## OUTLINES.

Russian convalescents have been ordered to join their regiments. - The Duke o Edinburgh will remain in the Mediterranean for the present. - No result thus far from Germany's mediation; Russia will not agree to make the validity of the treaty depend upon the consent of the Powers: England has arranged a truce with Thessaly; Russian officials at Bucharest are preparing 16,000 transport carts in case the Black Sea line of communication is closed by the British fleet; new difficulties have certainly arisen, and England is charged with being the cause of them; negotiations still continue; nothing is known at San Stefano of the Grand Duke Nicholas being recalled; enough men have been called out by Russia from the naval reserve to form three corps of sailors for the fleet; the Circassian army is to be disbanded; the change in the Turkish Ministry is regarded as a new element of danger to England. - An insurrection against Diaz in Mexico is steadily ripening; the Lerdists are urging the Indians to renew their raiding operations in order to excite disquiet between Mexico and the United States. - England is chartering vessels to convey troops from India. - It is thought that the Turks will probably fight to keep out the Russians from Constantinople; it is thought the Russians can go in whenever they get ready to do so; the Russians are growing more and more restive; they prefer to fight than to sit rotting in filth and dreaming of home. - The Cuban war has broken out afresh.

- New York markets: Money easy at 5 p r cent; gold 1004; cotton exchange closed; flour without decided change; wheat quiet; corn ic better at 55 cents; spirits turpentine essier at 30@301 cents; rosin dull at \$155

Conkling says that Senator Lamar is beyond all question the ablest man from the South. He makes him out very cunning and artful. Conkling has fine abilities himself, but then he is so tricky and unreliable. He knew a great fraud was perpetrating, vet he stood by with folded arms and haughty crest and did not strive to prevent it. Conkling is a first-class

Eastern Question remains nearly the same. Negotiations are still pending, but new difficulties are said to have arisen, for which England is held responsible. It is said that she has rejected the proposal that the Congress should be summoned to revise the treaties of '56 and '71. She is represented as adhering firmly to her original conditions. In the meantime Russia is preparing for the worst. All convalescents have been ordered to join their commands, and she is preparing 16,000 transport carts at Bucharest so as not to be taken aback should England block ade the Black Sea, and that line of communication should be thus broken. She has also called out three corps of her reserve seamen.

## A Riot in Hooslerdom

INDIANAPOLIS, Ind., April 18. At Coal Creek, Indiana, a mining town, seven miles south of Covington, in Fountain county, yesterday, a militia company, composed of miners who were in the strike a year ago, were drilling during the day, and at night while some of them were in a saloon with their arms stacked in a corner, became engaged in an altercation with a negro, resulting in his murder. The whites then moved through the streets, shooting at negroes on sight, killing two more and mortally wounding another. The excitement to-day has been great. The Governor, in answer to a call for help, declined until the Sheriff should signify his inability to preserve order. The Sheriff has since requested the presence of the Adjutant General and made a requisition for ammunition.

One More Unfortunate. [Special dispatch to the Post and Union.]

Yadkin Presbytery.

The Presbytery met at 84 o'clock yesterday morning, in the Chesnut Street Presbyterian Church, and was opened with devotional exercises, conducted by Rev Jas. A. Chresfield, of Greensboro. The morning and afternoon sessions were cccupied in hearing reports of committees. There was a short session in the evening, at the close of which the meeting adjourned, having passed the usual vote of thanks. This, in many respects, was, we learn, the most interesting and profitable meeting of this Presbytery ever held, and the congregation of the Chesnut Street Presbyterian Church, whose generous hotpitality was displayed in the cheerful manner in which they opened their homes and entertained the Presbytery, is, we understand, much encouraged in their efforts to maintain and extend Presbyterianism among the colored people of our city. Members of Presbytery will occupy the pulpits of the various colored churches of the city to-day, as may be seen in another

It is a step in the right direction, and we hope others will see the propriety of following the excellent example. Let all the hedges be trimmed, and the lots put in order during the text two weeks, and our beautiful "city of to infest this city. A little twelve. of Front Street M. E. Church, bids fair to the dead" will present a much lovelier appearance than it will if this little matter is neglected. It is a duty easily performed, and one due alike to the living and the dead.

On motion, the election of officers was declared in order, and the following gentlemen were elected:

Meeting of Fifth Ward Democratic

A large and enthusiastic meeting of the Democratic voters of the Fifth Ward (there being about one hundred and fifty present,) took place last night at the Bucket Company's Hall, pursuant to a call from the former President of the Club.

The meeting was called to order and its object stated, and nominations for permanent officers declared in order, when the following permanent officers were elected: President-F. H. Darby.

Mayor's Court.

Three young colored men, named Cupid Mosely, Lewis Larkins and Furman Murray, who were arrested Thursday night on the charge of acting very disorderly in Brooklyn, had a hearing before the Mayor vesterday morning. It appeared from the evidence that Mosely and Murray, who had been drinking, were very noisy and demonstrative, and upon being remonstrated with on the plea that there was a very sick woman in the neighborhood, they rather increased than diminished their boisterousness, especially Murray, the elder of the three, who "allowed" that he "paid taxes and would kick up as much h-l as he pleased." The Mayor very properly or dered Murray to pay a fine of \$10 and costs or be confined in the city prison for ten days, Mosely to pay a fine of \$5 or be confined in the city prison for five days, and Larkins to be confined in the city prison for one day for "being in bad company," remarking that he intended to put a stop to such boisterous conduct on the streets at night, which, as was stated by one of the witnesses, Officer Geo. W. Davis, was exceedingly annoying to the citizens.

Political. The Republicans of the First Ward organized a club a night or two since, with Whitman Wilson as President, Sol. H. Nixon, Vice President, A. A. Dudley, Secre tary, Henry Brewington, Assistant do. James Howe, Treasurer, and Henry Lucas, Sergeant-at-Arms. They passed a resolution to the effect that "we propose in the coming election to look out for candidates for office who propose to look out for the interests of the people, and not for the wild beasts that run in the woods," whatever that
