The famine that has been raging so violently in China continues with unabated violence. The suffering has been awful and the loss of life immense. Entire districts of country have been depopulated. The distressing news comes that there is no possible hope of relief during 1878, and possibly not during the next year. Such a story of human privation and suffering is sickening.

The peace prospects appear to have advanced thus far. The Porte asks for an armietice; to this Russia replies, very well, but all negotiations must be conducted on a basis looking to eventual peace conditions. The Porte is considering the matter. Russia appears to be acting prudently and considerately. It does not desire an armistice, as it is not to its interest, unless it shall lead to peace A six weeks' armistice, without prospect of peace, could be of no advantage to the stronger power now driving its enemy from one detence to another, and thus shortening the war. The Porte ought to accept the demands of Russia for a preliminary basis of peace before granting an armistice. We suppose this will be

The financial condition of our vast country is in a deplorable condition. As we said before, quackery, corruption and extravagance have well nigh knocked the bottom out, and recuperation seems almost impossible. The American Social Science Association is in session at Boston. Mr. Robert P. Porter, of Chicago, read a paper on the 9th that contains very much food for reflection, and altogether makes a most startling and, yet, we have reason to believe, true statement. He is treating of State and Municipal indebtedness. The debt of the cities of the United States is upwards of \$644,000,000, and has increased during the ten years at the rate of \$42,000,000 annually. Mr. Porter says:

"With these facts staring us in the face, it is not an exaggerated statement to say that the United States has to-day a debt of \$220,000,000, within \$40,000,000 of the National expenses. The liabilities are increasing at the rate of \$50,000,000 yearly, involving an additional charge on the tax-payers of \$3,000,000."

After this we can only say with the wondering Dutchman-"Vot a coundry and vot a peebles!"

NEW HAMPSHIRE REPUBLICANS Stormy Time at the Meeting of the State Committee-The Hayes Ric-ment Formidable-Chandler Denounced as a Political Tramp. CONCORD, N. H., Jan. 9.

At a meeting of the Republican State Committee last night, preliminary to the State Convention to-day. there was manifestly a very formidable pro-Haves element in the Republican party, and the opinions ex-pressed by the delegates in conversation at the hotels in the evening showed that it would be impossible to pass resolutions condemnatory of the President or his policy.

In the early part of the evening it seemed that both parties were disposed to make concessions, and it was thought if the matter was not entirely ignored, that an indorsement made in the resolutions, if any, would be of a milder, non-committal character. A strong feeling against Chandler was freely expressed by the delegates, and it was claimed by Chandler's friends that there had been an organized effort to crush him, secret meetings having been held for that purpose, and that various promi-nent men had been drawn into it.

The meeting was opened at 9 o'clock, and during the early part of the evening the proceedings were quiet and harmonious, though in many of the speeches were incidental and indirect attacks on Mr. Chandler's recent letter. The first speech was made by ex-United States Senator Patterson, who, though he endorsed the President, doubted the advisability of introducing the matter into the convention, as there was a disagreement upon it.

Speeches advocating either a conciliatory policy or a positive endorsement of Hayes were made by Gen. Stevens, Major E. W. Farr, O. C. Moore and others. Messrs. A. H. Tuck and Mason W. Tappan severely attacked W. E. Chandler, who is a delegate.

Mr. Chandler spoke at length, critiossing the action of the President. He spoke of attacks made upon him by two naval officers, (Messrs. Harriman and Tuck,) and intimated certain irregularities on the part of Tuck while in office. Tuck retorted by salling Mr. Chandler a political tramp, and charged him with dishonorable conduct as a lobbyist. Messrs. Moore and Tappan then spoke, the atter quite severely on Mr. Chan-

Maj. Farr made the closing speech and in speaking of the Southern policy said he was willing to shake hands with the man who shot a bulet through his arm.

The platform adopted by the Convention, after reaffirming the Cincinati platform, contains the following

Resolved, That we recognize the paramount duty of President Hayes to render tuese high and solemn professions actual and living realities, and while we admit an honest difference of opinion in respect to his past acts, we welcome and approve his patriotic and sincere efforts to keep faith with the people and secure to the whole country the blessings of a just, efficient and honest Republican national administration. patriotic and sincere efforts to keep ational administration.

FROM WASHINGTON.

[Special Dispatch to the Baltimore Sun. WASHINGTON, January 9.

The move made by Mr. Blair, in the Maryland Legislature, has tracted some attention here, but does not seem to have caused, much of a sensation. In administration circles the opinion was very confidently expressed that the Maryland Legislature would not adopt Judge Blair's memorial.

A delegation of the Society of Friends were at the Interior Depart ment this afternoon, and extended to Secretary Schurz their congratulations and approval for his expressed determination to put a stop to the rauds in the Indian service.

BLAIR'S LAST.

NEW YORK, Jan. 9.

Devillah Plot of Bourbon Demo crate. Special to Journal of Commerce.]

The Post's Washington special avs: Information from Annapolis, Md., is to the effect that the sentiment of a majority of the Democratic members of the Maryland Legislature is against Blair's manifesto, and the resolution will fail to pass. It is \$1,000,000,000, an annual expenditure of \$220,000,000, within \$40,000,000 of the National Course in political circles that Blair's course is in pursuance of a plan agreed upon by the Bourbon Democrats, and that the introduction of the resolution is simply the precursor of a poli-cy which will be pursued in every State where the Democrats control the Legislature, and will be agitated in Congress during the next few

W Janauschek

One of the finest audiences that ever as embled in Wilmington, greeted Madame Janauschek last evening. The play performed was "Catherine of Russia," and it was an exquisite presentation throughout. The audience was charmed from the opening scene to the closing event of the drama The Queen of Tragedy shone with matchless splendor, and proved herself an incomparable artiste. We had seen her in Mary Stuart, in Meden, in Lady Dedlock and Hortense, (her two great dual assumptions,) and in Lady Macheth, but we have scarcely seen her genius give a more magic touch than in her rendering of the passionate, impulsive and wicked Empress. She is singularly endowed with realistic power, and her interpretations are always life-like and harmonious. She was so excellent in every scene, it is almost impossible to particularize. It was noble and impressive acting throughout, but in the fifth act she was so superb and thrilling as to positively

SCHENCK'S PULMONIC SYRUP, SEA WEED TONIC and MANDRAKE PILLS.—These deservedly celebrated and pepular modicines have effected a revelution in the healing art, and proved the fallacy of several maxims which have for many years obstructed the progress of medical science. The false supposition that "Consumption is incurable" deterred physicians from attempting to find remedies for that disease, and patients afflicted with it reconciled themselves to death without making an effort to escape from a doom which they supposed to be mayoldable. It is now proved, however, that Consumption can be cured, and that it has been cured in a very great number of cases (some of them apparently desperate ones) by Schenck's Pulmonic Syrup alone; and in other cases by the same medicine in connection with Schenck's Sea Weed Tonic and Mandrake Pills, one or beth, according to the requirements of the case.

to the requirements of the case.

Dr. Schenck himself who enjoyed uninterrapted good health for mere than forty years, was supposed at one time to be at the very gate of death, als physicians having pronounced his case hopeless, and abandoned him to his fate. He was cured by the aforesaid medicines, and, since his recovery, many thomands similarly affected have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenok, unless patients wish their lungs examined, and for this purpose he is professionally at his principal office, Corner Sixth and Arch Streets, Philadelphia, every Monday, where all letters for advice must be addressed.

Schenck's medicines are sold by all druggists.
