Accident on the Turnpike Road. An accident occurred to the team of M Patrick Larkins, yesteaday morning, as i was being driven to the Sound, by which Mr. L. lost a valuable horse. The point where the accident occurred is about three and a half miles from the city, on the turn pike, at a place known as Sour Grass Pond the road at that particular spot being overflowed in consequence of the late heavy rains, while on each side of the road is deep ditch. The horses got off the road into one of the ditches and before they could be cut loose from the harness one of them was drowned. Two little boys, sons of Mr. Larkins, who were on the wagon also made a narrow escape.

Since the accident we learn that th Superintendent has closed and barricaded the road at that point and constructed new road round the bond, so that ther will be no danger in future of the occurrence of a similar accident.

Inferior Courts.

We made mention in our last of the fac that the magistrates of this county would meet soon to take into consideration the establishment of an Inferior Court for New Hanover county. We did so, however, with not the slightest expectation that the meeting, when held, would result in anything more than the mere disposition of the matter, as being altogether out of the question in this county. With our present Criminal Court in existence, the idea of the establishment of an Inferior Court in New Hanover would be an absurdity too monstrous to admit of a moment's thought. The law providing for the organization of these courts in the various counties gives them jurisdiction in most of the criminal cases on the statute books, including larceny, assaults and battery, &c., such as came under the exclusive jurisdiction of the Superior Court, only reserving to the latter tribunal the disposition, of capital offences. The Criminal Court was established with the express intention of meeting all such cases as above referred to, with the right of appeal to the Superior Court, and this being the fact, the organization of an Inferior Court in this county would not be less absurd or ridiculous than the act of constructing a fifth wheel to a wagon when four
