The idea prevails to some extent that the late Caleb Cushing was the author of the Manual which is a standard authority in "Rules of Proceedings and Debates in Deliberative Assemblies." The real author was Luther S. Cushing, a lawyer of Boston, who died in 1856. Mell's Manual is also an excellent work.

Another change in the fraudulent Cabinet is reported. STABS IN THE DARK !—Every fit of Coughing in the still watches of the night, is a stab in the dark at the lungs. Heal the stabs and stop the stabbing with HALE'S HONEY OF HOREHOUND AND TAR, Nothing is so soothing. Nothing se quickly cures. No remedy can be less disagreeable. ENJOY LIFE.—What a truly beautiful world we live in ! We can desire no better when in perfect health; but how often do the majority of people feel like giving up disheartened, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Three doses of August Flower will prove its wonderful effect.

THE DUTY OF THE DOCTOR.—No Physician does justice to himself or his duty by his patient, disgusted at the thought of taking Ced Liver Oil, who does not at once prescribe SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA. Most Physicians know that it is whelly devoid of disagreeable taste or smell, and that there never was so invaluable a combination of food and medicine in any preparation that chemical science has discovered. They know, and with few exceptions they admit, that it has cured consumption and scrofilous diseases when all other forms of treatment failed, and that in all cases of nervous and muscular decay or debility, it acts as a restorative with an effectual power that is not true of any other remedy.
