Reported Change in Turkish Ministry in Interest of Peace-Repulse of Russians in Attack on Plevna-Discontent in Roumania Concerning the War-Threatened Mutiny Among Roumanian Troops-Russian Hopes for Termination of War -Servia in General Contempt-The Turks Defeated at Mahren-The Elections in France, &c.

LONDON, NOV. 5. Advices from Constantinople indicate change of ministry in the interest of peace. The Russians were repulsed in an assault on Pleyna from the East. The loss was considerable, but the supposed attack was a demonstration to mask a Russian movement to establish themselves on the Sophia

There is much discontent in Roumania concerning the war. There is hardly a family in Moldavia which has not lost a relative. The full strength of the Roumanian army was sent into the field at the beginning of the war. Sems companies now have only one officer, and as there are no reserve officers to replace those who have been killed, the army is disorganized. After the engagement of the 19th the Roumanians threatened to mutiny if any further attempts were made to lead them to

A large body of Russian troops is massed at Tirnova, and reinforcements are pushing forward with the supposed design of crossing the Balkans this winter.

A dispatch to the Times from St. Petersburg says "the idea is rapidly gaining ground here that perhaps the war may be finished this year. Certainly a great effort will be made. It is generally believed, in the event of success, that Russia will demand the full passage of the Straits and the autonomy of northern Bulgaria, under some German Prince, with a guarantee of the Great Powers.'

The Times' Rome dispatch says the Vatican Council have been discussing the expediency of abolishing the right of veto, in the election of Popes, claimed by Austria, France and Spain. The opinions are divided. No resolution has been yet adopted. A special dispatch from Constantinople

to the Standard says: "It is reported from Orchanie, on the authority of Russian prisoners, that Gen. Gourko was wounded during the recent fighting, and has since died. (Note.—This is improbable.) A special dispatch from Vienna to the

Times, says the recent Russian successes have renewed the war agitation in Belgrade, but so indifferent to Servia's attitude are the Russians now, that the report is current that Prince Karageorgevich, the Servian pretender, has been invited to visit the Russian headquarters, and was well received there. Whether this is true or not it is certain that Servia's trimming has spoiled her position with Russia, Turkey and the Great Powers alike, and she is likely to commit herself to some desperate measures in the effort to retrieve herself.

Russian official bulletins report continued progress on the Plevna and Orehanie, and the Lovatz and Orchini roads. Teteven and Turskiisver are occupied by infantry and cavalry, and a cavalry detachment has penetrated Yablanitza in pursuit of the re-

LONDON, Nov. 5. A Paris dispatch to the Times says the returns of the departmental elections, as far as is known, show that twenty-eight Re-publicans and nine Conservatives are elected to the Councils General, and the Republicans have eight new members. The Duke de Broglie's defeat by a Bonapartist will doubtless create a great sensation and considerable influence on the decisions of the government.

A special dispatch from Paris to the Times says: "It is asserted that Cappet, Switzerland, Madame de Stael's retreat, on Lake Geneva, is being prepared for the reception of her grandson, the Duke de

MEXICO. Advices from Mexico via Havana-Special Commissioner En Moute to Washington-Rumored Reports of Fights Between Americans and Mexicans-Much Excitement-Other Rumors-What Mexican Officials on the Rio Grande Claim-Government Refoms, &c.

HAVANA, Nov. 5.

The English mail has arrived at Vera Cruz, bringing intellgence from the City of Mexico to Oct. 30th: Manuel M. Zammaconi, Special Commissioner from Mexico, is en route to Washington. It is expected he will remain there as Minister.

Minister Foster gave an informal dinner to Zammaconi and Selosco, at which Senor Valarta, Secretary of Foreign Affairs, and the Ministers of Germany and Spain were

Another regiment of infantry marched for the Rio Grande on the 30th ult. Much excitement prevails at numerous reports of fights on the Rio Grande between Mexicans and Americans. It is rumored that a body of Mexicans crossed to Eagle Pass, pulled down the American flag and run up a Mexican banner, and that Matamoras has pronounced against Diaz. The excitement increased upon the intelligence that Mexicans have been assassinated in Texas. None of these rumors have been confirmed.

Gen. Trevino pledges the State of Neuva Leon to sustain the Diaz policy of extradi-tion and the repression of raids. The Mexican officials on the Rio Grande claim that they give up criminals in all cases required by treaty and where the honor and peace of the country demand, but they reserve the right to refuse to deliver their own cititreaty does not require it. The commerce and industries of the

country are not affected by the excitement. Congress is cutting down the tariffs of the Mexico and Vera Cruz Railway, and even declares that the government is empowered to abrogate concessions to and all contracts with the railway.

The Treasury receipts are increasing and expenditures are being diminished. Rings of speculators and brokers about the palace have been abolished.

A Monster Farmer's Petition to Congress, in Relation to Financial Mat-

ST. Louis, Nov. 5. The Journal of Agriculture and Farming, of this city, has forwarded to Mr. Buckner, chairman of the committee on Banking and Currency, a farmer's petition measuring 127 feet in length and containing 5,573 names. The memorialists asks for a financial system independent of a metallic basis. They insist that the whole theory of specie resumption is unphilosophical and unsound; that values being relative the only thing which can be said to be a standard of value is necessity, the mean relation of all commodities; that money is simply a creature of law, an instrument of commerce, a standard of payment. They claim that those who hold the real collaterals as improved farms, must have the privilege of borrowing money from the public Treasury on equal terms to those who hold bonds.

Promulgation of an Important Decree Materially Affecting the Prosperity and Industries of the Island -It is Received with Much Satisfac-

· HAVANA, Nov. 5. A decree, dated November 3rd, has been issued, declaring that all the estates ruined during the war, or in way of reconstruc-tion, shall be free from contributions for five years from the date of the decree. Every new estate and all new property in cities or villages of the Central and Oriental Departments will have the same privileges. All industries and commerce in said departments newly established will be exempt for three years from contributions. All female cattle, either Spanish or foreign, imported into Cuba with the exclusive object of raising slock, will be duty free for two years. Instructions for the fulfilment of this decree will be given at the respective centres of the island. The decree is received with much satisfaction.

Turpentine Lands.

THE ATTENTION OF DISTILLERS AND others interested in the manufacture of Turpentine is called to the advantages offered by the country along the line of the Brunswick and Albany Railroad. This road extends from Brunswick, on the seacoast, to Albany, in Southwestern Georgia—a distance of one hundred and seventy-one miles—through

The Great Pitch Pine Belt in the State, which it traverses from one side to the ether.
Fine, open, well timbered lands, lying immediately along the line of the road, can be bought for about

One Dollar and a Half an Acre, and the same kind of land, situated about five miles from the road, can be bought as low as

Twenty-Five Cents an Acre. Twenty-Five Cents an Acre.

These Lands are generally free from undergrowth, the timber being tail and thick, and, with the exception of the pines having more heart, they resemble very closely those of North and South Carolina.

As fine a quality of rosin can be made here as in the Carolinas—a large proportion of that manufactured early in the spring grading W.

The rates of freight from stations under one hundred miles from Brunswick are forty cents per bbl. on rosin and seventy cents per cask on spirits turpentine, and from stations over one hundred miles, forty-five cents on rosin and seventy-five cents on spirits. There is a weekly line of steamers from Brunswick te New York, the rates being fifty cents on rosin and seventy-five cents on spirits.

Naval Stores can be sold promptly in Brunswick, however, at New York quotations, less freight and charges, and frequently at even better prices.

To bona fide intending settlers a free pass over the road, good for two weeks, will be given in order to afford them ample time to see the country and secure a location.
