Fires are now the rage. Two today reported and three yesterday. The epidemic will probably continue for some time, until another epidemic

A new scandal has broken out in New York. This time it is among the Vanderbilts. The developments thus far make the late Commodore something of a dog and a rake, and Wm. Vanderbilt as being far too intimate with his step-mother. It promises to be as nasty a case as the Beecher-Tilton horror.

There is nothing from the seat of war. It is thought that Osman Pasha is preparing at Plevna to make a sortie. The Russians are said to have met with a repulse after traversing Etropel Pass, losing four hundred and fifty men. The news comes through Turkish sources. Erzeroum is being besieged by the Russians.

There is very great depression and anxiety in Paris. The second ballots have all been heard from, and the result is the Republicans have a majority in forty-nine departments and the MacMahonites in thirty eight, while there is doubt as to three. The mad policy of the President is endangering the destinies of France. It is either civil war or submission to the national will. The Senate is evidently inclined to play into Mac-Mahon's hand, and will, it is believed, order a second dissolution which will be resisted by the House of Deputies, Then the roar of cannon.

It is reported that the "stalwarts" have succeeded in bull-dozing President Hayes. He has promised not to appoint a Democrat to office when he can get a suitable Republican. That means a good deal doubtless. No one would desire Democrats to hold office under the present Administration, provided good, faithful, honest, capable men of the Republican party were chosen. But some of the President's appointments cannot be justified or approved. They are simply as bad as can be-as bad as Dr. Johnson pronounced that leg of mutton to be. Civil service reform progresses with a snail-like pace.

Democratic Caucus on the Contested in Reserve-The Brazilian Mission-Paris Exhibition, &c.

[Special Dispatch to the Baltimore Sun. ]

WASHINGTON, Nov. 13. The Senate Democrats held a caucus this afternoon. The business brought before the caucus was in reference to the cases of the South Carolina and Louisiana Senators. It was said that something ought to be determined upon to defeat, if possible, the apparently determined purpose of the Republicans to delay action on the Senatorial cases until the last mo-

hasten action. It was admitted, how-

ever, that the Republicans, being in

the majority, had it in their power, if

they saw fit to exercise it, to control

the disposition of the cases. The

Democrats may exercise some influ-

ence, and at any rate will put them-

making a formal demand that no un-

positive conclusion was reached as

Allusion has been made in some

quarters to a report on South Caro-

to-day it is deduced that this report

will be made only in a certain con-

tingency, namely, if the case of Mr.

before the Senate for action. The re-

Senator Eaton introduced three

change the entire commercial system

of the country if passed. One re-

Death Produced by a Needle.

A colored child, son of Robert and Mary Morris, living on the corner of Fourth and A Freak of Nature. Bladen streets, in that part of the city known as Brooklyn, died yesterday afternoon, and subsequently Dr. McDonald dis covered a needle an inch and a half long imbedded in the flesh of the child's breast, near the right nipple, it having penetrated the lung, thus causing death after a lingering illness of about two weeks. It is not known whether the child swallowed the needle, or that it by some means became imbeded in the flesh while it was being dressed, or otherwise, but there was no scar or other sign to show that it penetrated the breast, from whence it was taken. The needle came out point first. 'During the illness of the child, which was only about eight months old, there were indications that it suffered intensely from some affection in the breast, which fact led to the examination and consequent discovery of the cause of the little one's death. The child will be interred this afternoon at 3 o'clock.

Another Prisoner from Pender.

A colored boy, by the name of John Hansley, was brought here Wednesday evening, under a commitment from Justice R. K. Bryant, of Grant Township, Pender county, and was committed to jail, in default of security in the sum of \$200, to await his trial at the next term of the Superior Court for that county on the charge of larceny. The officer in whose charge he arrived here, a youth of about the same age of the prisoner, both being mere boys, said he had been "breaking open buddy's store," but who the property belonged to we have not ascertained. The youthful officer walked all the way from Grant Township with his prisoner, a distance of about twelve miles, the colored boy being securely tied with a clothes line. They were followed to the Sheriff's office by a crowd of white and colored urchins, who seemed to enjoy the novel spectacle amazingly.

Attempt to Photograph the Shipping

Mr. C. M. VanOrsdell, the artist, made an effort yesterday to secure a photographic representation of the large number of shipping in port. He took a station above the Cotton Compress wharf, so as to embrace in the view not only the extensive fleet at and in the vicinity of the point in question, but the long line of shipping extending along almost the entire water front of the city. It was found, however, that the water in the harbor was too rough to admit of a good picture being taken, and he therefore postponed the undertaking to a day more suited to the purpose.

Sampson County Fair. Our thanks are tendered for an invitation to attend the Thirteenth Annual Fair of the Sampson County Agricultural Society, to be held at Clinton December 12th, 13th, 14th and 15th. The Fairs of our Sampson county friends have generally been very successful ones, but the one now approaching will probably be exceptionally so. At least the indications point to that conclusion. Gov. Vance is expected to be present and address the people, which fact of

Railroad at that point, when a car which was being hacked down the track struck the bales of cotton with which his dray was loaded and switched the vehicle round with such violence as to detach the horse from the harness and break one of the wheels of the dray, but, fortunately, doing no further damage.

An Interesting Case. A case of some interest to wharf owners came up for a hearing before Justice Hall vesterday afternoon, the parties to the suit being Mr. Geo. F. Colin es. the German Barque Claudia and owners. It appeared from the evidence that the barque in question tied up at the wharf leased by Mr. Colin, between Dock and Orange streets, and discharged her ballast, after which she remained at the wharf three days. The work of discharging the ballast was completed on the 31st of October, and on the 1st of November the Captain of the barque applied to the owners of the steam tug Wm Nyce to remove the vessel to another wharf, but the tug had engagements ahead for that day, and on the 2nd of November, or the day following, there was a storm of wind and rain which prevented the tug from performing the work required. On the 3rd, however, the weather was propitious and the barque was removed. Mr. Colin brought suit to recover wharfage for two days, being a por-

tion of the time she remained at the wharf after the ballast had been discharged, the amount claimed in the bill being five dollars. Quite a number of witnesses were examined as to commercial usages in such cases, &c., after which, upon conclusion of the argument of counsel, Justice Hall decided in favor of the plaintiff. The defendants thereupon appealed to the Superior
