OUTLINES.

The French Chamber of Deputies has assumed a very determined attitude ; the Chamber adjourned until Thursday; a great sensation has been created by the action of the Chamber; the Senate also adjourned until Thursday; the Chamber is urged by leading Republican paper to save the country: it is believed a coup d'etat is very imminent. - It is now thought that Erzeroum will follow Kars. - Seven thousand Russians will be sent from Kars to resist in reducing Plevna. - The Silver Bill is finished, and is to be reported in the Senate. - Steamship Strathtog lost at sea, but crew saved. - National Grange in session at Cincinnati. - President signed navy and army deficiency bill. -Report of the Commissioner of Revenue shows a million increase from distilled spirits. Habeas corpus case of Senator Patterson under discussion in Senate. - New York markets : Money more ac-

tive at 7 per cent.; gold 1021; cotton steady at 11 3-16@11 5-16 cents; flour dull ; wheat warcely so firm; corn 101c better; spirits turpentine easier at 331 cents; rosin quiet at \$1 70@1 75.

The Democratic Senators have never caucused with regard to sustaining the President's nominations, as has been reported.

The French news looks threatening. The Chamber of Deputies has assumed a determined, possibly a defiant attitude. It is resolved to maintain its prerogatives against all encroachments, and as no regular government existed it adjourned until Thursday. The Senate did likewise. A great impression appears to have been made by the decisive action of the Chamber. The London Times' correspondent thinks a coup detat is imminent and that breakers are ahead. A few days must settle in some way the question of peace or war. The hostile powers are now arrayed against each other, and the news that a conflict has been precipitated may come at any hour.

"IHE SOUTH ATLANTIC."

We have received the December number of this eandidate for Southern support. Published in this city, and edited and owned by a gifted lady who is a native of North Carolina, it has peculiar claims upon the people of Wilmington and of the State. But it is not narrow in its plans or limited by State lines in its aspirations. "No pent up Utica contracts its powers." It gees out and beyond our borders, and seeks to please, to edify, to entertain the cultured readers of all the States. In the number before us Virginia furnishes several contributors and South Carolina one, the sweeteet and truest poet now living in "the land we love." We have not had time to read the articles before us. When we state that Wm. Brockden Browne, Mrs. Marga ret J. Preston, Prof. S. Hassell, John Esten Cooke, Capt. Maffitt, Paul H. Hayne, and Capt. Samuel A. Ashe are among the contributors, we give assurance that the reader will find matter to entertain and instruct. The December number is a very great improvement upon the first number in its size and mechanical "get up." The style of the cover is a very de cided advance on the one that preceded it. We congratulate the editor upon the happy improvements, and trust she will meet with the most liberal and remunerative patronage. Wilmington ought to take at least three hundred copies. Our Living and Our Dead bad one hundred and sixty-five subscribers here, and it was published elsewhere. Price \$3. Mrs. Cicero W. Harris, Editor and Proprietor, Wilmington, N. C.
