the Indignant Trishman's Views of the Action in Cork. Washington Post Special.]

NEW YORK, Jan. 7 .- The Herald. under the heading of "The Cork In-dignity to Grant," prints an article from the Catholic Herald, saying it was reserved for the manly and truly Catholic corporation of Cork to administer a fitting rebuke to the brutal and bigoted soldier, who, in October. 1875, at Des Moines, took advantage of his exalted position as President of the United States, to revive the beastly cry of "No Popery." The Catholics of Cork do not forget that when Grant aspired for a third term to the Presidency of the United States, he tried to strengthen his position as a Republican candidate by importing in the most invidious manner the religious and anti-Catholic element into the political agitation. He appealed to the religious passions of the Native American element in our population, and that appeal has now risen in judgment before him in

"fhe Great Famine in Brazil." Mr. Herbert H. Smith, who is now in Brazil, collecting material for a series of papers on that interesting Empire, to appear in Scribner's Monthly, writes as follows: "People in the United States know little about this great famine that is raging in the northeastern part of Brazil; I, myself, had no idea of its importance until very lately. It is enough to state that it affects at least one-fourth of the whole population of the Empire; that hundreds are dying of starvation, and thousands of disease incident to exposure and insufficient food. In the city of Ceara, which will be my principal point of study, the normal population of 30,000 has been swelled to 80,000 by fugitives from the drouthsmitten interior country; and among this 80,000 the death-rate has reached the enormous figure of 300 per day. These drouths are periodical, occurring once in twenty or thirty years; it seems to me, therefore, that a study on the spot will be of very great importance; it is entirely another side of Brazil from that which I have before seen and written of."

Bayard Taylor and Beaconsfield. New York World.]

In his address at the funeral of Bayard Taylor, in Berlin, the Rev. Dr. Thompson cited a little incident at least as characteristic of the ingenious Disraeli himself as it is of Bayard Taylor. In speaking of Mr.

Taylor's brief career in Berlin, Dr.

Thompson said: Mr. Taylor himself took an honest satisfaction to a position which so worthily crowned the labors and the training of his life. He was in the sphere for which he was fitted, and with which he was satisfied. I shall not forget the frank pleasure with which he told me of his intercourse with the personal celebrities brought together at the Congress, and especially how the author of "Coningsby" and "Tancred," taking him warmly by the hand, said, "Taylor, Bayard Taylor, how glad I am

> Improving the Telephone. New York Graphic. 1

"There is my new telephone," said Mr. Edison, pointing to a box half as large as a cigar box hanging to the partition. "I have discovered a new substance which, if I can successfully control it, will revolutionize the tele phone system. I can't tell you what the substance is, but it enables me to make a telephone which will easily deliver a voice that can be heard in any part of the room in which it terminates. It is not necessary to hold it to your ear at all; you hear it as you hear me, and it delivers the voice without any diminution of volume. I have heard a whisper through it often, and it will deliver a whisper from here to New Yorkthat is, it will if I can control the conditions which make this substance responsive. Wait a while, and I will show you what can be done in telephones."

The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. HOLMAN LIVER PAD ABSORPTION vs. DISEASE Internal Medicine Abolished Forever

NO MORE CANKERED STOMACHS OR DE-STROYED DIGESTION !

DOCTORS, LAWYERS, JUDGES AND GOVERN-ORS ENDORSE THE PAD. HOLMAN'S LIVER PAD THUNDERING AT THE

GATES OF EVERY HOUSEHOLD. MALARIA MET AND VANQUISHED ! READ! PONDER! INVESTIGATE!

Net since the introduction of vaccination by Jenner, has any medical discovery equalled in importance that of absorption, as illustrated in the HOL-MAN LIVER PAD.

The principle upon which it acts is based upon common sense, and its development is the result of scientific investigation. Therefore, lay aside your prejudice, and give this your carnest attention and closest scrutiny.

ITS GREAT VALUE NOT AT FIRST REVEALED Like every new discovery, all of its good results Like every new discovery, all of its good results could not be known at once. Important developments, by way of cures of other diseases besides Malatia, were manifesting themselves rapidly, heing acknowledged and reported by the grateful patients of both sexes and all ages throughout the land, until it has now become a settled question that the Holman Pad, intelligently applied to the pit of the stomach, and worn according to directions, will cure ninetsen twentieths of the ills either sex is subject to.

THE STOMACH AND LIVER THE GREAT SEAT OF MOST DISEASES. SEAT OF MOST DISEASES.

The Pad further proves that the Stomach and Liver are the foundation of most of our troubles, such as Bilious disorders, Liver Complaint, Dyspepsia, Fermentation, Lassiude, Nervoueness, Neuralgia, Rheumatism, Diszinesa, life-long and periodical Sick Headache, Kidney Complaint, Diarrhosa, Bilious Colic, all kinds of Female Weakness, Irregular Action of the Heart, Jaundice, Liver Coughs, often taken for Consumption, Pains in the Side, Back, Stomach and Muscles, Fever and Ague, Dumb Ague, Malarial Fever, Ague Cake, Intermittent, Remittent and Bilious Fever, adding gloomy forebodings and depression of spirits, &c.

The above embraces a long list, and the unreflecting mind would naturally be slow in Accepting all these as proceeding from the great cause—the Stomach and Liver.

mach and Liver.

We ask the question—Do you remember of ever suffering with any of the above named symptoms while you had a sound Stomach and Liver? Ask your neighbor the same question. 0

PAD

ARE DECEIVED. Most persons seem to have the impression that all so-called Liver Medicines go straight to the liver. Medicine, like food, goes immediately to the stomach; a portion mixes with the substances, and acts as a cathartic, while the rem inder enters the circulation, and takes a long route through the blood, finally to the liver, and we may add, as a rule, does no permanent good, but rather leaves baneful effects, and begins the pernicious practice, which, if followed up, will eventually destroy the stomach and fasten disease in the system, never to be eradicated.

THE PREVENTIVE AND ANTIDOTAL POWER OF THE HOLMAN AGUE AND LIVER PAD. As a preventive of any disease that attacks the vitals, the Pad is worth many times its weight in gold. It is impossible to compute the value of a discovery which, without medicine, may be absolutely relied upon to prevent the most dangerous maladies. Nothing is truer than the old saying that prevention is better than cure.

The Pad will prevent Faver and Ague, Worn according to directions, the most delicate system may defy malaria, and come forth as safe as the three Hebrew children in the Old Testament story, did from the furnace of fire. This is absolutely certain, and has been preven over and over and over It will prevent Yellow Chagres, Typhoid, Remit-tent, Bilious and Congestive Fever, and fevers of all kinds. This has been tested and proven in so many instances that we state it positively and with-

many instances that we state it positively and without any qualification.

It will prevent Colds, and protect weak lungs against confirmed disease. It is better than all the chest protectors ever made. No one was ever attacked with Diphtheria while wearing the Pad

The habit of pouring medicines into the stomach, in hope of curing diseases that are tributary to the liver, is not only absurd, but wicked.

Nothing is so certain to produce torpid liver as continual doeing with Quinine. It temperarily excites, but finally deranges and impairs the functionary powers of this important organ. The effect of Mercury and Arsenic is to induce dropsical tendency. Do be persuaded to stop dosing and drugging, and use the Holman Pad. It is a precious boon to hu-

WOMAN THE MOST GRATEFUL.

None seem to receive such beneat and none show such profound gratitude and interest in promulgating the use of the Pad, as woman. It seems to be the only remedy peculiarly adapted to the many ills the sex is almost universally subjected to. Many very remarkable instances are constantly occurring and reported. For example, the Pad is applied for some specific trouble, such as Chills and Fever and Indigestion, or the Liver. Besides these, they have constant and periodical sick headaches, weakness in the back or kidneys, pain in the shoulders or different parts of the body, a feeling of lassitude and despondency, bearing down pains, prolapsus or retreversion of the womb and other difficulties connected with these organs.

despondency, bearing down pains, prolapsus or retroversion of the womb and other difficulties connected with these organs.

Without the hightest expectation or receiving any benefit for all these symptoms, she finds, to her great surprise and delight, that within a short time after applying the Pad that all of these symptoms are surely yielding their hold, and continue doing so until the system is restored to normal state of health.

Thousands of such cases are occurring.

You are ready to ask, and how is this possible? As has heretofore been explained, all these belong to the same class, and proceed from the same cause—the Liver and Stomach. The diseases were nothing more nor less than the result of impure, weak, vitiated poisonous blood.

The Pad rectifies the Stomach and Liver, and absorbs all the foreign properties for the blood, thus sending pure, vitalizing fluids throughout the entire system. These are no idle words for they are susceptible of proof, and it is carnestly hoped that women everywhere, ere long, will adopt the Pad (and our Plasters which are frequently used) in lieu of the unnatural and cruel treatment otherwise resorted to.

With this knowledge, it would be nothing short of

resorted to.
With this knowledge, it would be nothing short of an unpardonable indifference and cruelty not to adopt this simple and convenient remedy in all the above named cases above named cases

What ground can there be for doubting such statements? What felly not to accept them!

ENDORSED BY THOUSANDS.

The Holman Pad has stood the severest and most horough test for years. It has a national reputa-ion, established through its wenderful efficacy in all allments that have their origin in a torpid liver or diseased stomach.

We have tried the HOLMAN PAD with most the rough and beneficial results, and found it to be all that is claimed for it. We heartly commend it:

FIRST-CLASS WORK AT LOWEST NEW YORK PRICES, DESIGNS SENT BY MAIL. WORK PACKED AND SHIPPED, AT OUR RISK, TO ANY PART OF THE SOUTH, RICHARD WATHAN & CO. 57 Lafayette Place, New York.

Wathan's Monumental Designs, in book form, for sale to the Trade. dec 4 D&Wif New York SHOOTING COAT. A STYLISH, WANDSOME COAT.

First Class in every particular

Pleasant to wear, durable, and in the end the cheap est. MADE OF BROWN VELVETERN. Pockets and Lining made to take out, so that may be worn for early fall and winter shooting. Horace Smith, Eeq., says: "It is my idea of shooting coat. I have worn them for several year and will have none other."

Price for Coat, \$25; Vest, \$6.50. Also, the, best brown corduroy Pants, at \$10 per pair. I make on ity the one grade, as the channest goods do not turn briars and will not give satisfaction.

Also, in addition to the above, I am making Waterproof Canvass Suit, cut same style as the Veiveteen: goods, not staff and hard, but soft and plea sant to wear; guaranteed to turn water. Sportsmer, who have seen it say it is The Best Yet. Coat \$6.50. For fall Suit, \$14.00.

I also make the Sleeveless Coat; Vest with sleever if desired.
