The Richmond State says of Law rence Barrett as Raphael:

"The finest, most artistic and realistic acting we have ever witnessed on the stage of our theatre was Lawrence Barrett's rendition of Raphael, in the beautiful play of the 'Marble Heart,' last night."

In New York during 1878 there were 917 failures; liabilities \$63,958,-403; assets \$18,695,531. In 1877, failures 847; liabilities \$51,687,000. And still there is an improvement in the outlook. Just so.

Richmond, Virginia, is a handsome and growing city. It now has over 70,000 inhabitants. During the past year there were 179 brick buildings erected in the city, 84 frame, and 34 old buildings enlarged, at a total cost of \$360,000. Its total taxes was \$609,434 33.

If the East increased its number of failures the West did better. During the last quarter of 1877 there were 203 failures against 77 for the last quarter of 1878. In 1877 the aggregate amount for the quarter was \$4,000,000, whilst in 1878, for the same period, it was only \$1,400,000.

Many of the old members of the New York "Printers' Union" are beginning to think that that organization has had its day of usefulness and that it may be better for all concerned, in future, to remove all restrictions upon the right of every printer to make his own terms with his employer in his own way.

The English papers take a very gloomy look at affairs. As 1878 passed away they could see no light in the East-no harbinger of brighter and better time. Trade is paralyzed and working people by tens of thousands are idle and suffering. No man is prophet enough to foretell when this shall end and auroral streaks shall

A swindle Exposed.

Numerous circulars have been received in this city from H. P. Jones & Co., dealers in dismonds, watches and jewelry, 868 Broadway, New York, pretending to be agents for a lottery which is described, and the recipient told that the agents will arrange that he shall draw a large prize on ing tickets in this State.

The swindle clearly is exposed in a recent issue of the New York Sun. It seems that when a response is made to the first circular, a ticket is sent, and shortly thereafter the holder is notified that he has drawn a watch and chain worth \$300, which will be shipped him upon receipt of \$3 to pay necessary expenses. If the party addressed is green enough to send the three dollars, he either never receives any reply or is sent a watch worth only its weight in

EVERY MOMENT'S WONDERFUL WORK.—
Every moment that we live the work of destruction never ceases among what is scientifically called "the tissues" of which our bodies are composed. Every moment, if we are in health, the work of repairing this destructive process goes on with equal pace. When the vital force is great, more vigor is given to the blood and muscular fibre than the ordinary wear and tear of existence uses ap. When the vital force falls from any cause, there ensues a wasting away, which, if not arrested, ends in decay and death. Physicians all declare that when these symptoms of decline set in, the only certain resmedy is Cod Liver Oil. But their patients, with almost equal unanimity, say that Cod Liver Oil is "Se Nasty" they cannot take it. The only resource left is to obtain SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA. This is altogether free from disagreeable taste and odor, and is an unequalled tonic for the nerves and brain. EVERY MOMENT'S WONDERFUL WORK
