Rev. R. G. Green, late minister in the Baptist and subsequently an elder in the M. P. Church, asked for orders of recognition by this Conference, which were granted.

The Bishop then introduced to the Conference Rev. Dr. Wetmore, of the Episcopal Church, who was invited to a seat within the bar.

The Bishop then stated that he had been informed by the Presiding Elder of the Newbern district that there was a case of appeal from that District Conference on a preliminary

question of ecclesiastical law. Rev. E. A. Yates, the Presiding Elder, stated that the case was one in which a local preacher had been arraigned and expelled by the District Conference for immorality and appealed to the Annual Conference.

Rev. W. H. Cunninggim, the appealant, came forward and took a seat by his counsel, Mr. F. C. Rob-

Mr. Robbins stated that the question of law upon which he desired the decision of the Bishop-it was merely a question of law-was as follows: "Whether in the trial of a local preacher for immorality, by a quarterly conference, the preacher in charge has the right to frame and present the bill of charges." Rev. E. A. Yates, who had given

the decision, argued in favor of his position, maintaining that there were some circumstances when the interest of the church demanded that this proceeding should be taken.

Mr. F. C. Robbins argued that the failure to adopt the usual course was not justified by the circumstances of this case.

The Bishop took the case and said he would give a decision after time had been allowed for consideration, which decision would of course be submitted to the College of Bishops.

Rev. Dr. Closs brought forward an appeal from Frank B. Andrews, local preacher in his district, convicted of falsehood at a meeting of the District Conference, presided over by the Rev. R. O. Burton, in his (Dr. Closs') absence. He stated that the represented by Mr. Benj. F. Long.

The Secretary read the bill of exceptions to the rulings of the inferior court, and the counsel filed an answer, arguing each point.

To this Rev. R. O. Burton made an answer and explained at length the peculiar circumstances of the case. Rev. Dr. Closs made a further explanation, and the Bishop took the case. He then stated that he could not possibly tell when he would be

Committee retired for deliberation. REPORT OF D. W. BAIN, GRAND SECRE

As usual this most efficient officer made an exhaustive report, showing that while the progress made in the order during the Masonic year had not been as great as could be desired, yet it was fully up to the average; that the worthy who had applied for

The work need not cost any more; but to be well done it ought not to cost any

He reported that the children and teachers of the institution for the year had been unusually good, and that there had not been a single death.

Dr. Grissom read a plan for the permanent endowment of the Orphan Asylum, prepared by F. H. Cameron, President of the North Carolina State Life Insurance Company, and asked that it be referred to a special committee of seven. It was so ordered, and a committee appointed, consisting of J. B. Conference Appointments. From a private dispatch received by a gentleman of this city we gather the following information in regard to some of the appointments made by the North Caro lina Annual Conference of the Methodist E. Church, South, which has just closed

Mayor's Court. The cases of Carl Gustave Andersen and Joseph Carlsen, of the Swedish barque Equator, arrested for disorderly conduct and resisting a police officer, an account of which appeared in yesterday's paper, had a hearing before Mayor Dawson yesterday morning, and the defendants were ordered to pay a fine of \$25 each and to be confined in a cell until the same shall be paid. One of the parties could not speak or understand English, and an interpreter had to be called into requisition. The Mayor informed them that but for the fact that they were from a foreign country, and consequently, not familiar with our laws and ordinances, he would inflict the full penalty allowed for such offences as they had been convicted of.

Stray Property. A barrel partially full of molasses and barrel of kerosene oil were found on the sidewalk opposite the Farmers' House, on Nutt street, on Wednesday night, by the policeman on that beat. How they came there is a mystery which has not yet been solved. There are private marks on one of the heads of the molasses barrel, but they are hard to be distinguished, being apparently H. & P., or H. & Co. The oil was of the brand known as "Rising Sun." They were taken to the City Hall on one of the city carts yesterday morning, where they will be held for identification.

Coroner Hewlett held an inquest yesterday afternoon over the body of what proved to be the still-born child of one Rachel Hooper, colored, living on Surry, between Church and Castle streets. The body had been buried on the premises, without being enclosed, and at such a light depth that it was brought to the surface by dogs, who were in the act of devouring the remains when they were discovered and rescued, whereupon the Coroner was notified. The jury returned a verdict in accordance with the facts.

Badly Frightened. The worst frightened boy that has been seen in these parts for a long time was the colored chap who had taken a seat on the cow-catcher of an engine at the depot, Wednesday afternoon. The engine started, when he was tumbled off, but got hitched to the cow-catcher in some way and was dragged a distance of about a hundred yards before he got loose, in the meantime yelling prodigiously. It is likely that the hero of this adventure will rest his weary limbs in a less dangerous position here-

Advantages of Railroad Connection

with Onslow and Jones Counties.

A friend and correspondent at Palo

Alto, Onslow county, Mr. Daniel N. Far-

nell, has sent us a communication relative to the advantages which, in his opinion, railroad from Wilmington to Onslow county and from thence to Trenton, in Jones county, would result to this city and also to the people of those counties. He says: "If a railroad was thus constructed the vast products of Onslow and Jones would be rushed entirely to the Wilming. ton market. \* \* \* From Wilmington across New River at Sneed's Ferry and from thence across White Oak River at Smith's mill and thence to Trenton, would be the most profitable route. Along this route would be found fertile lands which have no equal in North Carolina for all kinds of farming. Thousands of acres of very rich land, now nothing more than a desolate forest, would be brought into thorough cultivation, and the production of cotton, corn, peas and peanuts would be immense. Besides all this, vast quantities of fine fish and oysters from New River would be shipped, which have no superior on this continent or in the world. Fresh oysters would be shipped in the morning and would reach Wilmington in the evening. or would be shipped in the evening and be ready for delivery early the next morning.' Our correspondent then proceeds to portray in glowing colors the great advantages which would speedily result to our port, which would soon rival some of our most progressive cities in wealth, population and strength, taken in connection with the railroad facilities we already enjoy. He says: 'Our sister State of Virginia is going with rapid strides to make Norfolk the chief of Southern cities. Let the enterprising men of Wilmington and other sections of the State carry this important project successfully into effect, and yours will soon be among the most important cities on the Atlantic coast. It is my earnest hope that our people may arouse to the importance of this subject and invest their capital and work steadily from this time forward until this great work is completed."
