The Executive committee reported that the condition of the Jews, in and around the seat of the Russo-Turkish war, was such as to compel them to fly to other and more hospitable places. In Bulgaria, especially, the Jews were subjected to the grossest outrages. The committee reported that the Alliance Israelite-Universelle had done a noble work to alleviate the distress, and the Jews in America had contributed ever \$7,000 towards the work. After some discussion the following resolution was adopted:

Resolved, That the Executive Committee be requested to continue its efforts to secure the adhesion of the Eastern Congregation to the Union of American Israelites, in order to obtain the necessary number of members to consummate the plan of union between the East and West; also, that s delegation be sent to the next convention of the Union, to express the sentiments of the Board in favor of the plans of a joint convention, and to suggest such changes of the

By-Laws as may be deemed necessary.

Progress of the Lerdo Revolution-American Merchants in Confine-

SAN ANTONIO, May 28. A special dispatch to the San Antonio Herald says New Laredo is threatened by six hundred Lerdo revolutionists. Three American citizens, merchants, are in confinement by Diaz officials for contributing to the defense of the town.

Another dispatch says the revolutionists

are rising and arming in vast numbers. Several prominent Lerdoists here are preparing to go to the frontier.

GALVESTON, May 28. A News' special says Laredo is threatened by three parties of Lerdists, numbering 800 men, under Gens. Gerga and Ayala and Cols. Cristi and Martinez. Their advance is within ten miles of the town. The Mexican customs authorities have come to this side with their books and records. The commander despairs of holding the place unless reinforced. Gen. Ayala made a formal demand for the Plaza this morning.

Stoppage of Mills-Four Thousand Workmen Thrown Out of Employment-Other Mills to be Stopped, &c. FALL RIVER, May 28.

By the stoppage of the Troy, Stafford, Flint, Chace, Robeson, Weelamoe, the two Tecumseh and the two Wampanvag mills, besides the Border City, Tagamore and Union, there are nearly 12,000 out of 30,000 looms remaining idle this week. It is stated that other mills will shut down next week. Some are running on contracts and cannot stop at present. Many here think the mills ought to have stopped long ago, and that if the movement should extend now through the whole of New England, as trade would be started in the fall its impetus would keep business moving. By the stoppage of these mills some 4,000 people are thrown out of employment.

Boston Boot, Shoe and Leather Market, May 25.

[Boston Commercial Bulletin] Extreme quiet prevails and the trade are evidently waiting all along the lines, to see what the next week or two will bring forth, before operating largely. The drummers have been called off the road to a considerable extent and the number of buyers in town is steadily increasing. The total ship-ments of boots and shoes from Boston thus

far this year now reach an aggregate of 568,271 cases, against 630,853 cases for the corresponding period of last year.

The leather market continues very quiet, and there is no change in price. The opinion is expressed in some quarters that as soon as the sale opens prices will veer up-ward; but there is not sufficient faith in such a movement to stimulate any speculative feeling.
