was washed away. Several fords on the other road were rendered impassable. Several parties made the attempt to reach the Sounds during the afternoon, but how many succeeded we are unable at this writing to say. The roads were flooded to such an extent that it was a dangerous experiment. We learn that the bridge over Burnt Mill Creek, nearly abreast of the National Ceme tery, was swept away, and no doubt many of the bridges on the other roads shared the same fate. A gentlemen who arrived here yesterday ovening, as wet as a "drowned rat," informs us that in the Hood's Creek section, in Brunswick county, through which he passed, the whole country is flooded, no such rains as that of yesterday and the day before having fallen there for many years.

They hold that the silver dollar should be returned to its former place as money, and made a legal tender for the payment of debts except where otherwise distinctly provided by law, with the coinage so regulated as to maintain equality of value, and the harmonious circulation of gold, silver, and legal notes as money. While they earnestly condemn all violence, outlaw, and mobrule, yet this Republican party expresses its heartfelt sympathy with the condition of the workingmen who are willing to work but are unable to find employment.

Morton-His Purposes and Condition [Special Dispatch to Baltimore Sun.]

WASHINGTON, Sept. 10. A friend of Senator Morton, who arrived here from Indiana to-day, says the Senator is determined that, if he is alive and it is possible for him to bear the journey to Washington, will be in his seat when Congress meets in October. Despite this, it is not believed here that Governor Morton can be present at the extra session. In fact one of his most intimate friends here says he does not believe he will ever be in Washington again. His absence, and the fact of anticipated carpet-bag defections, leads some to the belief that the Democrats have a good show of obtaining control of the Senate at once.

## A Vile Slander.

[Special Dispatch to News and Courier.] NEWBERRY, Sept. 11.

The statement published in the New York Times that Col. Keitt, of Newberry, has been arrested for bigamy, is utterly false and without any foundation in fact. Col. Keitt is a gentleman above reproach. Thomas Keitt, a colored member of the Legislature, is the party indicted for bigamy, and his trial is now pending in the Court of Sessions in Newberry.

Medical Aid Sought.

SAVANNAH, Sept. 11. The Mayor of Fernandina has telgraphed the Mayor of this city for medical aid and nurses, and Dr. Mc-Farland leaves here to-morrow for that city. A dispatch from the Mayor of Branswick to the Morning News emphatically denies the report of yellow fever, and says there is no sickness of any kind in that place.

We learn from the Raleigh Observer that Camp Russell has been secured for the use and occupancy of the visiting military during Fair week. Our contemporary adds: "Camp Russell is the garrison recently occupied by the Federal troops, and the barracks are in superb order, neat and clean, beautiful parade grounds, elegant kitchens, dining halls, a convenient distance from the heart of the city, in fact just the place best suited for the citizen soldiery that will be present at the Fair. There are good wells of water, cisterns, sinks, shaded groves, flower gardens, in short every attraction and convenience that the Government of the United States could possibly bestow upon it for the past twelve years. We learn that twenty-four volunteer companics are expected at the Fair, and at Camp Russell there is ample room for all, as the buildings and grounds occupy several acres."

agree that they are not. Is there a business man in the community who would purchase the Poll Taxes and Personal Property Tax past due at anything like their estimated value ? The Back Taxes on Real Estate is a better asset, but is no worth its face.

will

Some Real Estate is listed by "squatters, who fancy that the mere listing of the property gives color of title. The tax is paid by the owner, and the unpaid tax of 'squatter" is counted an asset under the head of Back Taxes.

The assessment for Street Improvement is not absolutely sure. It is probable that the bulk of it will have to be collected by re than fifty per cent. of the Back Tax and Street Improvement accounts will be collected this year. Then the deficiency would amount to the sum of \$72,700 93, and that after allowing the impossible feat of collecting every dollar of this year's tax, both Real Estate and License.

Another fact to be kept in view is that the amount of Coupons due and outstanding prior to July 1st, 1877, is only "an estimate," no Coupon account ever having been kept.

'After a thorough digestion of the foregoing it will not appear strange that there has been no reduction of taxes this year. By reference to the Tax Ordinauce, recently passed by the Board of Aldermen, it will be seen that the whole amount to be collected from Real Estate, Personal Property and Incomes is appropriated to the payment of interest and past due Bonds. This renders it necessary to run the city government on the License Taxes, Market Rents, &c. Thus far these sources have not paid the current expenses by about one thousand dollars per month.

There is much stress laid upon the availability of the back taxes on Real Estate to make good the deficiency, but it comes in but slowly, only \$575 80 having been collected during the past two months; besides the Floating Debt of \$15,000 will also have to be provided for from this fund.

In the face of these facts, would it be prudent or honest to reduce the License Taxes? By the proposed reduction of the Retail Liquor License, the city would lose \$1,860 per annum. The Board of Aldermen are of opinion that by the reduction the city would receive a larger revenue from this source than heretofore-more dealers paying for the privilege. This might be so, but it is experimental. Upon the same principal every trade, business and occupation might, and doubtless would, demand a reduction of the License Tax. There has been no increase of the Retail Liquor License. It is the same formerly paid.

There has been no decrease in License Iax in any other branch of business. Very respectfully, Norwood Gilles,

Chairman Board Audit and Finance.
