OUTLINES.

The French Republicans held an im mense meeting in Paris; Gambetta was received with great demonstrations; he assured them that they would return to Versailles certainly with 363 members to be reinforced to 400. -The Porte demands an explanation concerning the arming of Servia and negotiating with Russia and Roumania; Servia has resolved upon warlike measures but not before November 15th. - Wm. R. Wagstaff has been nominated by the Democrats for Chief Justice of Kansas, and Thomas W. Waterson for Governor. Chief Joseph and the Nez Perces have surrendered to Gen. Miles. -- Democratic victory in Ohio confirmed; Legislature largely Democratic; a U. S. Senator secured. -- Iowa gone Republican by a large majority. - The London Times thinks gold will be higher in England. - Franklin Savings Bank, Alle-

ghany, Penn., has failed. - Vice President is wending his way to Washington. - The Episcopal Convention passed a resolution that the bishops take into consideration the prevailing instrumentalities for raising money. --- Pennsylvania Coal Company have made a reduction of fortyfive cents per ton. - Western Union Telegraphic Company cleared \$3,140,127.61 during the year. - New, York markets: Money offered at 6 per cent.; gold steady at 1024; cotton steady at 111@114 cents; flour still in buyers' favor at \$5 35@5 65 for superfine western and State; wheat 1@2c lower at \$1 45@1 50; corn 1c lower at 59@ 594 cents; spirits turpentine firm at 34@344 cents; rosin steady at \$1 50@1 80.

Baltimore has thus far raised \$243 for the yellow fever sufferers at Fernandina. Every little helps.

The financial outlook in England is favorable to a rise in the price of gold. The Times thinks it inevitable.

Gambetta cheers the Republican heart of France with the assurance that they will triumph in the elections, and go to Versailles with 363 members to be reinforced to 400. So may it be.

Vice President Wheeler, after being so long a time lost, has been heard from. The deep suspense will now end and the "national" heart will beat a less fearful music. He is wending his way to Washington.

The Triumph of the Democracy in Ohio is very complete. They have elected their candidate for Governor by probably 20,000 majority. This secures a United States Senator. So Stanley Matthews may prepare for retirement. Iowa has gone Republican by some 30,000, as was expected.

The Episcopal Convention, in ser sion in Boston, has instructed the Bishops to inquire into the prevailing custom of raising money for Church purposes by fairs, ice cream suppers, &c. There is a tendency in all the religious bodies to look more narrowly into matters concerning Christian

According to the Clerk's roll of the next House of Representatives the Democrats have 152, and the Republicans 139 members. Two members are omitted, one Democrat from Mis souri and one Republican from Colorado. The three seats claimed by Republicans from Louisiana and Florida have been given to the Democrats. It is possible that the count may be altered somewhat by the final action of the House. It is believed that the Democrats will have at least 13 majority. Enough to prevent mischief and do good.

Servia after long delay and endless negotiations has resolved upon war on the side of Russia. But she is in no hurry to engage, and the middle of November is fixed for the beginning of hostile movements. This determination will strengthen Russia considerably. Surely, that immense power, aided by Roumania and Ser via, should be able to bring the "Sick Man" to terms. By the way, Turkey is the most vigorous and active country ever known to be called "sick." It is about time to consider her con-

Appeintments Soon to be Made, †Special Dispatch to the Gazette.]

WASHINGTON, Oct. 8. In view of the fact that the Sureme Court meets on Monday next. t is expected that the President will send in the name of some one for the vacant seat on that day to the Senate. He is represented as having said that he would not appoint any man over sixty years of age, and that he would select from the Southern Republicans. The names of Judge Hunt, of Louisiana, and Hon. John M. Harlan, of Kentucky, are thought the most prominent for the place. Rumors have again been revived that Hunt will go to the bench, Harlan into the Cabinet, in Judge Key's place, and the Postmaster General will be appointed to the vacant circuit judgeship of Tennessee, Kening it has not yet been commissioned. tucky and Ohio. The President will send in various names to the Senate. soon after its organization, for both foreign and domestic appointments. These include successors to Hon. Bancroft Davis, Minister to Germany. and General Badeau, consul at Lon- the six. The bereaved parents have the don, and the custom house appoint- sympathy of the entire community. ments of New York. The Minister not yet announced.

Gossip of the Extra Session. The special Washington correspondent of the Alexandria Gazette. telegraphs as follows to that paper: As the session (extra) of Congress approaches the city presents a much more animated appearance and the hotels are rapidly filling up. At this writing about fifty members are in Shenandoah fame, and commander of the the city, and there are fresh arrivals by each train, so that by Monday nearly, if not all, will be ready to answer to the roll call.

The organization of the House is the all absorbing topic. So far Mr. Randall's chances, for Speaker, are decidedly bright. There will be a hard fight for Clerk between Mr. Adams, the present incumbent, and Mr. Caldwell, ex-member from Alabama. Mr. Thompson, of Ohio, for Sergeant-at-Arms, is opposed by Mr. Payne, of Georgia. For Doorkeeper there are a number of aspirants, and the contest for the place will probably be the severest of all. Steuart, of Virginia, Postmaster, has two or three opponents, but his re-election seems to be conceded by all.

The South will generally support Mr. Randall. North Carolina and Maryland each have two candidates for Doorkeeper, Missouri one and Texas one.

WASHINGTON, Oct. 8. Brigadier General Crook, in a telegram received by the Commissioner of Indian Affairs this afternoon, reports the safe arrival at Omaha of the Sioux Indian chiefs on their way home, and adds: "They are particularly anxious about copies of their Washington speeches. Please have them sent to the Red Cloud Agency with all possible dispatch." The department will probably comply with this request, the speeches having been stenographically reported, in accordance with the unanimous request of the Indians when in Washington, who expressed an earnest desire to have all their words put down "all the same as white man.'

COLUMBIA, S. C., Oct. 8. Congressman Smalls to-day had a oreliminary examination of the harges against him. Woodruff testified that he paid Smalls \$5,000 as a bribe to vote for a measure before the Legislature in 1873. Smalls was held to bail to answer the indictment in the Circuit Court, which meets on the fourth Monday in October. Maxwell, Senator from Marlboro' county, in default of bail, was imprisoned on a similar charge.

An English Crisis.

| Augusta Chronicle.] In 1863 the balance of trade against England was about \$300,000,000 annually. It is now \$940,000,000. This great gap is filled, with more and more difficulty, by interest upon capital loaned to foreign countries. When the limit shall have been reached beyond which the bullion current must be permanently outward, a crisis will come unequalled in the world's history. That limit is not far off apparently, and how British statesmen propose to meet the emergency remains to be seen.

The Carolina Farmer for October is on our table. This number, which s the second of the present series, is equal in every respect to its predeces-sor. It is one of the best journals for farmers published in the country, and is especially adapted to the wants of the farmers of this section. The price is only \$1.50 a year. It is published by W. H. Bernard, Wilmington, N. C .- Monroe Express.

An Exciting Encounter with a Bear and a Narrow Escape.

Parties who arrived here on the steamer D. Murchison, yesterday morning, bring news of quite an exciting adventure with a bear, which took place in the vicinity of Alligator Swamp, about thirty-six miles below Fayetteville, on Saturday last. Alt seems that the farmers in that neighborhood had been missing a great deal of corn for some time past, and during the late rainy season the tracks of bears were frequently seen, which indicated that they were the thieves. Some of the neighbors organized a hunting expedition on the day mentioned, with the view, if possible, of exterminating the nuisance. They sallied forth and soon got upon the trail of three of the troublesome "varmints," one of which was finally discovered and brought to the ground by a discharge from the weapon of one of the party. Mr. Julius Faircloth, the lucky marksman, proceeded to the spot where the bear had fallen, and was bending over the animal, knife in hand, in the act of plunging it into his throat, thus "making assurance doubly sure," when Bruin suddenly raised himself upon his haunches and seized Mr. Faircloth by the arm, throwing him upon the ground, where he held him securely, and had bitten him severely on the head, when the dogs opportunely came to the rescue. and Mr. Faircloth was relieved from the deadly embrace of the monster and made his escape. Bruin subsequently received a finishing touch at the hands of Mr. Faircloth, and his carcass, upon being weighed, was found to turn the scales at two hundred and forty-six pounds. Mr. F.'s friends were not at band during the fearful struggle, nor "in at the death," but had occasion shortly afterwards to congratulate their companion in the chase on his narrow escape and ultimate victory over the thievish and revengeful beast.

THE AMERICAN PROPLE.—No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour-Stomach, Heartburn, Water-brash, Sick Headache, Costiveness, Liver Complaint, yet since the introduction of Gazzar's August Frawan we believe there is no case of Byspepsia that cannot be immediately relieved. CONSUMPTION CAN BE OURED.—SCHERCE'S PULMONIC STREP, SCHERCE'S SAR WEED TONIC, SCHERCE'S MARDRAKE PILLS, are the only medicines that will cure Palmenary Consumption.

Frequently medicines that will stop a cough will occasion the death of the patient; they lock up the liver, stop the circulation of the blood, hemorrhage follows, and in fact they cleg the action of the very organs that cansed the cough.

Liver Complaint and Dyspepsia are the causes of two-thirds of the cases of Consumption. Many persons complain of a dull pain in the side, cometipation, coated tongue, pain in the shoulder blade, feelings for drowniness and restlessness, the food lying heavily on the stemach, accompanied with acidity and beiching up of wind.

These symptoms usually originate from a disordered condition of the stemach or a torold liver.

Persons so affected, if they take one or two heavy colds, and if the cough in these cases be suddenly checked, will find the stomach and liver ologies, femaling torold and inactive, and almost before they are aware the lungs are a mass of sores, and ulcerated, the result of which is death.
