Gold is down to 1021, lower than it has been since 1862. This is very near a specie basis.

It seems very difficult to keep posted as to Senator Morton's condition. The latest we have seen is a telegram to the Herald, dated October 6, in which he is said to be worse. According to official reports, says the telegram, he is unable to retain food on his stomach, and his condition is giving his friends much uneasiness.

It is now given out that President Hayes will appoint a Southern man not over sixty years of age to the vacaucy on the Supreme Court Bench. North Carolina can furnish him with a learned, able, high-toned man under that age. But North Carolina will scarcely be heard, as she is modest and will not press the claims of one of her capable and favorite sons.

Gen. Miles is a more successful hunter and fighter than the immortal Howard, of Freedman's Bureau memory. He surprised Chief Joseph and had a severe fight, the Indians showing desperate courage. Our loss sums up 22 killed and 42 wounded. The Indians had four chiefs killed, including Looking Glass and Joseph's brother. So a bullet smashed Joseph's Looking Glass after all the care taken to avoid such a calamity. (Patented.) The Indians are hemmed in and are waiting for the Sioux to come to their aid. We hope Gen. Miles will Sioux them up. (Patented). Chief Joseph had given an Indian's 'pledge that he would surrender. Gen. Miles does not think it prudent to attack them, but hopes to starve them into surrender. If they are as brave and desperate as reported we may expect them to make an attempt to break through the toils set for them.

Great Indignation in New Orleans-Sheridan Expiains-The Rioters Number Four Hundred.

NEW ORLEANS, Oct. 7. The news received here from Texas, announcing the capture of the towns of San Elizario and Isletto by a band of Mexicans, creates the greatest excitement, and the utmost bitterness prevails. Offers will be made at once of volunteers to protect the frontier, and, if necessary, invade Mexico. The officers, of the First Louisiana Infantry, of which an ex-Confederate officer is in command, express themselves as ready to go on the shortest notice. The affair is denounced here as owing to the feeble policy of the General Government. The New Orleans merchants are interested to a considerable degree in peace on the frontier.

CHICAGO, Oct. 7. Lieut. Gen. Sheridan said last night that he had the very latest information from Texas, and the reported raid of Mexicans, and he was in a position to deny everything which pointed to any armed conflict or an invasion. This report, he said, was wholly incorrect and had no shadow of truth except in one particular. He said there had been at the town Santo Elizario some trouble for some time past between the citizens regarding some salt springs on Salt Lake. He was not certain which. These troubles had finally broken citizens only participating, the town being populated almost wholly by this church. Civil officers had been sent from El Passo, twenty-five miles distant, for the purpose of making some arrests, which had been done, This was the whole extent of the socalled invasion. General Sheridan at once ordered Lieutenant Rucker with twenty-five or thirty soldiers to proceed at once to Santo Elizario from El Passo and investigate the trouble, and that officer has departed for the

FORT JARVIS, TEXAS, Oct. 4. To the Adjutant General Depart-ment of Texas:

I am requested by Judge Blacker to send the following: The Mexican population of El Passo have risen en masse, seized all the civil authorities -Judge Howard and McBride, and hold all of them prisoners and in jail. The rioters number about four hundred under arms; have scouts out and sentinels posted. They seemed to be well organized. All the Americans in the country, numbering about thirty, are in peril of their lives. No Americans are allowed to communicate with the prisoners. The rioters are expecting aid from volunteers from the Mexican side of the Rio Grande. The trouble is from Zimpleman having located the Salt Lakes, and, through Howard, prohibited the getting of salt without

permission. LATER.-The sheriff has escaped. Col. Hatch expected in El Passo. The call is for at least two companies with artillery. I have at this post, all told, 123 fighting men, and think Louis Cardy is behind all. [Signed] G. L. ANDREWS,

The alarm of fire at about 3 o'clock on Sunday morning was caused by the burning of a dwelling house on Fifth, between Hanover and Brunswick streets, the property of ex-Mayor Canaday and occupied by Mr. William Richardson. The engines were promptly on hand, but the flames had obtained such headway as to leave no chance for saving the burning building, though they prevented the fire from spreading to the adjacent houses, one of which, the residence of Mrs. Bunting, was at one time on fire, but the flames were quickly extinguished. Mr. Richardson saved only a portion of his furniture. The loss on the building, we understand, was fully covered by insurance. The fire was no doubt the work of an incendiary, as the charred remains of a pile of split lightwood was found under the north side of the building. while a strong smell of spirits of turpentine
