A panic was occasioned in Niblo's Garden last night by some one in the gallery crying fire. The house was packed and a rush was made for the doors. As far as could be ascertained no person was injured. Several ladies were carried fainting into the vestibule. It is probable that the alarm was raised to give the pickpockets opportunity to work.

Special Cabinet Meeting - President's Visit to Richmond - Sift Chances for Legislation until after November Election - Permission by President of Mexico for Vessels to Carry Coin under Certain Conditions.

WASHINGTON, Oct. 29.

A special meeting of the Cabinet was held to-day.

The President leaves on a special car for Richmond early to-morrow.

An effort will be made to-day to secure an adjournment before the November election. Should it fail, prospects are unfavorable for legislation until after that event.

Information has been received from Mexico that, taking into consideration the necessity which exists for an immediate resort to the exportation of agricultural and industrial products, the President has ordered that it be permitted to foreign steam and sail vessels to carry silver and gold coins from one part of the republic to another, so there may be no want of hard cash on board the same. To prevent the realization of mercantile transactions relative to the exportation of national products, and to avoid the abuses which have been committed, the custom houses on issuing the corresponding permits, and extending the respective pass, of which the return pass shall be permitted, shall require a bond to his satisfaction from whomsoever it may belong, that he may provide for the amount remitted, indicated that the amount remitted was destined to the object for which it was sent, with the understanding that the want of this proof in its due time will alone be a sufficient cause for proceeding immediately to require the payment of the duties pertaining to the amount sent.

PARIS, Oct. 29.

A second ballot, yesterday, resulted in the election of the Government candidates in Pau and Chateauroux. The Republican members of the former Chamber were beaten in both cases.

The results of the second ballots, yesterday, so far as known, show nine government candidates and two Republicans elected. In three arrondissements the Republican candidates, claiming they were elected on the 14th inst., did not stand, intending to submit their claims to the Chamber of Deputies. The Republicans, however, did not attach much importance to these supplemental elections, because, excluding three unaccounted arrondissements, two ballots were rendered necessary. Simply by the division of the Conservative vote between opposing Royalist and Bonapartist candidates, one of them having withdrawn, rendering the result certain. Compe d'Espenilles, Bonapartist, defeated M. Guadin, Moderate Republican, and a member of the last Chamber, for the Chateau Chiron, Department of Nièvre, whose candidature Gambetta went to Chateau Chiron to support.

Boston Boot, Shoe and Leather Market, Oct. 26.

[Boston Commercial Bulletin, 37th.]

The market presents an extremely quiet appearance. The number of buyers has dwindled to almost nothing. In the boot trade manufacturers of heavy goods are still filling orders, though many of them have already finished, and all will shortly complete their fall work. Some manufacturers have already begun on samples for the spring trade. Prices show no change.

The market for stock shows little animation, and prices favor the buyer.

Rough leather has had another inactive week, and prices are easy.

Turpentine Lands.

THE ATTENTION OF DISTILLERS AND OTHERS interested in the manufacture of Turpentine is called to the advantages offered by the country along the line of the Brunswick and Weymouth Railroad. This road extends from Brunswick, on the coast, to Albany, in Southwest Georgia—a distance of one hundred and seventy-one miles—through

The Great Pitch Pine Belt

in the State, which it traverses from one side to the other.

Open, well timbered lands, lying immediately along the line of the road, can be bought for about

One Dollar and a Half an Acre,

and the same kind of land, situated about five miles from the line, can be bought as low as

Twenty-Five Cents an Acre.

These Lands are generally free from undergrowth, the timber being tall and thick, and, with the exception of the pines having more heart, they resemble very closely those of North and South Carolina.

As a fine quality of resin can be made here as in the Carolinas—a large proportion of that manufactured early in the spring ending in

The rates of freight from stations under one hundred miles from Brunswick are forty cents per barrel on rosin and seventy cents per cask on spirits turpentine, and from stations over one hundred miles, forty-five cents on rosin and seventy-five cents on spirits. There is a weekly line of steamers from Brunswick to New York, the rates being fifty cents on rosin and seventy-five cents on spirits.

Naval Stores can be sold promptly in Brunswick, and from two weeks, will be given in order to afford them ample time to see the country and secure a local market for their produce.
