OUTLINES.

Kellogg and Butler were admitted and sworn in. --- The House resolved on final adjournment at 8 P. M. - Germany favors Russia's direct negotiation with Turkey. - General bombardment of Plevna was begun on Thursday. -At 10:30 A. M. it was as dark as midnight in London on account of the dense fog. - The British Government has contracted for the use of the Bell telephone. - Between 2,000 and 8,000 cotton opera-

tives are on a strike at Mossby, England, --- Political situation in France unchanged. -- A bill passed the House neanimously giving \$1,000 to each of the surviving officers of the Huron and \$100 to each of the men, and a similar sum to the crew of the swamped wrecking boats. - A bill to remove all disabilities failed to pass by the two-thirds vote. -- One thousand eight hundred bills have been introduced during the called session and only two bills have become laws. ____ A resolution seating Eustis, of Louisiana, was reported by the committee on Privileges and Elections. - Fitzsimmons confirmed as Marshal of Georgia. -- Samuel Bowles, editor of the Springfield Republican, is at the point of death from paralysis of the brain. - New York markets: Money 5@6 per cent.; gold steady at 1021; cotton firm at 11 5 16@11 7-16c; flour still and in buyers favor without a decided change; wheat firm; corn opened heavy and closed at ic better; spirits turpentine easier at 331c; rosin quiet at \$1 70@1 75.

As we supposed would be the case Eustis, of Louisiana, will get his seat The committee on Privileges and Elections have reported favorably.

The long fight in the Senate has resulted in the seating of Kellogg, from Louisiana, and Gen. Butler, from South Carolina. Davis, of Illinois, voted for neither. We think it probable that Eustis will be seated as the other Senator from Louisiana.

The vote of New York has not yet been ascertained. Three counties, New York, Erie and Kings, have not reported. In the counties heard from the Republican plurality is 25,528. It is supposed that the three counties gave 36,000 Democratic majority. If so the Democratic Secretary of State is elected by some 10,472 majority. Tilden's majority last year was 32,745.

-A singular commentary upon the wisdom and efficiency of modern legislation is found in the fact that during the called session of Congress eighteen hundred bills were introduced, only two of which became laws, to wit, the Army Appropriation Bill, and the Navy Deficiency Bill. We doubt if a parallel to this can be found in the history of the legislatures, parliaments, congresses, assemblies, chambers, &c., of any country or any age. It was a latterday instance of the mountain laboring and producing a mouse. And then to think that one of the bills that did pass allows the army to be increased, thus opening a way for a vast amount of evil some day, when another Grant is President. This increase was allowed by the Democrats.

WASHINGTON Nov. 28. The first annual message of President Haves will be sent to Congress on Monday next, the first day of the regular session. It is understood that the document will be quite lengthy. Among the important subjects which will be discussed in the message are the condition of the finances and the views of the President thereon, the Mexican border troubles and the Indian wars of last summer. It is understood that the President will also discuss at length what is known as his Southern policy, the causes which led him to adopt that course, and the good results which, in his opinion, have flowed therefrom. This portion of the message will be highly inter-

The freshet at Fayetteville is thus described by the Gazette: Gangs of workmen were quickly formed, who were soon up to their knees in the muddy waters, which were rising at the rate of two or three feet an hour. Great piles of mer-chandise—guano, sail, &c.—were taken out of the Worth warehouse, while a little lower down Mr. A. H. Slocumb was hard at it to save 1,000 barrels of rosin, which he has just succeeded in doing. Until 4 clock on Sunday afternoon the Cape Fear continued to rise, reaching a point higher than has been witnessed since the memorable freshet of 1865-known here as the 'Sherman freshet-and hundreds of people lined the banks all day long, enjoying the novel sight of steamers perched up in trees, and water running scores of feet above what were streets and roads a few
