Roscoe Conkling has stirred up a perfect hornet's nest in New York. The policy of President Hayes will be sustained by the best men in the Republican party. Thousands of citizens of the great State of New York, who have heretofore been quiet or indifferent, will now take an active part in sustaining the Administration in its broad, pacific, constitutional course. The Union League of New York has appointed a very strong committee, composed of sixty prominent citizens, to organize a protest against the vindictive, unwise, and arrogant assumptions and deliverances of the Rochester Convention, managed and dictated to by Roscoe Conkling. A very emphatic indorsement of President Hayes is to be given. The names of many of the committee appointed embraced the leading men of the city and State. Among them are Judge Noah Davis, William Collen Bryant, ex-U. S. Senator Morgan, W. E. Dodge, ex Minister Jay, Vanderbilt, Samuel B. Ruggles, Appleton, the publisher, ex-Congressman Stebbins, and so on. The telegraph tells us that the grand mass meeting has been called for on the 10th inst. We refer our readers to the telegraphic columns for a spicific statement of the meaning and intent of that meeting. It will be a stirring time, and good will follow. The Rochester meeting after all may be an instrument in strengthening the bands of the Union.

The Plan for the Increase of the Army-Senator Morton's Prospects -The Speakership. [Special dispatch to the Baltimore Sun.]

INCREASE OF THE ARMY.

WASHINGTON, Sept. 30. The plan for the increase of the army, to be presented by the Secretar vof War, will not propose an increase of the number of regiments, but for filling up existing commands

to the aggregate of forty thousand at the discretion or the President. SENATOR MORTON'S PROSPECTS. It is understood that Senator Morton fixes the first of December as the time when he will be in Washington, and his colleague, Senator McDonald, has offered to pair off with him 28 soon as he comes within the territory of the District of Columbia. Senator Morton is very hopeful of his own condition, but several of his friends who have lately seen him admit with

regret that they consider his situation extremely critical. THE SPEAKERSHIP. The friends of Mr. S. S. Cox expeet him here in a day or two, when they say he will at once commence a personal canvass on the spot for the Speakership. Mr. Randall is also expected here in a day or two. It was reported here to-day that Senator Wallace, of Pennsylvania, is actively working against Mr. Randall, and that the Pennsylvania delegation had split on him. There is no doubt that Senator Wallace will do what he can against Mr. Randall, but it is ascertained to-night that, with one exception, the Pennsylvania delegation

will be unanimous for Mr. Randall.

[Special Dispatch to the Baltimore Sun.] COLUMBIA, S. C., Sept. 30. Although the law officers of the State are very quiet the impression prevails here that requisitions have been issued for Senator Patterson, ex-Treasurer Cardozo, ex-Financial Agent Kimpton and others upon the indictments recently found against them by the grand jury. Kimpton is said to have disappeared from New York. Cardozo is in Washington, but neither he nor Patterson will return to South Carolina for trial unless by compulsion. Patterson has employed Mr. Cook, of Washington, as his counsel, and

will take the ground that as United States Senator he has the same privilege as a Minister of the United States, and that having been elected and commissioned as Senator subsequent to the time his offenses are aleged to have been committed he cannot be brought to Columbia for trial until his term of office expires. If this plea should fail he will fall back upon the expedient of disputing the validity of Hampton's title to the Governorship, which he hopes will delay matters and perhaps transfer his case from the State to the Federal courts.

Rellef of Fernandina.

[Baltimore Sun, Oct. 1.] The terrible scourge of yellow fever, which has been for some time afflicting the population of Fernandina, Fla., has begotten great destitution and suffering. An opportunity is now offered to afford them relief, which ought to be readily embraced. The steamers of the Merchants and Miners Transportation Company of Savannah, Ga., and the Atlantic & Gulf Railroad of Georgia, will receive contributions in the way of supplies for the sick and needy of Fernandina and forward the same free of cost. Packages should be plainly marked S. T. Riddell, Mayor, Fernandina, Fla.

The Fever in Fernandina.

JACKSONVILLE, Oct. 1. A dispatch from Fernandina savs that fifteen new cases of vellow fever are reported to-day-eleven white and four colored. One death from. fever has occurred since last report. Adventures of a Party on Their Way to the City.

Two young men, on their way from Columbus county to this city on Friday last, in a buggy, met with quite a series of adventures and mishaps. Arriving in the vicinity of Rattlesnake creek, on the county road, and having no adequate conception of the depth of the water, the first thing they knew they were floundering about in the swamp, the road, bridge and everything at that point being completely under water. Their struggles to extricate their vehicle and themselves from the trouble only served to increase their perplexities, and they finally had to get out of their buggy into the water, relieve the horses from the incumbrance, and manage the best way they could to get across, during which the horse came near drowning, and one of the young gentlemen made a nar-

row escape. At Hood's creek, about a half a mile distant, they encountered the same obstacles to their progress. which necessitated their swimming their horse across the creek at the county road and dragging their buggy across the Hood's Creek trestle, on the railroad. After they got into the first scrape they procured a mule and substituted him for the horse, but found that he did not help the matter much. They arrived at Wilmington late Friday afternoon, as wet as if they had been plunged into the middle of the ocean.

Parade and Review of the Colored Military. The battalion composed of the two colored military companies of this city, the Hanover Light Infantry and the Cape Fear Light Infantry, will, under instructions from the Adjutant General, parade this afternoon, at 34 o'clock, for inspection and review. The battalion will be under the command of S. W. Nash, of the Cape Fear Light Infantry, who is senior captain. Adjutant General Jones will be present and review them.

We are asked to prefer a request to those in whose employ many of the members of the companies are engaged to allow them the time necessary to participate in the pa-

Our Piremen. We learn that there is some talk among the firemen of baving an annual parade some time during the present month. The parade was dispensed with last year, in consequence of an agreement among the firemen to send the money which would have been expended in this manner to the sufferers from yellow fever at Bavannah and Brunswick, Ga. We hope they may conclude to have the parade this year, as there is nothing like a little demonstration occasionally to keep up the spirit and interest of the department. We have every reason to be proud of our fire department, and it should be kept squarely up to the standard of excellence which it has heretofore maintained.

Military Inspection and Review.

The proposed military parade for inspection and review, in accordance with orders | man named Jones, who fell overheard from from the Adjutant General, took place yesterday afternoon. The Cape Fear Light Artillery, under

command of Capt. Henry G. Flanner, assembled at their armory on Princess, between Front and Second streets, at 2 o'clock, from whence they marched to Third, between Market and Princess streets, where the splendid battery of the company had been located. Adjutant General Jones, accompanied by Lieut. Col. Taylor, rode up soon afterwards, and the inspection and

review took place, The Wilmington Light Infantry, Capt. Walter Coney, and the Whiting Rifles, Capt. John W. Gordon, being Companies "C" and "D" of the Second Battalier North Carolina State Guard, assembled at their armory on Front street and were formed into a battalion by Adjutant N. H. Sprugt, whence, under command of Lt. Colonel M. P. Taylor, they marched up Market to Fifth street, between Market and Dock, and were reviewed and inspected by Adjutant General Jones.

The manouvres of the Artillery Compa ny and the battalion of infantry were witnessed by a large crowd of people.

We were very sorry to see so few either of the three companies present in ranks on this occasion of all others, but presume the slim attendance was attributable in a great measure to the fact that many of the members were unable to obtain leave of absence from business, owing to the fact that this is a busy season of the year with our merchants, who are just getting ready for the fall trade.

The Adjutant General and Lt. Colone Taylor were mounted, as were also Capt. Flanner, of the Artillery, and the commis sioned officers of his company.

perjury. Case on trial. The Grand Jury have thus far found nine true bills.

Ratte of Timber Adrift.

Two or three rafts of timber got adrift yesterday, and one or two of them were carried down the river and have probably gone to pieces. These had no men or them. One, upon which there were several bands, drifted down to a point about opposite Mesers. Northrop & Cumming's mill, when they finally succeeded in getting control of its movements and bringing it back to the wharf near the foot of Princess street. On Saturday night last, while the wind was blowing quite severely from the northeast, a raft containing several men became unmanageable and drifted with wind and current to a point opposite the Messrs. Kidders' mill, where it was aban doned to its fate, the men succeeding in getting safely ashore.

The trouble among the timber men had the effect of checking business in this article yesterday.
