The Radicals say if they can unseat Gen. Butler, of S. C., they will have two majority in the Senate in | 1881. Hence they mean to unseat him by fair means or foul if it be possible.

The California election is exciting much talk in Washington. The Democrats have nineteen States. It California goes Radical there will be a tie, and no election of President can be had by the House. This explains the great interest in the result.

Judge Hilton, the man who made himself somewhat notorious about an order concerning the Hebrews, made a speech before the National Militia Convention, held last week in New Yerk, in which he advocated "an organization like those of the nations of Europe," and said "the State rights must yield." He is a fit representative of the money kings. A strong government is what they demand—one based upon the European plan in which the soldiers are the "bosses." State rights have no friends among this class. Of course Hilton will be for Grant.

#### Important Concerning Vollow Fever and Quarantine.

[Washington Special to Baltimore Sun. The yellow fever experts who went South with the Congressional committee are now here engaged in the preparation of their report, which, it is understood, will be elaborate and interesting. The experts agree in the opinion that the yellow fever, which started in New Orleans last summer. was imported into that city from Cuba. The members of the Congressional committee are said to be unanimous, or nearly so, in the belief that Congress should enact a comprehensive and stringent national quarantine. The commercial interest in New Orleans did not seem to be very enthusiastic for a national quarantine, but the Mississippi people were very earnest in favoring it. The Mississippi people informed the committee that in the absence of a national quaratine, in case of another yellow lever visitation in New Orleans, they | third times. would establish a regular shot quarantine of their own against that city, burn down the railroad bridges, &c. The sanitary condition of New Orleans is said to be frightful, and the experts have knowledge that there are still isolated cases of the

S. B. 128, to incorporate the Bennettsville & Hamlet railroad passed its second reading.

Mr. Leach asked permission to introduce a resolution to purchase fifteen chairs for the use of the committees of the Senate, at a cost not to exceed one dollar.

Mr. Austin offered an amendment to purchase twenty-four chairs, instead of fifteen.

Mr. Leach could not accept the amendment, especially as this was a Legislature of reform and retrenchment. The idea of spending so much money at one time would be an unparalleled one, and then it would never do to go back to the constitu ents of this great body that they had drawn so heavily upon the Treasury. He could not possibly stand this stupendous expenditure of money, and if fifteen chairs were not enough to seat all of the committee, he proposed that they take it turn about. This was one of his pet measures, one to which he had given a great deal of thought. He had scanned it closely, and fifteen chairs was all that this body could possibly stand. Retrenchment and reform were synonymous with saving money, and the

things this Legislature was here for. Mr. Henderson, chairman of the Printing committee, reported that the committee had made a contract with Messrs. Hale & Suanders, who had given the necessary bond. The chairman of the committee was instructed to deposit the contract and bond with the Treasurer.

Question of Jurisdiction-Interesting

A case was heard before Justice Gardner, yesterday, which is of interest to citizens generally. It seems that Obadiah Jenkins was arrested last week on the charge of being drunk and disorderly, and the Mayor sentenced him to pay a fine of \$15 or twenty days' confinement in the city prison. Afterwards, however, on the promise of Jenkins that Le would guit the city by Saturday night, he was released. He was found here after the expiration of the time allotted for his departure, and, according to instructions, Officer Williams arrested him. The case was carried before the Justice named, yesterday, and on inquiry into the facts it was held that the arrest of Jenkins was illegal; that the Mayor had no power to authorize the arrest of any citizen without a warrant or due process of law; that the order of the Mayor was not legal process, and that in executing it the officer, at his own risk, was guilty of assault and battery. 'Squire Gardner, therefore, fined Officer Williams \$50 and costs, and on this decision the case was appealed to the Criminal Court.

This is an interesting case and will result in fixing the limit of the power of the police to make arrests. It was admitted by the Magistrate that city officers could make arrests for offences committed in their presence, or known to have been committed, by virtue of their office; but that that was the precise point at which their authority ceased. In fine, that a mere order of the Mayor is not a process in the contemplation of the statute for the arrest of citizens once discharged.

A Fall and Blee in Naval Stores. Yesterday, in the forenoon, there was deal of interest manifested by a large crowd of men and beys, who had congregated at the corner of Dock and Water streets. A flat, loaded with naval stores, was thrown by the strong tide then prevailing under the bow of the schooner Julia Elizabeth, and so fercibly as to discharge the bulk of the scow with the remainder of her cargo. There were about three hundred barrels of turpentine, tar, spirits and rosin aboard the unlucky craft, most of which was or will be recovered. The flat is a mere wreck,

and at one time the lives of several mon on a timber raft which was forcedfin between the schooner and the wharf, were in such peril as to excite the liveliest apprehensions for their escape from death.

Mayor's Court. Business at the Mayor's office was indeed dull. At the first tap of the drum Monday morning, Alice Kelley, described to us as one of the reigning queens of Paddy's Hollow, waltzed in to answer the charge of having been drunk and disorderly. She was in tears-a very potential argument with the sterner sex-and on promise to

leave this bailiwick was released. Charles Cithman, a sailor boy, was arraigned for being drunk, disorderly and resisting the police. The law doctor prescribed for Charlie in this wise: fifteen dollars or twenty days in the city prison. He went down for the present.

'Our Boarding House." The box-sheet for the sale of tickets the presentation of this piece was opened yesterday. We presume that play-goers were on the qui vive for the best locations and if the press at a distance are reliable as to its merits, they have not moved in the matter of eligible places a day too soon. The New York Herald, in speaking of its production in that city, said "the admirable representations of 'Our Boarding House, at the Standard Theatre, are thronging the place every night. Nothing but standing room can be obtained by those who do not go early," thus indicating that it was received with decided approbation even in Gotham.

Sunday Night's Alarm.

The slarm of fire Sunday night was caused by the discovery that a quantity of homespun, calico, and some clothing, at the residence of Mrs. Mary Williamson, on North Water street, were on fire. There was no necessity for the services of the Fire Department, as persons on the premises extinguished it before any damage to the building occurred. The loss to Mrs. We will probably amount to \$40 or \$50.

State Board of Health. This important body was to have met in Raleigh yesterday. Dr. S. S. Satchwell, of Pender, is President of the Board, and Dr. Wood, of this city, Secretary. They will report to the Legislature the results of their operations for the past year, and doubtless transact other business looking to the points which have come within the scope of their observation and study.

Street Car Stables, Cars, &c. Last night about half-past 11 o'clock the alarm of fire was sounded in the Second Fire District, and a bright light was seen in the direction indicated, which was found to proceed from the burning of the street car stables, just beyond 17th street, on Market. Mr. W. P. Canaday, to whom the property belonged, and who resides on the corner of Market and 17th streets, diag onally opposite the scene of the fire, was aroused by the kicking of the horses in the stables, and getting up, discovered the building in a light blaze all over. Heran immediately to the stables and attempted to force the doors un ssisted, but was unable to open any of them before the heat became so intense that he was compelled to retreat. The flames rapidly spread to a small dwelling adjoining, owned by a Mr. Rogers, but which was fortunately unoccupied, a family having moved out of

the building only last Saturday. All the street-car horses, ten in number, were burned, and all the cars, except a small one, which was pulled out badly blistered, and one of the large cars which was undergoing repairs in a building some distance from the stable.

The stable building was valued at about \$800, and was insured for about \$500. The two large cars burned were insured for \$400 each, and the three small ones for \$300 each.
